## MILK OF MAGNESIA

Leading hospitals in New York and other famous medical institutions specify and use A.D.S. Milk of Magnesia because each single dose is uniform in strength and quality. This is known as "perfect dosage" in hospital practice and is absolutely vital for best results.

As an antacid, as a corrective for sour, acid stomach, as a laxative for children, physicians prescribe Milk of Magnesia. It is mild and gentle in action. Practically tasteless. It is used every day by millions of people. There is no superior to A.D.S. Milk of Magnesia. Ask your druggist for the Big White Bottle with the A.D.S. "pride-mark". It is the mark of the genuine.
