

# The Quintuplets

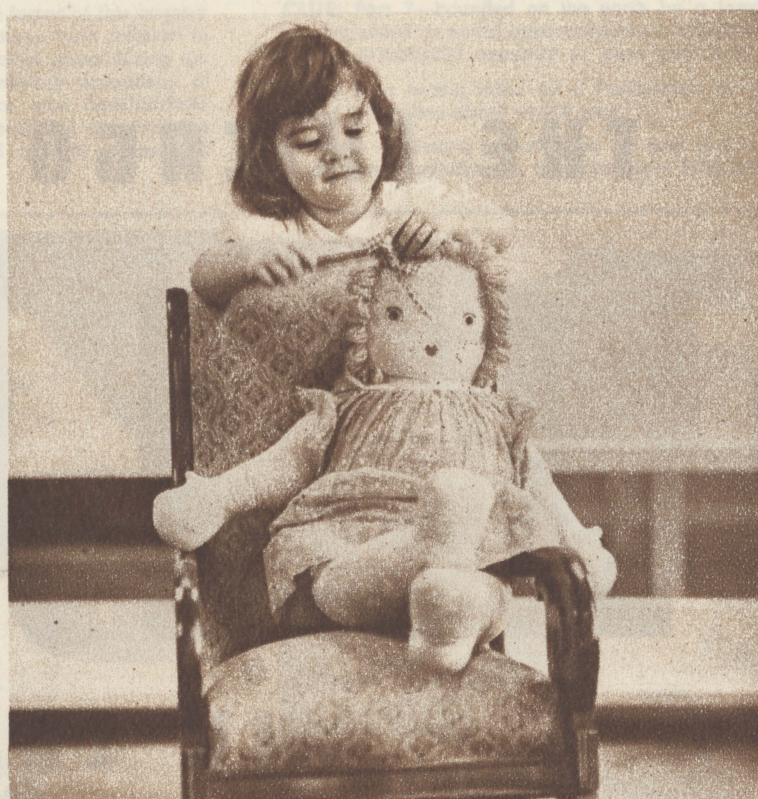

## Rag Dolls

World copyright: 1937: NEA Service, Inc.

THE OLD FASHIONED ROCKING CHAIR comes into the picture at Callander, Ontario, as the Dionne quintuplets go into conference with the photographer. The subject of today's deliberations is nothing less than dolls. Left to right: Marie, Cecile, Yvonne.

THIS RAG DOLL IS GOING FOR A WALK; Cecile adjusts her hood at a rakish angle.

YVONNE COMBS OUT WOOLLY CURLS of another rag child so like the two in other pictures that you may justly suspect the existence of doll quintuplets.

HAS FIFI WASHED THE BACK OF HER NECK? Annette, who can't abide shiftlessness in make-believe children, conducts an investigation.

### WATCH YOUR ALKALINE BALANCE

#### WHEN THE THERMOMETER DROPS

Many doctors say that a lowered alkaline reserve causes colds. That is why the Luden laboratories have added a natural, tasteless Alkaline Factor to the other head-clearing and throat-soothing ingredients of Luden's Menthol Cough Drops. And remember, Luden's are the only cough drops that give you an alkalinizing effect.

CLEANSE THE  
INTESTINAL TRACT

2.  
HELP NATURE
