Chicago Daily Tribune the world's greatest newspaper

FOUNDED JUNE 10, 1847

22 ** TUESDAY, JUNE 10, 1947

ENTERED AS SECOND CLASS MATTER MAY 14, 1903, AT THE POSTOFFICE AT CHICAGO. ILL., UNDER ACT OF MARCH 3, 1879.

All unsolicited articles, manuscripts, letters, and pictures sen to The Tribune are sent at the owner's risk, and The Tribune company expressly repudiates any liability or responsibility fo their safe custody or return.

FROM THESE BEGINNINGS THE TRIBUNE was born into the most dynamic departments but in the mechanical and busiera in history. More changes in the conditions ness branches as well. of human life were to take place within a few great changes are great news.

tions in the physical and biological sciences in the second century, too. were to be made in the century that men came to expect them. There was to be a great surge of activity in the old arts and the creation of new ones. Civilization was to march across half a continent of virgin wilderness. Plagues were to be conquered and illiteracy largely overcome in the western world. Nations were to rise and fall. Great wars were to be followed by a period of relative peace and then by still greater wars. There were to be profound political and moral crises within a nation composed then of has the support of Gov. Green and the Repubonly 29 states.

If there was a better spot than Chicago from of the Democrats. which to view the pageant we can only wonder where it was. At the beginning, in 1847, the frontier had moved beyond Chicago, but not far beyond it. It was a city by statute, but in population hardly more than a village on the edge of largely unbroken prairies and in the shadow of the northern forests. Within three generations it was to become the center of the most productive of all agricultural and industrial areas and to find itself close to the center of population of the leading nation on earth.

* * By 1847 there was need of a new journalism, with new methods of collecting and organizing the news. Few editors yet realized that their readers wanted something more than casual items copied from whatever sources came to hand. The failure to meet the needs of the new day goes far to explain why so few of the newspapers then in existence have survived. It was THE TRIBUNE's good fortune that its editors were in step with the new times, especially after 1855 when Joseph Medill and his colleagues acquired the paper. By 1881, Medill could look upon his achievement and say:

"As a news-gatherer, THE TRIBUNE is already the leading American newspaper. It uses the telegraph more freely and more wisely than people but a handful of political bosses downany other journal; it has a larger and better staff of correspondents than any other; its news is better edited and more judiciously displayed than that of any of its contemporaries. It does not throw the burden of selection, arrangement and distribution upon its readers, but gives them all the news in convenient form."

Those who seek an explanation of THE TRIBUNE's continuing success can find no small part of the answer in those few lines. Call it a knack, call it an art, a tradition or anything else, the recognition of what is news and the us there.

Here, in the heart of the old Northwest Ter- with the legislative record of the Republicans

ers of today do not have to be reminded that it is still operative. The bigger Mr. Roosevelt's popular majorities grew, the harder THE TRIBUNE fought the New Deal, just as, against heavy odds, THE TRIBUNE had slugged it out with Lorimer, Small, and Thompson. THE TRIBUNE in a century has never compromised its convictions to sell more papers or to avoid injury to itself.

the men and women who together make this Tribune Tower.] newspaper. No doubt that is one reason why we have today, as we have always had, the cream of the crop not only in the editorial

It's been a great century and in the course generations than in all the previous centuries of it we have learned a lot and probably fortogether. It was the moment of all moments gotten a lot, too. But we haven't forgotten how to start a newspaper, for change is news and to get all the news and present it; and we haven't learned how to play safe in great moral So many revolutionary discoveries and inven. and political crises. It will have to be that way

WHO IS OBSTRUCTING **REAPPORTIONMENT?**

The reapportionment bill intended to equalize voting strength in Illinois' 26 congressional districts comes before the house of representatives at Springfield tomorrow. The state senate has approved the measure and the prospects of similar action in the house are excellent, for it lican organization as well as of the majority

The great danger is that a cabal in the house will insert amendments that will require the return of the bill to the senate. The session is drawing to a close and with only a few weeks remaining and with a great volume of business still to be transacted, the bill might be lost for lack of time to compromise the two versions. Nobody is ever going to draft a reapportionment bill which will be welcomed by everybody. for it is in the nature of a redistricting that vested political interests be disturbed. The remarkable fact about this bill is that it has received the indorsement of every man who would be directly inconvenienced by a new congressional map. Every member of the Illinois congressional delegation of both parties has accepted it. They have done so in face of the fact that the remapping will mean that most of them will have to campaign next year in more or less unfamiliar territory.

The opponents of redistricting like to pretend that there is widespread popular opposition to the plan downstate. This is not true. The people downstate believe in the principles of representative government. The core of the opposition is not the congressmen and not the state who don't want to give up something to which they are not entitled.

It is this little group of men who ordered the recent filibuster. When that dodge failed, thanks to the determination of Gov. Green and a legislative majority, the petty bosses instructed their puppets in Springfield to introduce obstructive amendments. Never was more scheming and intrigue devoted to a worse cause.

REPUBLICANS ON TRIAL

The victory of Russell V. Mack by 1,500 votes presentation of it in sharp focus are TRIBUNE to fill the vacancy in Washington's 3d congresspecialities that put us on top and have kept sional district shows that the people, altho still disposed to vote Republican, consider that Many of the newspapers of a century ago, the party is on trial. The same district went especially in the older sections of the east and Republican by 7,000 votes in 1946. The reduced south, addressed themselves to an aristocracy. margin of victory indicates a certain impatience ritory, dedicated as it was to the political in congress. Not enough support has been lost

> Polk is in the White House, An army's on its way Past Rio Grande, past Vera Cruz, Past white-walled Monterrey; But here the torches blaze by night. The fifes and drums beat fast, For there's news from Cerro Gordo, Shields' at Cerro Gordo, And regiments from Illinois Have stormed the heights at last.

At wagon bench, at anvil Men heard the battle crv. To farm, to forge, to girls they loved They said a long good-by; They marched out on the Archer road From summit and from sand To war below the border, Death below the border, To plague and yellow fever In a golden, sunny land.

Who'll remember laughter Beneath a prairie moon? And dances at the Sauganash As fiddlers scraped the tune? "Call your partners! Gents to right! And ladies form a square!" Youth was but a dancer. Life was but a dancer, Who'll remember dancing girls With wild flowers in their hair?

No time now for laughter, No time now for tears, Gone the bright and gleaming hopes Of brave young prairie years; Thru chaparral, thru pedregal Men marched to meet the foe, Toss your hopes behind you! Toss your youth behind you! Santa Anna's waiting On the heights of Mexico.

Up from Cerro Gordo Rides news of victory For regiments of Shields and Scott, For tough Old Zachary; The fifes ring shrill, the drums tattoo, The bells peal in the square, For regiments from Illinois, Men in blue from Illinois, Voltigeurs from Illinois. Cavalry from Illinois, Bold dragoons from Illinois, Brave marines from Illinois Are coming back to laughing girls With wild flowers in their hair.

[Copyright: 1947: By The Chicago Tribune] MEDICAL HIGHLIGHTS-1847-1947

CENTURY is a long time and few individuals reach this age. But institutions live on and, if conducted properly, grow and profit by experience. In 1847 the American Medical association held its first

meeting and in the same year THE HISTOR 1947 CHICAGO TRIBUNE wasfounded. In those days Chicago had many health prob Its lems. populat i o n had risen in

15 years from 1,000 in 1832 to 16,859 The inhabitants were recovering from a cholera epidemic and living in fear of another, which actually occurred two years later. In fact for some time this Asiatic disease was one of their chief scourges In addition, smallpox and scarlet fever took a huge toll of lives The death rate was high-approximately 33 per 1,000 of the population. But good often comes from evil and as a result of these visitations, many reforms were instituted. The city fathers, aware of the dirt and filth that prevailed, concluded that if the community was to grow, cleanliness and sanitation were essential.

newspapers did a superb job in ease. But the groundwork was being laid for things to come and Chicago could boast of many physicians with courage and forethought. Rush Medical college had been opened in 1843 by Brainard and his colleagues. In 1855 Isham, Johnson, Andrews, and Rutter started the medical school that later became associated with Northwestern university, and these men, together with Davis, Byford, Hollister, and many others, are looked upon as the founding fathers. By 1900 more than three dozen hospitals had been opened. Meanwhile tremendous strides

A FELLOW PUBLISHER Omaha, Neb., June 4–I want to send you my sincere and hearty congratula-tions on the 100th anniversary of THE CHICAGO THIBUNE. You brought THE TRIBUNE up from a very small news-paper to one of the two or three out-standing in all of America. It has been hard work, and you have had lots of knocks and kicks and abuse. Neverthe-less you persisted on the path that you thought was right, and you have wond out, and I congratulate you and wish you continued success. Those were truly the "gay '90s," and in the passing parade you would see many of the builders of this city, and others of probably lesser fame, such as "Parson" Davies, manager of top fighters of that day. No one looked any more like a parson than he did in his frock coat, standing in the door of his saloon [not a tavern] in the old Crand Opera House building. Also about those days were Mr. McVickers of McVickers theater, Ed Corrigan of race track fame, William A. Pinker-ton, John Alexander Dowie, and many Those were truly the "gay '90s," A FELLOW PUBLISHER

There was something else in THE TRIBUNE'S TRIBUNE in Chicago was strategically situated both fraudulent and dangerous, his victory in its formative years to play a leading part in might have been more imposing. the political and moral conflict that was imthan in any other state, the issue of slavery crats are left with even less consolation. The was because in Illinois, as in Indiana and Ohio, the southern counties were settled in the main himself campaigned in the district in behalf of by men from the slave states and the northern Charles Savage, as did another leftwing Democounties by men from free soil. As late as 1853, crat, Rep. Helen Gahagan Douglas of California. six years after the founding of THE TRIBUNE, Savage won the nomination over the Truman the pro-slavery forces in Illinois were the Democrat. In the outcome, however, the people stronger. They proved it by enacting a series demonstrated that they wanted neither a Truof laws which forbade any Negro, slave or free, man nor a Wallace Democrat. to enter the state and punished violators by If the Republicans work hard to return Amercould do was to win approval of a provision result for granted. requiring a jury trial in such cases.

In a state so divided, it was inevitable that the political leaders of both parties should temper their doctrines in the hope of attracting the support of the middle-of-the-road men. Thus, Lincoln, who hated slavery, insisted over and over again that slavery must be protected in The last problem counts five points. Then look the states in which it existed, but not in the for the correct answers below. territories; Douglas was equally insistent that I. A dam would be most likely to make which the mere permission to extend slavery into the territories, which he advocated, need not 2. Which one of the following is not a deciduous and probably would not result in its extension.

Here was a distinction with a real difference, been glossed over. In the circumstances, THE TRIBUNE might have chosen to remain neutral 4. The owner of which one of the following colin the hope that by avoiding offense to the Douglas following it would win new friends, lose no ald ones, and recover its solvency, for at the time the paper was in serious financial difficulties. Something like neutrality was, in fact, the line which Greeley took and because his weekly New York Tribune circulated widely in Illinois, he did heavy injury to Lincoln's cause.

* * * Medill didn't have the kind of mind that could miss the point that a victory for Douglas would be a victory for slavery, and a victory for Lincoln a victory for freedom. That was enough and more than enough to decide his course. THE TRIBUNE, taking no account of the risks, was in the fight with everything it had.

"We need not say," Medill could write a few years later, "that THE TRIBUNE, whatever its other faults, has not that of timidity." And he could add, with justified pride: "We go our own way, at our own time, in our own manner, in company of our own choosing, knowing as we do that vindication will be sure to follow. We can afford to be honest and fearless, and to

wait."

That became THE TRIBUNE's tradition. Read- was by far the best.
