Romney Supports Proposed Constitution

Claps At Opponents 'Distortion' Of Issues; Says Half Of Electorate Uninformed

By BILL DOERNER of The State News

Attorney General George W. Romney said today that opponents of Michigan's proposed new constitution are guilty of a "distortion" of issues and that only half of the electorate is informed more to solve Michigan's problems than either he or the legislature can.

Romney said he plans to correct "distortions" and lack of knowledge about the new constitution. He claimed that 50 percent of the electorate has already decided how it will vote.

Romney said the old constitution does not provide the governor with sufficient executive authority. "The attorney general is better represented in the departmental organization than I am as governor," Romney said.

Negro Enters Clemson Today

Campus Calm In Preparation For Gantt's Registration

CLEMSON, S.C. (AP) - State agents and plainclothes agents searched Sunday on Clemson College campus with orders to keep the peace when the South's first Negro student, James Gantt, 20-year-old of Charleston, S.C., is enrolled here today.

Gantt will be the first Negro admitted to a white state-supported educational institution in South Carolina. He will be enrolled under orders from the U.S. 4th Circuit Court of Appeals.

Thaw Brief As Frigid Air Strikes Again

The beginning of a long-awaited thaw this weekend raised hopes for warmer weather, but a new cold spell descended on the East Lansing area accompanied by snow and high winds.

The town, with the college staff and faculty of about 1,200, is not a typical southern community. A cosmopolitan flavor engendered by the college is increased by various industries which have located in the area to be near the school's research facilities.

Delta Merger

The first classes of the new semester begin Friday. Most of the students will be on the campus by Thursday.

The new cold spell is expected to last at least four days. The temperature was predicted to drop below zero Sunday night. Winds are expected to increase to 20-25 miles per hour accompanied by new snow flurries today.

DOUBLE TROUBLE--The autos of Chris P. Hackett, Grand Rapids freshman and Charles N. Diamond, Gates Mills, Ohio junior are seen following a collision of the two vehicles at

Kalamazoo and Dem Hall service drive. (see story p. 7) --State News Photos by Skip Mays

Vast Research, Expansion Outlay Set

Boost Science, Construction

MSU's building and science programs were thrust forward Friday by action taken at the Board of Trustees meeting. The trustees let contracts totaling \$6,797,238.78, including four for the new \$6 million Chemistry Building.

Besides those for the Chemistry Building, the trustees let contracts totaling \$1,400,212 for a 997-car parking ramp; \$768,680 for a Buildings and Utilities shop building; \$112,643 for steam tunnels to the Chemistry and Cyclotron buildings, and \$195,678.78 for construction of storm and sanitary sewers from a point just east of Bogue Street to Hagadorn Road.

physics, will use the NIH research grant to study the molecular basis for thought processes. Augenstein and Barnett Rosenberg, associate professor of biophysics, hold other grants from the NIH and Atomic Energy Commission which now amount to approximately \$250,000 a year.

Gifts and grants accepted by the trustees totaled \$3,162,553.85. With a \$184,000 grant from the Agency for International Development, the University will continue to assist two engineering colleges in India.

May Use Dorm Auditoriums To Promote Culture On Campus

John E. Dietrich, chairman of the speech department, suggested taking theater to students to the Board of Trustees Friday.

Auditoriums at the coeddorms could easily be used by touring groups for one-night stands, he said.

Students "come flocking to cultural activities," but often there are not enough tickets to go around, Dietrich said.

Trustees Appoint Winder New Psychology Chairman

Clarence L. Winder, a former Michigan State staff member, is returning to MSU July 1 to be chairman of the department of psychology. Winder was appointed Friday by the Board of Trustees.

Winder succeeded Louis L. McQuitty, who became dean of the College of Social Science July 1, 1962.

Winder has been particularly effective in developing research scientists, as well as professional psychologists. At the same time, he has carried on an effective research program of his own, said McQuitty.

J-Hop Changes Distribution Dates

Ticket distribution for the 1963 J-Hop, "Emerald City," will open this week. Juniors may purchase tickets on Wednesday. Ticket sales will open for all students on Friday at the second floor checkroom of the Union.

Chest Gift Is Help To Students

Paddy Anderson, honorary chairman of the Campus Chest drive Monday through Saturday, asked students to "count your blessings, loosen the money belt and give the Campus Chest a hand this year."

COLD

THE OUT—Gov. George W. Romney takes a break during his speaking engagement at the MPA Convention at Kellogg to sign autographs.

Romney—Constitution

(Continued from page 1)

...but the best Michigan work with.

The tendency in Michigan to look up obstructionism by vetoing the possible and supporting the impossible in an all-or-nothing campaign is just as dangerous as status-quo negativistic conservatism.

Lawyer said opponents of the constitution tell voters "if you don't know, vote no." He called it a negative appeal based on ignorance.

Furthermore, voters are being told that they don't have to accept the whole package," Romney said. "This is unrealistic because the new constitution is an integrated document.

It would be more to the point to get the backers of this argument to accept it in full and make the desired changes after it is signed.

Romney said people were also being told that they shouldn't accept a constitution with appropriate provisions declared illegal by the State Supreme Court.

"The new apportionment for Michigan is not illegal, and there is nothing in the constitution which indicates it is," he emphasized.

He said that people were being told their civil rights would be weakened under the new constitution.

"Actually, Michigan will have its strongest civil rights section of any state under its new constitution, including a constitutionally provided civil rights commission."

State News Photo by Dave Jaehning

Romney hit attempts to make the document a partisan issue. "The new constitution should not be a partisan issue," Romney said. "It was conceived in citizenship."

"Michigan's Young Democrats raise money and help the party in elections," Cucher said. Money raised helps finance pamphlets, party newspapers, and policy issue letters, he added.

MAESTRO MEETS MAESTRO—Italian countrymen Leonard Falcone (right), and Maestro Renato Ruotolo, conductor of the Orchestra San Pietro of Naples meet after the orchestra's performance Friday night at the Music Building Aud. Orchestra members are seen in the background.

Cites Press Releases On Cuba

Only Withheld Security Data Says Salinger

Pierre Salinger, President Kennedy's press secretary, told a capacity audience of Michigan editors and publishers Friday evening in Kellogg Center that only information of a security nature was withheld from the press during the Cuban crisis.

"Actually, there were two phases in the crisis," Salinger said.

"During the first period, in the week before the President's speech, there was secrecy of a very premeditated nature," Salinger said.

He said that news was withheld to capitalize on "the element of surprise," and added "I don't think there's any doubt that this was a major factor" in the success of the quarantine policy.

During the second phase, he said only security information about the movements of troops and ships was kept secret.

Salinger called Kennedy "the most accessible President ever had" and said that his administration has developed the most open information policy that Washington has ever seen.

"In previous administrations, before a reporter could interview anyone on the White House staff he had to secure the approval of the press secretary. Now anyone can interview any member of the White House staff."

He criticized reporters who were willing to wait for "hand-outs" from officials.

"Another initial problem was our serious failure to communicate with foreign press," Salinger said.

He cited several steps which he has taken to better inform correspondents from abroad, including the addition to his staff of an assistant whose primary responsibility is dealing with the foreign press, more effective communications with foreign correspondents located in New York, and tours around the country by representatives of foreign newspapers.

The press aide, who had just left a 36 hour negotiation session between the publishers and unions in the New York newspaper strike, termed the situation "very difficult."

In a press conference after his speech, he refused to say whether the two sides were any closer.

Salinger suggested that an impartial study should be made of the newspaper industry, although he admitted that the New York and Cleveland shut-downs had reached too advanced a state for such a study to be of use.

State Chairman Explains Role

Young Dems Stress Voter Education

Young Democrats of Michigan function to educate the voter regardless of his political ties, Allan Cucher, state chairman of Michigan's Young Democrats said Friday.

"Most people, even college students, don't know what the basic issues facing our government today really mean," he said.

Cucher said that many people think a political party comes to life only at election time.

"They don't realize there is a complex organization which works year round," he said.

"Michigan's Young Democrats raise money and help the party in elections," Cucher said. Money raised helps finance pamphlets, party newspapers, and policy issue letters, he added.

Cucher pointed out that Young Democrat Clubs are sponsored by colleges, civic groups, and counties.

"Colleges have the greatest potential for the Democrats because they are increasing awareness to political problems," he said.

Since Cucher took over as chairman of the State Democrats the state membership has grown from 1,000 to 2,500 members.

"The rise in membership is an indication of a state movement which is under way. We are spreading through the state. We have clubs from the Indiana border to the Upper Peninsula," he said.

Commenting on the new Constitution which is being pushed by the Republicans, Cucher said that the apportionment as stated by the new document would hurt the Democrats.

Cucher said that one way which might not hurt the Democrats would be to base the House of Representatives on population alone and the Senate by district. There would be six or eight members at large in the Senate who would be elected from the over-crowded Detroit districts.

"This compromise seems to me to be the only plausible way for the Democrats to come out unharmed by a new apportionment," Cucher said.

Students Lack Direction: Meyer

By SUE FRY Of The State News

Most undergraduate students don't know what they are in college for a political science professor said in a lecture Thursday night.

Speaking at a Union Board-sponsored Last Chance Lecture, Alfred Meyer said that an "overwhelming lack of direction" characterizes today's undergraduate college student.

"Many of you know precisely what you want to do. You are usually better off," he said. "You have a goal which you have chosen or which has been chosen for you."

One danger, the threat of disillusionment, awaits students who have this goal, Meyer said.

He listed several reasons for this feeling:

The student's field may have been picked for him.

The student may be following the lines of least resistance.

The student may find that he does not do well in his chosen field, or he may have had "the

bad luck of having a professor who makes the field seem boring."

Meyer said he would make the assumption that work is unpleasant. "Without being considered a loafer or starving to death, we would not work. Work is one of the major causes for unhappiness," he said.

One of the student's major goals, he said, should be to join the ranks of those who like their jobs. "You should select job goals which blend with life goals," he said.

Meyer listed two steps in choosing a job or a field of study: self-examination and "shopping around."

"Never cease examining yourself and the image you have of the role you want to play," he said. "Discuss yourself with friends and advisors."

"Choose a major field which allows a great number of alternatives," he said. "The more you know about various fields, the more jobs you will be acquainted with."

Meyer cited social prestige as the highest of all goals for many undergraduates.

"If this is the case," he said, "The University will be very helpful. It will serve as a marriage brokerage, a place for learning the ropes of bureaucratic organization, and as the source of personal contacts."

"Some of you may be coming here to become Big Men on Campus or Big Women on Campus," Meyer said. "Your main goal may be Mortar Board, Excellence, or a student body president."

Meyer said there is a great deal of talk today of pursuing both the academic and the activities life in college.

"This combination is extremely difficult," he said. "And most of you will have to choose."

"It takes all of a personality to be a campus leader," he added.

The price for such a choice is conformity.

"You will have to conform to the norms of the Greeks in dress and in expressing generally accepted opinions," he said.

"To become a Big Man on Campus, you may have to sacrifice much of your individuality, autonomy, and self-respect," he added.

Another goal of the college student, Meyer said, is training for individuality.

He defined individuality as, "The ability to leave the rat race, to be as a child, to step out of the life duties."

"But this is only part of individuality," he continued. "Anybody who wants to become himself must not only know himself, but must be aware of the world around him."

Calendar of Coming Events

- German Folk Dance Club--7:30 p.m., 21 Union
- College of Home Economics Faculty Meeting--1 p.m., 300 Home Economics Building.

Food Industry Facing Profit Squeeze

New ideas are needed to help the food industry fight a profit squeeze which is affecting the entire business, a Hudson's department store executive told a meeting of the MSU Hotel Association and Les Gourmets.

Richard Schaefer, assistant manager of Hudson's downtown and merchandising facilities, gave examples of Hudson's approach to food merchandising.

He said the store may employ 1,000 people to serve food to 100,000 customers per day during the Christmas season.

Schaefer is a 1951 graduate of the MSU school of Hotel, Restaurant and Institutional Management.

THE BELL TELEPHONE COMPANIES SALUTE: JERRY JOHNSON

Recently, Northwestern Bell promoted Jerry Johnson (B.S.E.E., 1960) to District Equipment Engineer in Omaha. On this new job, Jerry supervises a staff of eleven engineers and four clerks. Quite an achievement for an engineer with the company only two years.

Jerry showed exceptional ability from his first assignment as an Outside Plant Engineer. There he gained attention for his capable handling of a special cable project. This led to a promotion to Service Transmission Engineer, the job that preceded his most recent step up.

Jerry Johnson and other young engineers like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.

Win From Free Throw Line

Cagers Polish Golden Gophers, 61-59

MINNEAPOLIS, Minn.—Calm in seven of eight tries in the last two free throw attempts and a half to lead Minnesota, the Golden Gophers defeated Michigan State Spartans Saturday night.

SPARTAN GOAL—Action around the basket goal that drew out Gerry Bauman, Michigan Tech goalie, and set up the first score for State.

Hockey Fans See Double As Icers Drop A Pair, 6-2

By GARY CONBERG
Of The State News
At the sports and games show...
The Spartans were defeated by Michigan Tech 6-2 in the first game...
In the second game, Michigan Tech defeated Michigan State 6-2.

He injured his back on the play and was unable to take the shot. Stepping to make the game's first point was Bill Schwab, who replaced Lamora.
Lamora's injury is not considered serious, he will probably play in the crucial game against Michigan next Saturday.
The Spartan captain turned in one of the finest Spartan defensive efforts of the season, holding Kuntze, hottest shooter in the Big Ten without a field goal until four minutes remained.
Coach Fordy Anderson revamped his defense for the Gophers using a three-man zone up front with the two guards playing man-to-man in the backcourt.

Gymnasts Sweep Past Hoosiers, Chippewas

The Spartan gymnasts rolled two birds with one stone Saturday, scoring a dual victory over Indiana and Central Michigan.
The Spartans downed the Hoosiers 75 1/2 - 57 1/2 and outscored the Chippewas 78-52.
Indiana also defeated the Chippewas 65-45.
Coach George Stypula was extremely pleased with the performance of the squad, which seems to mature and grow stronger with each contest.
Stypula was started over the performance of sophomore Casey Price and Todd Gates.
Price, a Lansing product, finished third on the still ring behind teammates Dale Cooper and Jerry George. His performance adds depth to an already strong event.
Gates, who didn't compete against Ohio State because of an injury, gives every indication of being a tough competitor in the parallel bars for the remaining conference meets.
Of all the contestants, Dale Cooper of State and Ron Fowler of Indiana drew the most applause from the large turnout.
Cooper's outstanding performance in the still rings earned him 98.50 points and a first place finish.
Fowler finished second with 97.50 points and a second place finish.
The final analysis, it was the Spartans' overall depth which proved to be the deciding factor in the contest. Both rivals were severely undermanned.
The only casualty was senior Bob Carman, who suffered a

JERRY GEORGE

Both teams were cold from the floor. State hit on 21 of 39 free throws. Minnesota was 25 of 39.
The Spartans went into a prolonged cold spell at the start of the second half, going the first nine minutes without a field goal. During this period Minnesota moved from a 37-27 deficit to a 41-38 lead.
State wrestled back the lead at 46-45, and after three ties went in front to stay when Berry hit a layup to make it 53-51 with a little more than four minutes remaining.
Each team canned 19 free throws, with the Spartans having 23 attempts to the Gophers' 27.
Four MSU starters had perfect nights from the charity line. Berry made good on six shots, Williams, Tom Sanders, three and Pete Cain two.
Gates added 10th field goals to give him high point honors with 20. He scored 15 in the first half to pace State to a 36-27 halftime lead.
Williams and Berry each contributed 15 rebounds for the lead in that department.
Star forward Eric Magdanz topped the Gophers with 19 points. Tom McGrann added 14 and Mel Northway 10.
Minnesota had been plagued by injuries all week before the game, but only one Gopher was out of the lineup. Don Peterson, guard, had a foul on the 11th day night. Don Peterson was out of the lineup.

Spartan Wrestlers Jubilant Losers After Near Upset Of Oklahoma

By JIM THOMAS

The Spartans' victory over Oklahoma in the final match of the NCAA wrestling tournament was a triumph for the team generally, and for the University of Michigan State wrestling program specifically. The Spartans' victory was a testament to their hard work and dedication throughout the season.

But, we watched them win... The Spartans' victory was a testament to their hard work and dedication throughout the season. The team's performance in the final match was particularly noteworthy, as they overcame a near-upset by Oklahoma.

McClure, 5-5 and 230-pounds, resembled a slightly undercooked dinner muffin. By contrast, Baughman, at 6-3 and 195-pounds, was cast in the same physical mold as Sparty.

DECIDING BOUT—Homer McClure and Sooner heavyweight Wayne Baughman struggle for position in final bout which decided match. McClure seems to have advantage, but the NCAA champion came back and defeated McClure 4-1 to give Oklahoma a 14-11 win over the Spartans.

Thinclads Outrun Ohio State, 82-59

Keyes First In Eight Races; Spartan Team Effort Sparks Win

COLUMBUS, Ohio — The Michigan State trackmen got off on a high note Saturday easily defeating Ohio State 82 to 59. The Spartans' victory was a testament to their hard work and dedication throughout the season.

Coach Fran Dietrich said he was disappointed in some of the times, but that it was a good team effort. He felt the most showed that the Spartans need more practice before they will be in good condition.

State Swimmers Set 4 Records, Beat Purdue

LAFAYETTE, Ind. — Michigan State swimmers won their second of three dual-meets Saturday with a 65-40 victory over Purdue. The Spartan tankers never trailed in the meet.

Purdue was able to capture only two firsts. In the 50-yard freestyle, Bob Inpyn of the Boiler makers nosed out State's Mike Atwood. Dennis Collins of the Spartans finished third.

With Atwood and Mike Corrigan added to the freestyle team, the Spartans lost none of their luster in the event. The time of 3:22.9 topped the record set last year by Wisconsin for the Purdue pool. The Badger's time was 3:24.6.

Four new records were added in Saturday's competition. In the 100-yard butterfly, Gretzinger's time of 1:50.5 was a new record for the Purdue pool. Chuck Strong set two records in the 200-yard butterfly. His time of 2:04.9 was a new pool and dual meet record.

In concentrating more on his 400-yard medley relay team, coach Charles McCaffree made a change in the 400-yard freestyle relay team. Both Jeff Mat-

Is this the only reason for using Mennen Skin Bracer?

Skin Bracer's rugged, long-lasting aroma is an obvious attribute. But is it everything?

After all, Menthol-Iced Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin.

Aren't these sound, scientific virtues more important than the purely emotional effect Skin Bracer has on women? In that case, buy a bottle. And—have fun!

If you have an advanced degree, let's talk some more.

You'll be part of a 3500-person facility responsible for R&D on America's lunar, planetary, and interplanetary explorations. If you come to Caltech's Jet Propulsion Laboratory in Pasadena, California, you'll find the finest technical facilities in the world—like the library with 125,000 technical documents, the most sophisticated computers, space simulators, acres of laboratory space, and about three support people for every one of you. And you'll be working with the finest scientific minds in the country. If you want to think hard for a living, you should think hard about coming to JPL.

Ellsworth House Tops Co-op Scholastic List

Seven undergraduate houses at Michigan State University, Ellsworth House, has held the top position in the annual Scholastic Achievement trophy contest for the 1962-63 year.

The president explained that after they first won the trophy, the high average became a self-perpetuating thing.

Members of the house agree that they enjoy knowing each man

is the group throughout their years in college. They prefer the independence they have. There is no outside supervision, and no housemother.

Each person at the house is part owner, and together they are responsible for its maintenance. They learn to run it as they would a business.

Dean Cites New Role In Farming

Rapidly changing methods of agriculture have turned farming into a business during the past century.

T.K. Cowden, dean of the College of Agriculture, said agriculture is "the most rapidly changing industry in the United States."

"With more and better aids being developed, today's farmer must be both a scientist and a businessman."

The U.S. population has risen 70 per cent since 1920 while the acreage used for farming has remained the same.

"The farmer today probably works harder than his father did, despite technical advances in the industry," Cowden said.

Cowden said the trend today is toward fewer but larger farms. The farmer of 30 years ago had 80 to 100 acres of land and about 10 cows.

"And there's a darn good chance he still gets up at 4 a.m." The Michigan farmer has found MSU's agricultural extension program a great aid.

"Our work at MSU is not with crops or cattle, but with people," Cowden said.

Michigan State sponsors the program with the farmer and his family in mind.

The program offers the farmer the latest scientific developments and aids his wife by sponsoring home economics clubs, Cowden noted.

The service also provides children with 4-H Clubs and trains them to become "better farmers of the future."

DEAN COWDEN

Rushee Quality Up

Scholarship played an important part in sorority and fraternity winter rush, according to representatives from Inter-Fraternity Council and Pan-Hellenic.

"One thing that impressed us was the high grades of the men pledged," said Bob Andringa, Wayland senior and president of IFC.

Ten of the 15 houses which Andringa checked pledged a number of men with higher than a 3-point average.

About 480 to 475 men pledged this term, Andringa said. He

estimates a thousand men will have pledged by the end of spring rush.

Scholarship may have discouraged many women from pledging, according to Miss Mabel Petersen, Panhellenic advisor.

Many women seem to feel they should raise their grades and wait until spring rush to pledge, Miss Petersen said.

Miss Petersen estimated pledges for the 19 sororities would be about 50 less than last year's.

Weather conditions, untimely publicity and the stress on scholarship were factors causing drop, she said.

Over one half of the sororities will have extended rush for girls eligible to pledge.

During extended rush, which will continue until Feb. 15, the individual houses will invite women for dinner or take them out for coffee.

In order to pledge a rushee, the house must have had at least three contacts with her. Panhellenic is now considering

the double preference system, used for the first time this year. With this practice, the rushee must be invited to the last stage of rush. Formerly it was one.

IFC Elections

Inter-Fraternity Council will hold annual elections Wednesday night at the Sigma Alpha Epsilon house.

Presidential nominations include Frank Marxer, Saginaw junior and Delta Tau Delta, and Jerry Roberts, Warren junior and Phi Sigma Kappa.

Other offices to be filled are executive vice president, administrative vice president, secretary, treasurer, and three members-at-large.

Further nominations may be made before Wednesday's elections.

Candidates must have worked at least one term on IFC and have above a 2.2 all-University average.

Wendell Ellsworth, New Computer, MSU Visit

The mechanical man is visiting Michigan State University.

Wendell Ellsworth, president of the National Academy of Sciences, will introduce the new computer for a three-day visit beginning Tuesday.

The computer, an MSU breakthrough in farm improvement, will analyze and compare yields of crops, and compare records with the averages for all farms in Michigan.

Ellsworth wishes to analyze his records on a piece of paper, information transferred to a computer, will be processed by the computer in two and a half minutes.

The service also may be obtained from the MSU agricultural extension department and at Extension Services in each county.

Other service centers are available at any IBM office.

ANNUAL POLISHING--Roger Bey, Alvena junior (I), and Paul Bosh, Findlay, Ohio senior, prepare the Inter Cooperative Council Scholastic Achievement Trophy for another year's stay.

Farmers Dockworkers, Lockheed End Disputes

MIAMI (UPI)—Dockworkers in South Atlantic ports of return to their jobs today, ending an International Longshoremen's Association strike of more than a month's duration.

Federal mediator W. A. McAllister said that an agreement was signed Sunday afternoon covering ports in the South Atlantic area, the last region to end its walkout.

BURBANK, Calif. — An eight-month deadlock between the International Association of Machinists (I.A.M.) and Lockheed Aircraft Corporation has been settled. The dispute over union security issues ended Sunday when union members accepted a management contract offering for extensive co-operation between the I.A.M. and the aerospace giant.

The final agreement ends a strike threat by some 55,000 workers at Lockheed-California Company and the firm's missiles and space division and installations from Cape Canaveral to Honolulu.

Expansion

initial stages of photosynthesis. The NSF also awarded a \$35,000 grant to Julius S. Kovacs and Don B. Lichtenberg, associate professors of physics, to continue studies on a theory of the interactions of two types of fundamental particles, and a \$30,000 grant to Sherwood K. Haynes, chairman of physics and astronomy, to investigate beta ray spectroscopy at very low energies.

A \$40,000 grant from the NIH will aid Harry H. Murakami, associate professor, and G.B. Wilson, professor, in studying the relationships of two different viruses infecting the same cell.

The U.S. Air Force made a \$39,340 grant to allow 20 Air Force career officers to earn M.A. degrees in accounting.

Richard J. Reid, associate professor of electrical engineering, will continue work on a computer program for analysis of electrical networks with \$26,867 grant from International Business Machines Corp.

A National Defense Education Act grant of \$156,033 from the U.S. Office of Health, Education and Welfare will be used for student loans at MSU-O. That branch of the University was also granted \$30,000 by the Oakland County Board of Supervisors for development of its physical plant.

The \$51,952.57 in scholarship grants accepted by the University included \$15,730.07 for MSU-O.

Blame Impromptu Walk Overexertion Kills Plant Employee

Severe winter weather was blamed for death, injury and accidents involving University residents and employees this weekend.

University and East Lansing police investigated four traffic accidents over the weekend.

Power plant employee North T. Willsey, 60, 2363 North Cedar, Holt, died early Saturday morning, shortly after arriving for work on the campus.

Willsey had walked to the North Campus plant from Mt. Hope Rd. after his car stalled, police said.

Willsey complained to employees that he felt weak. Several fellow workers offered to bring the stalled car to the campus. They found him slumped over a desk when they came back.

Death was unofficially attributed to a heart attack caused by overexertion, police said.

Two pedestrians, a passenger in a car, and a driver were injured in campus accidents.

Gary L. Platt, 20, Holt sophomore, suffered abrasions of the right ankle and knee bruises when he was hit by a car on South Shaw Lane near the Ag. Engineering Building.

Monta R. Cowden, 19, Six Lakes sophomore, suffered a bruised left knee when she was hit by a car on Kalamazoo near West Circle Dr.

Sue C. Moran, 23, of 1538-E Spartan Village, suffered a neck injury when her husband's car was involved in a four-car accident on Farm Lane at Mt. Hope.

Chris P. Hacker, 18, Grand Rapids freshman, suffered a cut chin Saturday, when his car collided with one driven by Charles N. Diamond, 21, Gates Mills, Ohio, junior, at Kalamazoo and Dem Hall service drive.
