A HOT TIME IN HOOVER'S HOME TOWN! West Branch, Iowa, celebrates the nomination of the son who lived there as a Quaker lad in homespun, a lad who swam, played about his father's blacksmith shop, comported himself much as all American boys who grow to manhood—dreaming that some day they may be president!

"LADY LINDY!"

Spanning the Atlantic from Newfoundland to Wales, over the 2,000-mile air trail on which three of her sex had perished, Miss Amelia Earhart, a Chicago girl, achieved glorious triumph as the first woman to fly across the sea when she brought her monoplane Friendship down on the British coast last Monday. Wilmer S. Stultz, pilot, and Louis Edward Gordon, mechanic, were her flight companions.

JUBILEE IN TOPEKA! Senator Charles Curtis addresses celebrating home folks on the state house grounds in the Kansas capital, where crowds hailing his nomination to the vice-presidency produced these festive arrangements—like magicians pulling rabbits out of hats.
