## SPRINGTIME IN CHICAGO is time for a Greyhound trip!

Spring has been a long time on the way, but it's here at last—so let's get out and enjoy it! The most pleasant way is to ride along the great highways, breathing the fragrance of new blossoms, feasting your eyes on fresh green hillsides.

Greyhound buses make such trips easy on the purse—since greatly reduced winter fares are still in effect. Going by Greyhound, you will thoroughly relax in a reclining cushioned chair, while a skilled driver handles the wheel—you will see everything worth seeing, from wide windows.

Greyhound coaches are the most modern and comfortable in America. They roll along 50,000 miles of highways, reaching every important city in the United States, many in Canada. To get full information and route suggestions on any trip . . . just drop in, phone or write to:
