HAD THEY BEEN FLYING TWO FEET HIGHER the occupants of this plane would not have hit the edge of this quarry at Norristown, Pa. Their plane crashed 100 feet to the bottom of the pit, landing on its back. Both flyers were killed. (Acme photo.)

FOOT SAVER'S NEW "FREE-WALKING" LASTS

Fit the Foot *in Motion!*

After all, *motion* is the true test of fit! Shoes that seem to fit while you stand still are only half-fitted . . . FOOT SAVERS are made to fit *walking* feet.

FOOT SAVER'S patented inbuilt construction gives firm support to the arch as it flexes, assuring perfect fit at that vital point.

And now, through the new "Free-Walking" lasts, FOOT SAVERS fit the heel (no matter how narrow) while the foot is in motion.

FOOT SAVERS keep their smartness and give you luxurious foot comfort to the last day you wear them. The whole secret of this extraordinary footwear is simply this—FOOT SAVERS *fit the foot in motion!*

FOOT SAVERS, too, establish a new standard of quality in material and workmanship. *This is doubly important in these days when the word "bargain" is being widely used as an excuse to sell shoddy, ill-fitting shoes. The mental and physical discomfort that such shoes can bring is a bad bargain at any price!*

THE WRESTLING CHAMPIONSHIP of the Philadelphia zoo has been settled for all time, and Leo and Luke, the lion cub finalists in the bout, are pictured together before the match which settled the title. Luke is either at the left or right; so is Leo.

LUKE OR LEO, in this second picture of the series, applies a scissors hold on Leo or Luke.

THE HEADLOCK that ended the battle. While the victor is serenely happy in his victory, his floored opponent snarls the leonine equivalent of "Foul!" (Acme photos.)

AT THE MAYOR OF FULHAM'S CHARITY FETE in London the host's colleague, Ald. E. J. Spearing, mayor of Hammersmith, negotiated this nonpolitical landslide amid the plaudits of his fellow mayors. The official robes appear to be of some use in saving the wear and tear on mayoral trouser seats. (Acme photo.)
