

# AVIATORS AND AIRCRAFT

IF ONE PARACHUTE WILL SAVE A LIFE, four ought to make it rather secure. Joe Crane acted upon another idea, however; it was just another stunt to try. He drops to earth at Roosevelt field, Long Island. (New York Daily News photo.)

THE WORLD'S BIGGEST AMPHIBION TAKES SHAPE—A giant Sikorsky plane, which will carry forty-six passengers on a commercial line to South America, is fabricated at Stratford, Conn. The ship has a wing spread of 114 feet and is expected to develop a cruising speed of 108 miles an hour. (Acme photo.)

ANOTHER AIRPLANE RECORD—Ivor Sikorsky looking over the tail wheel of his new amphibion, largest of its type. (Acme photo.)

## Permanent waves by F. ERNST

All that curls is not chic—but women who choose the permanent by Ernst know the secret of hair smartness.

105 E. Delaware Place  
Whitehall 5617

## WALK-OVER SHOES

Outstanding in Any Foursome

The "Polka" oxford, in Beige with Brown trim. Unique and attractive in design... with turf-clinging Gristle soles... and decorative rows of "air-way" perforations that go through the lining.

\$8.50

A NAVAL SQUADRON OF THE AIR PAYS A FLYING CALL ON FATHER KNICKERBOCKER—Maneuvering blimps from Lakehurst, N. J., cruise above lower Manhattan. The photograph was taken from an accompanying plane, which flew at an altitude that dwarfs the famous financial district and makes Battery park look like a private landscaped garden. (Associated Press photo.)

A CREATION OF MODERNITY VISITS ANTIQUITY—The German Graf Zeppelin, world-touring dirigible, flies above minarets of Cairo, Egypt, during an aerial tour of the near east. (Acme photo.)

## How to Make a Child Hungry,

Eager to Eat and Relish the Food You Place Before It

*A Swiss Food-Creation that Solves the Problem of the "Poor Eater." That Actually Makes Children Want to Eat More —And Increases the Nourishment and Digestibility of Every Bite They Take!*

Now Switzerland brings us another vital discovery in child welfare. A food-creation that is specially processed so that it actually stimulates appetite at the same time that it nourishes a child. First, it gives tremendous nourishment in itself. But in such form that it digests almost at once without effort—even when nothing else seems to "agree." Second, it increases the appetite, stimulates the sensation of hunger, and makes a child actually want to eat more of the other foods you give him. When given regularly, it usually adds a pound or more a week to a child's weight and cures nervousness remarkably. The results obtained are so remarkable that all mothers will want to learn just how this creation was developed and how it accomplishes its unusual results. Thirty-eight years ago a food-

chemist in Switzerland developed an unusual method of processing certain natural foods. A process that gave these foods certain values which none of them have when taken alone or in an ordinary mixture. It created world comment then, for it solved the problem of feeding invalids. It is called Ovaltine and today its use has spread all over the world and it is solving the problem of child feeding for modern mothers.

Ovaltine is made by a unique process—it is prepared under vacuum, thus preserving all vitamins and enzymes. Further, it is processed in

such a way that it digests almost at once, without effort. It will digest when nothing else seems to "agree." And constitutes in itself a complete food.

You mix it with milk and drink it as a beverage. And when mixed with milk it will break down the curds and make the milk digest twice as easily. (For milk alone, as you know, turns to solid curds in the stomach.) Children drink twice as much milk, when it's mixed with Ovaltine, because they like the taste. It also contains a natural but vital property called "lecithin," which is the important part of nerve and brain tissue. A few days' use of Ovaltine usually cures nervousness noticeably.

### Increased Appetite

Ovaltine has a high content of the appetite-producing Vitamin B. But of greatest importance is its high

### Famous Ovaltine Oatmeal Test

Put 3 teaspoonfuls of Ovaltine into a full glass or cereal dish of cooked, warm oatmeal. Stir a few times to mix. Then watch and you will see the oatmeal liquefy before your eyes. You will see how a small amount of Ovaltine digests the entire starch content of the oatmeal in the same way that your own digestive organs should. It is a perfect demonstration of how Ovaltine, if taken with a meal, digests the starch content of other foods in your stomach. And why it speeds up digestion and creates the sensation of hunger.

proportion of the remarkable food element known as "diastase." (A substance that gives one food the power to digest the starch content of other foods in your stomach.)

Ovaltine is so processed that it contains enough diastase to digest from 4 to 5 times its own weight of other food! It is this digestive power which chiefly distinguishes Ovaltine from any other health food in the world, and is the main reason why Ovaltine actually stimulates appetite.

### Quick Digestion

By breaking down the curds in the milk, by digesting the starches in the stomach, Ovaltine speeds up digestion and empties the stomach sooner. This makes a child hungry. For the sensation of hunger is caused by the walls of an empty stomach pressing together, and hunger is the basis of appetite. Child specialists will tell you that usually when a child refuses to eat, it is because he hasn't fully digested his previous meal—"poor eaters" invariably have slow digestion.

### World-Wide Use

Ovaltine today is used in thousands of hospitals and sanitariums. It is prescribed by over 20,000 doctors. It was used as a standard ration by the Red Cross during the World War, for nerve-shattered, shell-shocked soldiers. In short, it is time-tested.

For the sake of your child we urge you to try it. Results will surprise you. Note the almost immediate difference in your child's weight and nerve poise, and in greater strength, energy and appetite.

Give it at breakfast always. At meals and between meals. You can get Ovaltine at any drug or grocery store. Or, send the coupon for a 3-day test.

(Note) Thousands of nervous people, men and women, are using Ovaltine, on physicians' advice, to restore vitality when fatigued. It is also recommended for sleeplessness, nursing mothers, convalescents and the aged.

### MAIL FOR 3-DAY SUPPLY

THE WANDER CO.,  
180 N. Michigan Ave.,  
Chicago, Ill.  
Dept. 37  
Send me your 3-day test package of Ovaltine. I enclose 10c to cover cost of packing and mailing. (Or 25c for special offer at right.)

SPECIAL OFFER  
Genuine Swiss cooking mugs, with colored pictures of Uncle Wiggly and Uncle Goosey Gander. Uncle Wiggly Mug and 3-day package, 25c. (This offer not good in Canada.)
