By the Associated Press fierce Winds Down Jet Liner

INIONVILLE - A Continental Airlines jet came apart in orm-laced skies Tuesday night, possibly under hammering of ferce winds, and fell to earth in pieces. All 45 persons aboard

A young Japanese-born engineer survived the crash and seven igonizing hours in the wreckage, but died in a hospital about minutes after he was rescued early today when the full scope of the tragedy became known.

Authorities said there was a possibility the \$5-1/2 million plane was literally torn to pieces by tornadic winds.

#### The Road to Hong Kong Closed

HONG KONG - Reports from the frontier said Red China border guards late Wednesday began to curb the flow of refugees into Hong Kong. Britain has asked Peiping to intervene because this colony has been swamped by the flow of fugitives. Border area residents said Communist guards first shouted orders that groups waiting to cross should return to their home

villages and then fired warning shots at those who still attempted There was no confirmation from Hong Kong authorities. A

tovernment spokesman said the government would not comment what might have happened on the Communist side of the

The reports said Communist guards took the clampdown action after a group of about 1,000 refugees made a mass escape across the border this afternoon.

### Was Murder! Incomplete Autopsy Shows

FRANKLIN - A Texas grand jury ordered a subpoena today an Agriculture Department official as they began looking for motive in the mysterious death of Henry Marshall. The action came after a medical expert said an incomplete autopsy shows Marshall did not commit suicide about a year ago but was murdered.

Dist. Atty. Bryan Russ and Texas Atty. Gen. Will Wilson wired Secretary of Agriculture Orville Freeman and asked that William Ellion, Chief of the Investigation Division of the USDA in Dallas, Tex., be made to appear and bring records of cotton allotments given to West Texas financier Billie Sol Estes. Estes is under indictment on fraud charges.

### Doviets Begin Berlin Tension Again

BERLIN - Soviet forces held up a west-bound U.S. Army convoy nearly six hours today after letting this divided city's tensions ease off for two months.

The convoy was finally allowed to go on its way after a stiff protest. But it was the first interference with Berlin traffic since the Russians dropped their harassing tactics in the air corridors in March. It also was the longest delay on the autobahn since the Communists built their wall through the city in August.

The Russians seemed to be trying again to make their point that they have the right to be given advance notice of the movement of Western military courses along the 110-mile highway across of Western military convoys along the 110-mile highway across

### Record Budget For Space Passed By House

WASHINGTON - The House voted today a record budget for space exploration and heard a prediction that the burgeoning cost of the program eventually may include the life of an Astronaut

It sent to the Senate a bill to authorize the National Aeronautics and Space Administration to spend \$3.67 billion dollars during the fiscal year starting July 1.

This is almost three times the Agency's budget for the present year and is subject to actual financing in a separate appropriation bill.

Land-grant education in the United States is observing its centennial anniversary this year. Michigan State University, at that time Michigan Agricultural College, was the first institution established as a land grant

college. Officials here credit one man with much of the vigorous growth of this University as a well-known educational institution, John A. Hannah.

President Hannah received his bachelor's degree in poultry science here in 1932 and joined the poultry department as an extension specialist.

He became secretary of the dent's state board of agriculture, at Cebes that time the governing board of Others the institution, and in 1941 he about the Center and they send assumed the presidency of the their advises there only when

# World Ills

East Lansing, Michigan

Communist speaker Robert Thompson, amidst the jeers and heckles of students, Wednesday night declared that the two most pressing problems facing the world are the prevention of war and peaceful coexistence.

The former chairman of the New York State Communist Party said that parties must be judged by their awareness to these pro-blems and by the solutions they put forward. He asserted that his party, the "party based on the social beliefs of Marx and Lenin" has the answers because it takes not a "unilateral approach but one which is the universal goal of mankind."

This newly developed attitude in the struggle for peace, he said, has become fundamental and decisive in our world.

Thompson charged that the A food technologist, a chemical policies carried out by the United company executive, a nuclear States and Great Britian have kept propulsion scientist, a steel re- the world in a "competitive" search administrator and a situation. plies have to be included first. propriations.

### Varg Slated To Head School

The Michigan State News understands that Paul A. Varg, his orbital trip. But he'll be no professor of history, will be recommended to be the first dean of the new College of Arts and Letters at the Board of Repeat Exams Trustees meeting Friday.

Varg was born in Worchester. Mass., and received a bachelor or arts degree from Clark University in 1935.

He received his masters degree at the same university in courses.

## Set 10:30 **Deadline** For Shot

Aim For 3 Orbits Or "No Go"

CAPE CANAVERAL F Everything looks good for launching Astronaut Malcolm Scott Carpenter into orbit some time after a.m., EST., today, space flight directors reported today.

And, in a change of plans,

they disclosed they have decided to shoot for nothing less than three orbits. This means that if the great atlas rocket bearing the Auror a 7 capsule does not get off by about 10:30 a.m., EST. the adventure will be postponed for another day, at least.

Previously, it had been an-nounced that the blast-off could occur as late as 12:30 p.m., EST, but in that case the mission would have been cut to two orbits or even one, to allow plenty of daylight to fish Carpenter's capsule from the Atlantic. At a news conference today,

Lt. Col. John A. (Shorty) Powers, astronauts' spokesman, revealed that project mercury managers had decided that if they rould not fire the rocket in time for a triple journey, they would "try

space sightseer.

He'll be reporting on his condition and that of the capsule; controlling the craft, making scientific studies and observing the unknown, silent voidof space.

Among other things, he'll trail a 30-inch balloon behind the capsule; disperse plastic confart in sule; disperse plastic confetti in space; watch for flares fired in

Australia, and study behavior of a flask of green-tinted water. He'll also eat, drink, peer at the stars, make weather observations of the clouds, and look for "fireflies."

He may also become the first man to orbit upside down for any great length of time.

His flight plan for the journey calls for him to try inverted flight for about 20 minutes -possibly near the end of his second orbit. The idea is to get a better look at the earth and the weather pattern over the southern United States.

Carpenter probably will change from normal to inverted position while crossing over Texas. He will accomplish this first by turning in yaw attitude -- that is, to one side -- for 180 degrees, and then rolling 180 degrees so that the small end or nose of the capsule is inverted forward. Because of weightlessness Carpenter should not feel that he is upside down, Instead, ex-

perts said, he will have the impression that the earth is above Looking out a window just above his eye level, he should get a better look at the horizon, and at the cloud pattern from Texas on east, than the other orbital voyagers, John H. Glenn, Cher-

### French Tribunal Sentences Salan to Life Imprisonment

PARIS (# - A French special The verdict came after almost night convicted ex-gen. Raoul Salan of treason and sentenced

him to life imprisonment. The court found there were moved the judges to spare him from the death penalty.

The tribunal sentenced Salan, once the nation's most decorated officer, for his role in the shortlived Generals' Putsch in Algiers last year and for his leadership of the Secret Army terrorist organization that seeks to retain French rule in Algeria.

The special nine-man tribunal

## Communism Courses Should Be Taught, Professors Say Two MSU professors support Political pressure from the com-

the nation's high school and college classrooms, provided its presentation is thorough and fac-

"Communism should not only be taught because it is there, but because it is a legitimate factor in world history today," said Alfred G. Meyer, professor of political science and author of several books dealing with Com-"If there are three or four

ital issues which we must understand as thoroughly as possible. Communism is one of them." William B. Hawley, acting dean of the College of Education, agrees with Meyer.

'Teaching about Communism or social order, if it is done said. "But this does not deny objectively and with the purpose of learning and understanding people in the world and their problems, is the only way we can have any intelligence to deal with these problems," Hawley said. A growing national movement seems underway for public ed-

ucation in the United States to offer courses in Communism. Florida recently passed a law requireing that a course in

Americanism Versus Communism" be taught starting this fall in all its public schools. Several national organizations, including the American Bar Association and the National As-

sociation of Attorneys General, have recommended the "factual and objective" teaching of Communism in the nations's high schools and colleges.

Here in Michigan the State Board of Education has appointed a study committee to examine the issue.

The argument for teaching Communism has long been supported in academic circles. Most colleges and universities, including MSU, offer course material of this nature.

But the push for teaching it in high schools seems now to be centered at the local level where community groups are exerting pressure on school boards.

which could be attained at the high school level. It is "very likely", he said, that a high school course in communism would be little more than propaganda because the pressure being applied by community groups is a "panic measure" resulting from fear and alarm. munity would make it difficult essarily valid. for the teacher to take "a highly scientific and unattached

But Meyer said he believes even a "heavily colored" course would do no more harm than "reinforce present day thinking on Communism and the cold

Hawley emphasized that a course in Communism must do more than present the facts. It must show the relationships between value patterns and examin the fundamental concepts.

Hawley also said that education must help the student arrive at a conclusion.

"We could not very well have a goal to distort the truth," he the responsibility of the individual to point out, to compare with the idea that the ideas we hold for humanity have the most desirable pattern for achieving the goals of humanity."

A charge leveled frequently by those opposed to teaching Communism in high schools is that the students are too naive and unaware. Neither Meyer or Haw-

We are always in danger of underestimating the capabilities and "potential enthusiasms" of high school students, Meyer said. The ability demonstrated by high students in mathematics and science has proved that they can be taught far more than we are teaching them at the moment.

Hawley concurs. "We have the brightest bunch of high school youngsters today that the world has ever known! he exclaimed.

The ability levels of each successive class of incoming M.S.U. reshmen has been rising in the last three years. For example, where 50% of the new freshmen in 1961 exceeded a given level, only 33% of the class of 1959 were at this level.

## **Doctors Explain X-Ray Use of** For Diagnosis, and Treatment

By JOHN BARBOUR Associated Press Science Writer

NEW YORKIF - Once X-ray and fluoroscope machines were so common that youngsters shopping for shoes could slip their feet into a cabinet, peer through a viewer and see their toe bones wiggling inside.

Not any more.
Radiation-wary scientists and doctors teach that radiation is not a toy. But doctors who know its irreplaceable medical uses say it should not be mistaken for an atomic bomb either.

Properly used it is a valuable tool for diagnosis and treatment, To help its members show how. the American College of Radi-ology is selling kits of pictoral slides which can be used for lectures to doctors and laymen.

radiation facts, the College decided to let its doctor members only an outline and cartoon slides

## Titans Score 12 Runs in 8th, Gain Revenge Over MSU

Detroit University scored 12 runs in the eighth inning to defeat Michigan State, 16-11, in a baseball game here Wednesday. The Titans vowed they would

get revenge for an earlier loss to the Spartans and they did. However, State put a scare into the Detroiters first.

Home run power by Jerry Sutton, he socked two, shot State into what looked like a comforinto what looked like a comfortable 9-4, lead as the game moved into the eighth.

Then the roof fell in on State's and scored 12 runs to wrap up the contest.

when the trouble started. The Spartan hurler retired one man but a single by Glen Goode chased two runners home and Klewicki departed for the showers. That brought John Elias from

the bullpen. Elias faced three batters, gave up a double, walk and one hitter reached base by way of an error, and that was all for the senior lefthander. Righthander John Aquino was the next MSU pitcher. Aquino fanned one batter but he was nicked for two walks, a double.

the Titans' scoring. Jack Nutter took over for Aquino with a runner on first but Nutter ended the marathone inning by striking out the last

triple and home run to wind up

Throughout the inning and also in the ninth the Spartan bench repeatedly cat-called the home plate umpire. Twice during the game the usually mind-mannered John Kobs, State coach, came out to argue on the call made on close pitches.

Detroit scored its first four runs off Cary Ronbert, who started the game for the Spartans. Michigan State opened the contest with a flurry against Titan ace righthander Pete Craig.

In the bottom of the first Jeff Abrecht opened with a walk and Dennis Ketcham followed with a looping single to left. Then Joe Porrevecchip drilled a single through the infield, scoring Abrecht.

Sutton delivered a towering drive over the fence in rightcenter and scored behind Ketcham and Porrevecchio, State leading 4-0. Detroit combined two singles

in the second to push across their first run, making the score.

State got the run back in the third when Jerry Lumianski

COOLED BY REFEISERATION

scampered home on Gordon Hjortass' single to left.

The Titans cut MSU's advantage to 5-4 in the fifth when they bunched four one-base blows for two runs. However, the Spartans roared

back for three runs of their own in the bottom half of the same frame when they collected two walks, two singles, and a sacrifice fly. After five full innings State was

leading. 8-4. Klewicki relieved Ronberg in the sixth and worked the next two innings without giving up a

another run, to make the score 9-4, when Sutton skied a drive high into the trees in right.

Then the game progressed into the fateful eighth. Pitcher Craig opened the inning with a double to center and before the frame was over six other batsmen had pounded hits.

Goode finished the Titan scoring by lashing a three-run home run off Aquino.

Despite giving up 12 hits and ll runs, Craig pitched the distance for the win. Elias was charged with the loss.

minated conference pitching statistics. Fletcher allowed only two runs and knocked in 18 runs to earned runs in 45 innings for an capture two of the three most unbelievable 0.396 earned run amorous hitting crowns. average, breaking the conference. The third major batting title, record of 0.42 set by Minnesota's Paul Giel in 1952.

Fletcher also struck out 42 batters to lead in that departrevecchio finished infourth place ment and had a 5-0 won-lost behind teammate Jeff Abrecht, record which tied him with team-The Spartan outfielders batted mate Doug Mills for the Big Ten lead.

Illinois, which won its 18th conference baseball championship, led the league in pitching and fielding. Ohio State set the pace in team batting with a .312 mark. Michigan State was a respectable third in this department with a .263 average and they tied for first with Illinois for team homers with 10.

State finished in a tie with Indiana for fifth place in team standings. A late season spurt enabled the Spartans to escape the conference cellar.

All averages are for Big Ten competition only. Iowa and Minnesota have not completed their conference schedules, but neither has any players in a position to threaten the top performers as

#### Home Runs, Few Errors,

Solid ball with few errors dom-insted IM softball Tuesday night. Harlow Judson hurled no hit ball for five innings, striking out 10, but Ed Chapman reliev-ed in the sixth as the Kedgers lost to the Vets, 5-2. Both teams remained scoreless in the first five innings. Winning hurler was Bill Reed. Bob Sheldon slammed a two run homer in the sixth for Kodgers only tallies.

Allowing one hit, Jim Schneider led the attack as C.S.O. glided past Cossa's Raiders, 10-0. Dave Sheedy hit two singles and a triple in three trips for C.S.O. Making it easy, Harris Newell gave Kamikaze one hit ball as the Sugardaddies romped, 10-0. The game was called after four

Homers in the second brought Luther f om a l-l tie in the first to a 13-1 win over the Big D's. Dennis Clave hurled a one hitter and matched the homer of Paul Bergdolt for the win. The Horrendifiers clobbered

lar 65, 6-3, with a three run rally in the fifth. Tom Finch hur-

Gilbert smashed a homer for

#### Looking Good In an ex-player's opinion, the

1962 Spartan soccer team seems to be headed toward a good year. Dave Christie, former MSU forward, feels the latest edition of the team has a fine bench

fense jammed the nets.

goal on a penalty shot, while john Geimisi added the other. Jean Lohri and Mab Ventura. last season's scoring leader, accounted for the varsity goals.
