Refinement is evident in every detail of this big, handsome Buick. The exterior beauty of Buick cars is evident at a glance; the interiors are as tasteful and comfortable as a fine home. And as for performance—everybody knows that Buick gives more and better miles.

They're satisfied their desire for the best. "Our two new 1933 Buicks are superior to all other cars we tested, irrespective of price," say Mr. and Mrs. Lee B. Mettler, of the Annapolis Blue Fish Association, Annapolis, Md.—and an ardent motorist. "I intend to stick to Buicks," says Mr. Farinholt, "they're best."

He's strong for planes and Buicks. Mr. Warren B. Worcester, graduate pilot of Ryan School of Aeronautics, Lindbergh Field.

## It pays to own a Buick in the long run

... because BUICK GIVES MORE AND BETTER MILES

You'll get a lot more satisfaction out of a Buick . . . at much lower cost in the long run . . . than you could possibly get out of any other car at or near Buick's price. More and better miles—that's the reason. Buick will give you more miles, and it will give you better—more carefree—more reliable miles. For Buick has a combination of all the qualities that make for these results.

● Buick is a finely engineered motor car. Thirty years of development have made it sound and strong in every part.

● Buick is big—roomy—comfortable. Long

wheelbases (119 inches to 138 inches) and well-distributed weight (3866 to 4901 pounds) make it ride better—and give finer motoring in every way.

● Buick is exceedingly dependable. Our records show that Buick after Buick continues to serve for more than 200,000 miles. And such dependability is the very heart of motoring economy.

Your family deserves this finer motor car—particularly when Buick prices are so moderate. Go to the nearest Buick dealer and let him show you how easily you can purchase a Buick on the liberal G.M.A.C. payment plan.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM
