## End LARGE PORES! Start today . . .

Here's the new way to end large pores women everywhere are talking about!

It's a way that not only refines pores, but does so in a remarkably short time.

You use a liquid which is both a cleanser and a solvent. Hinds Toning Cleanser, it is called.

### What it does

First, it thoroughly cleanses surface of skin. Then it enters pores and dissolves out accumulated pore residue. Relieved of this residue pores shrink back to normal size.

(Diagram above shows how solvent of real penetrating power is needed to enter minute curving pore channel and dissolve out this unexpelled residue which causes pores to

enlarge. No ordinary method will do it.) Observe how skin is left cool, clean, exhilarated.

### How to use

Use after cleansing cream to remove all traces of grease, all lingering particles of dirt, dust.

Use during the day to cleanse skin when renewing make-up. Make-up then applied gives you the lustrous look of glowing health.

### New delicate skin texture

Note, please, the new delicate skin texture, the vivid cleanliness regular use of Hinds Toning Cleanser brings.
