

ments ahead of the train that had been no obstructions of any sort. Engine-er Redmond examined the tender and said he had no doubt that a broken rod caused the trouble.

VISIT LINCOLN'S TOMB.

BY E. O. PHILLIPS.
Springfield, Ill., May 7.—[Special.]—The republic of France today placed a wreath upon the tomb of Abraham Lincoln.

Field Marshal Joffre and Rene Viviani—representing the French high commission—entered the crypt where lies the body of the martyred president and together raised upon the sarcophagus a magnificent floral tribute.

Gen. Joffre knelt down and kissed the marble slab. He arose, tears streaming down his cheeks. The dozen members of the commission, who, with Gov. Lowden, had gone into the chamber, immediately withdrew. No word had been uttered.

From Oak Ridge cemetery the mission went to the state capitol. The senate and house were in joint session to receive the representatives of France. Official welcome was extended by Gov. Lowden, after the French high commission presented the executive. Gen. Joffre and M. Viviani replied.

Marquis de Chambure, a descendant of Lafayette, was greeted with a cheer only a shade less enthusiastic than that which had brought the hero of the Marne to his feet, with his hand at salute for five minutes.

As the ceremony was closing Speaker Shanahan presented to Gen. Joffre the French and United States flags. M. Viviani seized the French emblem. Gen. Joffre waved the stars and stripes. The two flags were crossed while distinguished citizens from every part of the state, men and women, the soldiers who were on guard, newspaper men, and pages, joined in wild cheering.

Address by Viviani.

"Before coming here to this hall of the legislature," M. Viviani said, "we went into the chamber of silence and deposited a wreath upon the tomb of the immortal Lincoln. The homage of all France comes with us. I wish you to understand that no matter how far it is from Springfield to France. You know that, born among the people, not able to read, Lincoln arose by study and intelligence to be the emancipator of modern civilization."

"He attained his ends by plunging the country into civil war after exhausting every other means within his power. Lincoln understood human conscience, and that is the reason he is proclaimed 'The Immortal.' He accomplished this civilization, and although he is now in silence, by his triumphs and his deeds he still lives in memory.

"Three years ago the German government violated the rights of man without any motive or right and sought to conquer France. The United States is face to face with the same crisis. We are now together in this great world war to defend the rights and justice of man."

CHICAGO MEN TESTIFY IN RINTELEN CASE

New York, May 7.—Telegrams reporting progress in strikes in munition plants and showing the efforts of the founders of labor's national peace council to get that organization started were read into the record here today at the trial of Capt. Franz Rintelen of the German navy and several Americans charged with using the council in an alleged conspiracy to foment strikes to break up the entente allies' munition traffic in this country.

Charles H. Canode, a Chicago printer, testified that he printed, on order from former Representative Buchanan, 100,000 pamphlets for the council, containing pacifist propaganda material, arguments for embargoes on munition exports, and a plea to labor men intended to block the Anglo-French loan in this country by getting them to withdraw their funds from banks subscribing to it. He said his bill was about \$1,000, of which \$600 was still owing.

Isaac J. Gundiff, secretary-treasurer of the International Iron Ship Builders' union of Chicago, testified he was hired by Buchanan at \$50 a week and expenses to go on a tour of union headquarters in behalf of the council.

Mencol Cuba President for Another Four Years

HAVANA, May 7.—The Cuban congress, in joint session, this afternoon proclaimed Gen. Mario G. Mencol re-elected president for another four year term, with Gen. Emilio Nunez as vice president.

FINAL TOUCH ON \$1,500,000,000 WAR LEVY BILL

Expect to Open Debate in House Thursday—Shy \$300,000,000.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., May 7.—[Special.]—The war revenue bill was practically finished by the ways and means committee tonight. Final touches will be put to it tomorrow and it will be introduced in the house immediately by Chairman Kitchin with the understanding that debate will be begun on Thursday.

As the bill now stands it provides for only slightly more than \$1,500,000,000 of the \$1,800,000,000 asked by the treasury department. The committee has in reserve taxes which may be put in the bill tomorrow to bring it up to the full amount needed. These are the increases in the inheritance tax and the making of individual income taxes retroactive to apply to the calendar year 1918, and several other taxes, including one on refined petroleum.

Differ on Some Levies.

Attempts to reach final votes on many of the taxes in the bill brought about a number of controversies in the committee. Members could be heard outside the committee room loudly voicing their disgust at various items in the bill. There is hardly a tax on the list to which some members do not have serious objections and the final votes brought these objections to a head.

Row Over Printed Bill.

The first quarrel of the day came when members looked at the bill this morning as it had been printed to contain the changes agreed to up to Saturday night. As the excess profits tax was printed, it was 14 instead of 16 per cent, and the corporation income tax had been increased from 4 to 5 per cent. There was a loud protest over this change, and it was charged that the change was made without authority. After much discussion the excess profits tax was finally left at 16 per cent and the corporation income tax was put back to 4 per cent.

The committee also agreed to exempt from the provisions of the tax so-called "parent" corporations, the subsidiaries of which pay the tax.

Increase Levy on Liquors.

A notable increase in the liquor tax was made on motion of Representative Rainey of Illinois. Whisky was increased from \$2 a gallon to \$2.20 a gallon. The tax on beer was increased from \$2.20 to \$2.75 a barrel.

The tax on advertising provoked bitter discussion. It had been proposed to assess a 5 per cent tax on all advertising, and this was favored by several of the southern members including, it is understood, Chairman Kitchin. It was shown that such a tax would ruin thousands of small newspapers in the United States, and on a close vote the tax was amended so that it would not apply to newspapers and periodicals.

As the advertising tax now stands, it will be assessed on all billboards, electric signs, etc., and on all advertising which passes through the United States mails.

Second Class Mail Tax Stands.

The tax on second class mail matter was left as proposed by the subcommittee, at 2 cents a pound for the first zone; 3 cents for the second and third zones; 4 cents for the fourth and fifth zones; 5 cents for the sixth and seventh zones, and 6 cents for the eighth zone. An amendment was inserted exempting from this increase daily newspapers dropped in the postoffice for delivery within the city.

As the provision formerly stood all second class matter of this description was exempted from the provision.

NEW TAXES

The Appended Levies Have Been Agreed On by House Ways and Means Committee to Go in War Revenue Bill.

(By a Staff Correspondent.)

WASHINGTON, D. C., May 7.—[Special.]—The following taxes have been agreed on to go in the war revenue bill to be introduced in the house by the ways and means committee tomorrow:

Incomes—Corporation: Increase from 2 to 4 per cent	150,000,000
Individual: Tax of 2 per cent on incomes over \$1,000 for single men, and \$2,000 for married men, and up to a maximum of 50 per cent on incomes of \$500,000 and over	800,000,000
Excess profits—Increase to 16 per cent on profits over 8 per cent and \$5,000	150,000,000
Passenger tickets, 10 per cent	80,000,000
Freight bills, 3 per cent	70,000,000
Whisky, \$2.20 a gallon	105,000,000
Beer, \$2.75 a barrel	37,000,000

Wholesale tobacco dealers, 25¢ a year	2,500,000
Sporting goods, 5 per cent of price at factory	15,000,000
Total	\$1,506,500,000

CAPT. HOLABIRD BANK OF ENGLAND HEAD ARRIVES IN CITY TODAY

Lord Cunliffe, governor of the Bank of England, will arrive in Chicago this morning as the guest of the Federal Reserve bank of Chicago and the Chicago Clearing House association. He will be entertained at a luncheon at the Chicago club, to which have been invited some sixty of the city's leading men, and at a bankers' dinner at the Blackstone hotel.

It was rumored in La Salle street that Lord Cunliffe is coming to establish direct connection between the Bank of England and the Federal Reserve bank of Chicago, though James B. Forgan, president of the First National bank of Chicago, was among those who scoffed at the statement.

U. S. to Lend England \$100,000,000 During May

Washington, D. C., May 7.—The government has decided to lend Great Britain \$100,000,000 to meet her needs in this country during May. A second installment of \$25,000,000 was transferred to the British embassy today, making, with the \$25,000,000 loaned her Saturday a total of one-half of the May loan.

Record for Canadians in France Is a "Humdinger"

Ottawa, May 7.—The Canadians defeated eight German divisions and captured nine villages and more than 5,000 prisoners between April 9 and May 3, according to a dispatch received here today from France. Their booty comprised 64 guns and howitzers, 106 trench mortars, and 128 machine guns.

Vessels Will Bear Names of Germans Who Aided U. S.

Washington, D. C., May 7.—The two interned German commerce raiders that were taken over by the United States government will bear the names of Germans who fought with the continental army in the American war for liberty. Secretary Daniels announced today that the Kron Prinz Wilhelm will be renamed the Baron von Steuben and the Prinz Eitel Friedrich the Baron de Kalb. Both vessels will be placed in service under the American flag as soon as repairs are completed.

Swift & Company's sales of beef in Chicago for the week ending Saturday, May 6, averaged as follows: Domestic beef, 14.92 cents per pound—advertisement.

TAKE THE LOAN! SOON YOU'LL SEE IT EVERYWHERE

Every Letter, Mail Box, and Postoffice Will Show You the Path of Duty.

Washington, D. C., May 7.—The United States mails as a medium of governmental publicity are to be utilized at once to bring home to every person in the country the need of subscribing to the liberty loan.

Every letter of the many millions that pass daily through the mails soon is to bear a special cancellation stamp of striking design to notify all persons receiving mail that the nation is calling for contributions to the big bond issue.

Every letter box of the hundreds of thousands in the country is to be placarded with posters announcing the loan and the need for contributions. Every postoffice is to display posters prominently giving full information.

Every one of the 80,000 vehicles operated by the postoffice department is to proclaim from posters on its sides that the loan is open to subscriptions and that it is the duty of every citizen who can to subscribe. Every letter carrier in every city is to wear a card on his cap.

Responses Gratify McAdoe.
The largest electrical sign ever built will be placed at Broadway and Forty-second street, New York, reputed to be the busiest spot in America, to flash in red, white, and blue every night an appeal for subscriptions to the loan.

Responses to the offer of the big issue have been extremely gratifying thus far, Mr. McAdoe said tonight. Today's partial tabulation of replies received from banks and bankers showed no diminution in the rate at which subscriptions are pouring in. Thirty-five of the chief cities of the country offered today to take \$104,848,000 worth of the bonds in addition to previous offers, bringing their total up to \$23,970,000 for the three days in which subscriptions have been received.

Telegrams reaching the treasury today, giving estimates of subscriptions, were so overwhelming in their volume that the clerks handling them were unable to compile totals except those of the larger cities.

Day's Grist from Cities.
The totals telegraphed by New York banks reached \$50,007,000 for the day. Boston was second with a total of \$7,125,000; Cleveland third with \$4,780,000; Philadelphia fourth with \$4,766,000; and Atlanta fifth with \$3,625,000. Other totals for the day were Minneapolis, \$3,505,000; and Chicago, \$3,438,000.

A former United States senator offered to subscribe to \$3,000,000 worth of the bonds, and numerous offers were received from individuals offering to take from \$5,000 to \$100,000.

Bankers Pledge Co-operation.
New York, May 7.—Assurance of the fullest cooperation of the trust companies of the United States to make the liberty loan a complete success was pledged to Secretary McAdoe today by the trust company sections of the American Bankers' association, at the annual spring meeting of the executive council of the association at Briarcliff, N. Y.

WILSON IS GIVEN EMBARGO POWER; DEBATE BITTER

Many Senators Attack His Refusal to Ask for Advice.

Washington, D. C., May 7.—Unqualified authority for proclamation of export embargoes by the president was restored to the administration espionage bill by the senate today after Democratic Leader Martin had explained behind closed doors that President Wilson feared he would be unable to accomplish the ends desired under the section as it had been modified.

The provision as it now stands would empower the president during the war when "the public safety shall so require," to proclaim it unlawful to export articles to "any country named." Last week the senate voted to authorize embargoes only against countries through which goods were found to be reaching the enemy.

This action was preceded by a five hour debate in executive session, during which there was vigorous criticism of President Wilson. Republicans led the attacks, which were directed at the president's failure to consult with members of congress about the legislation proposed.

Supplies Get to Germany?
Senator Martin said the government had reason to believe that American aid had been used to get supplies to Germany through Holland and Switzerland.

Senators Lodge, Knox, and Fall called attention to the fact that the senate had no advance information on reasons for enactment of a strict embargo section. They declared the president had not told any administration leader until the senate modified the provision his reason for desiring it passed in stronger terms.

Senator Williams, a Democratic member of the foreign relations committee, replied that the president had tried taking senators into his confidence early in his administration but had found the whole subject of his confidences revealed in the newspapers shortly afterward.

Not Invited to Functions.
Attention also was called to the fact that no member of the house or senate was invited to the White House functions in honor of the British and French missions. Other senators spoke of the fact that the president had not called into consultation on army questions Senator Chamberlain, chairman of the senate military committee, and had not thanked Representative Kahn, the Republican member of the house committee.

In the open senate, after the new embargo section had been adopted without a dissenting vote, Senator Townsend, Republican, declared he understood the purpose of the legislation was to coerce neutral nations into the war. If this were true, he said, this nation has abandoned "the high ideals we have set as a reason for entering this war."

Plamondon Children Donate War Ambulance

It was two years ago yesterday that the Lusitania was sunk. In memory of Charles and Mary Plamondon, two of the 1,195 victims, their children gave an ambulance to the Red Cross for service in France. The donors are Miss Marie Plamondon, Mrs. Allen E. Ripley, Mrs. J. Henry Smith, Harold M. Plamondon, and Charles J. Plamondon, who is a member of the machine gun troops of the First Illinois cavalry.

Envoy Elkus Gaining Steadily.

Washington, D. C., May 7.—Ambassador Elkus, sick in Constantinople with typhus, is much better, but may not be able to leave for home for three weeks.

From the Mosques of the Orient

Never during the 27 years in which Nahigian Brothers have been importing Rugs has it been possible to show such a large and interesting collection of antique Rugs as we show this Spring.

These Rugs from the Palaces and Mosques of Persia are rare specimens recently sent to America for sale.

All lovers of Oriental Art are invited to inspect these treasured pieces, whether contemplating a purchase or not.

SUITS COATS

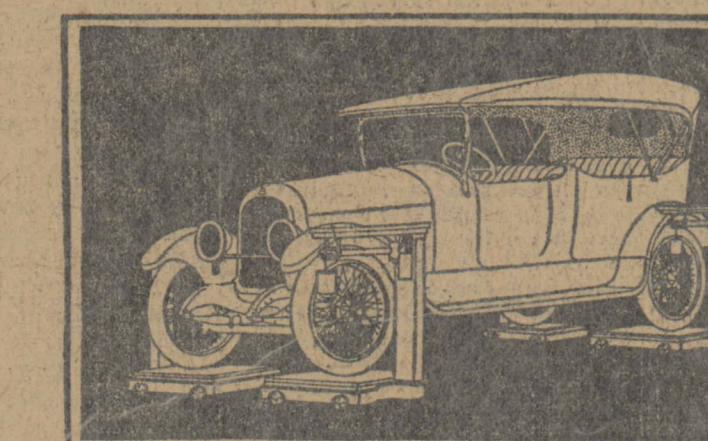

A large variety of all the latest fabrics—too numerous to itemize here—models that are positively in the front ranks of fashion, in all the very latest shades. This is indeed a rare chance to secure an exceptional Bernards suit at a remarkable saving. Each suit in this lot was originally marked to sell for more than \$35—now reduced to

\$19.75 \$23.75

If you want a stunning Spring and Summer Coat, here is a golden opportunity to secure one of George Bernards' famous models at a ridiculously low price. Ask any woman about the superiority of George Bernards' apparel; her answer will make you hasten to obtain one of these beautiful \$40 Coats at

MARMON 34

Right Front Wheel 866 lbs. Left Front Wheel 868 1/2 lbs. Right Rear Wheel 993 1/4 lbs. Left Rear Wheel 911 lbs.

MARMON Ends the Quest for Balance

The Marmon 34 is more perfectly balanced than any comparable car. We will prove this statement, should you wish to review the subject with us personally. Since engineers turned their attention to refining motor cars, much time and money have been spent by leading makers to attain such balance. Still the rear of other major-class cars will be found to outweigh the front by several hundred pounds.

With the Marmon, fully equipped for the road, there is scarcely a difference of 80 pounds. Moreover this car is a half-ton lighter than comparable cars. Note the following important results:

Tires (both front and rear) wear uniformly; owners find that tires average two to three thousand miles more than on other cars of the same size and power. And owners have proved a gallon of gasoline carries the Marmon much farther than it will like cars.

To balance must be credited also much of the extra strength, the delightful riding ease and the splendid road-adherence that are outstanding Marmon features.

Arrange with us to drive this low-g, powerful car over any road you choose.

Learn what it means to travel country highways in boulevard luxury at 55 miles per hour. Then try to duplicate your drive in any other car, regardless of weight.

One chassis—1 1/2-inch wheelbase. Many body styles—open and closed.
