

## KELLY AND AIDS IN CAPITAL THIS WEEK ON SUBWAY

### Will Attend Hearing to Answer Protests.

Objections have been filed by unknown Chicagoans to the proposed federal grant to help finance three loop subways. It became known yesterday.

Herold L. Ickes, head of the Public Works administration, announced that a hearing will be held next Thursday in Washington to thresh out the protests. He did not say who is making them. But he did promise that both sides will be given opportunity to present their arguments.

Mayor Kelly and a group of advisers plan to appear to answer any objections to the proposed grant of \$14,328,000 to help in the subways' construction. He said last night that he is not disturbed by the report that objectors also will be there.

### Delayed at Kelly's Request.

"Administrator Ickes first set the hearing for Wednesday," he said, "but delayed it until Thursday when I told him I had to speak on the radio Tuesday night. I do not know of any objections of consequence, and I am sure the objectors do not represent one-tenth of 1 per cent of the public sentiment."

He will be accompanied by William H. Sexton, special traction attorney for the city; Philip Harrington, traction engineer, and possibly by Commissioner of Public Works Oscar Hewitt. All are familiar with the plans for the underground tubes.

Ickes' announcement indicated that a favorable view is being taken of the city's application. It explained that "the proposed system would provide fast local transportation for the Chicago loop and is designed to relieve traffic congestion on existing transportation facilities."

### City's Money Pledged.

The loop subways would cost in excess of \$1 million dollars. The city is prepared to put up its part of the cost, \$175,512,000. It has 3 millions available in its traction fund and Mayor Kelly has assurances from four loop banks that they will lend the remainder as it is needed. As security they are to take 1938 and 1939 corporate tax warrants bearing 2½ per cent interest.

Originally the city asked for a 22½ million dollar grant and a 27½ million dollar loan to build the subways.

The proposed subways would extend under State street, Jackson boulevard, and Washington street and would connect with existing facilities outside the loop. Plans have been drawn and the city will be ready to start digging in October if the federal money is made available soon.

## 2 FOUND GUILTY IN \$3,000 POOL GAME SWINDLE

George Murphy of Boston, Mass., and John Maloney of Detroit, Mich., were found guilty of operating a confidence game by a jury in the Criminal court of Judge Robert Jerome Dunne yesterday. Their victim, who lost \$9,000, was Robert Denton, 6635 Lafayette avenue, a railroad electrician.

Denton testified that he met the two defendants and a third man, known as Earl Morrell, in a pool room on the north side last April. After winning a few games, Denton was induced to play Murphy, for \$9,000. Morrell was to hold the stakes. Denton admitted that he lost the game, but asserted that Morrell disappeared before the game had been finished. Morrell is being sought.

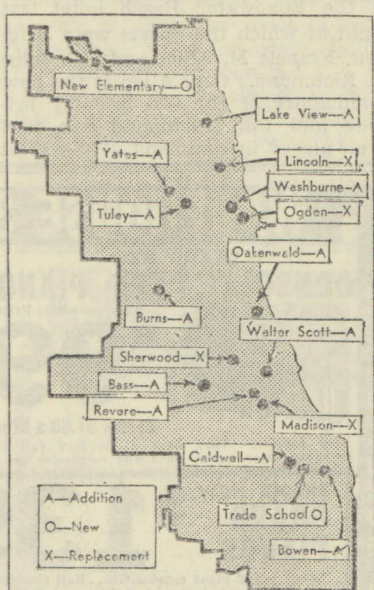

A motion for a new trial was continued until Aug. 17.

#### Jewelry Taken from Bag

Mrs. Louise B. Walker, an interior decorator of Oklahoma City, Okla., asked the police yesterday to aid her in recovering jewelry valued at \$4,500. "I was in Chicago last Monday," she said, "and stopped at a hotel near the loop. When I got home I discovered the jewelry missing from my traveling bag. So I came back to start a search." Railroad and hotel authorities are assisting Mrs. Walker in her search.
