Make Sure You Sleep Tonight

A Drugless Way to Get 8 Hours of Sound, Natural Sleep

HERE is a way you can be sure of getting a "good night's sleep" tonight. A way that is safe, sane and simple—that entirely avoids the use of drugs or sedatives.

It is a way that over 20,000 doctors advise. Because it gives you sound sleep! Natural sleep! Restful sleep that rebuilds and rejuvenates you in mind and body! When you wake up in the morning your entire system shows the results of the rest you've had.

Thousands of people all over the world have found Ovaltine will do this for them. Without forming the slightest habit, as with drugs. In 54 countries of the world Ovaltine is the recognized best "nightcap".

Developed some years ago by a Swiss scientist, Ovaltine is now produced under license in the United States according to the exact Swiss formula. It is a pure food-drink—you merely mix a few teaspoonfuls in warm milk and drink it just before you go to bed. Then go to sleep. And while you sleep, Ovaltine does several remarkable things for you.

Does Three Things

First, it induces sound, restful sleep by a natural process.

Second, it aids digestion, since it contains in

high proportion a remarkable food property known as diastase, which is a natural food substance with the power to digest the starch content of other foods in your stomach. Ovaltine, because of its high proportion of diastase, will digest four to five times its own weight of other foods in your stomach, and thus lifts a great burden from your digestive organs.

Third, it rebuilds worn-out nerve cells. Because it contains in concentrated form a nerve restorative called "lecithin" which is taken from eggs. Lecithin rebuilds nerve tissues as you sleep.

During the World War, Ovaltine was used by the Red Cross as a standard ration for invalid, nerve-shattered soldiers.

Try It Tonight

Just try Ovaltine tonight. Note how quickly you go to sleep. See how differently you feel tomorrow. A few weeks' use of Ovaltine will make an amazing difference. Your whole ap-

pearance will show the result of this restful sleep and new vitality.

Take Ovaltine not only for sleeplessness, but whenever you feel nervous or run down.

Thousands of people, on doctors' advice, also take it as a stomach "conditioner". So whenever you begin to "feel" your stomach, just take 4 teaspoonfuls of Ovaltine in a half glass of warm milk with your meal. You will be surprised at the way it helps your stomach and rests your stomach.

For Ovaltine, when taken with a meal, will digest the major portion of all the starch content of other foods you have eaten. In this way Ovaltine not only relieves distress but actually helps the cause of the trouble.

Also this is one of the reasons why Ovaltine helps to put you to sleep at night, for digestive unrest is one of the main causes of sleeplessness.

Start tonight! Just 'phone your druggist or grocer for a tin of Ovaltine. Mix 2 to 4 teaspoonfuls in a glass of warm milk and drink just before you go to bed.

Whatever you think of the claims made for Ovaltine, just try it! It has brought restful sleep and teeming energy to thousands. You'll be surprised at what it does for you.

**"Drunkenness
Is a Disease
and
I Can Cure It"**
—Leslie E. Keeley, M.D., L.L.D.

THE EDITOR of a powerful Chicago Newspaper before his death challenged this statement of Dr. Keeley that "Drunkenness is a disease and I can cure it." He defied Dr. Keeley to cure the men whom he would send to the Institute. The results were so convincing that, through his great newspaper, he was personally responsible for thousands of men and women taking The Keeley Treatment for Liquor.

New Booklet Explains Facts That Every Person Should Know

It is one of the most authoritative booklets ever written on the disease of inebriety and its cure. It is based on fifty years' experience, embracing the treatment of more than 400,000 patients, including men and women from all walks of life. The booklet is free. Simply write and ask for it.
