A GERMAN ARMY OFFICER'S WREATH FOR AMERICA'S UNKNOWN SOLDIER—Baron Maj. Fritz von Steuben, descendant of the drillmaster of Washington's army, is pictured placing a wreath on the tomb of the unknown soldier at Washington, D. C., during his visit to America. (Associated Press photo.)

AT THE START OF HER DISTANCE RECORD FLIGHT—Miss Ruth Nichols is pictured in the cockpit of her plane receiving a package of food just before she took off from the Oakland, Cal., airport for her cross-country flight. Landing at Bowman field, Louisville, Ky., she established a new long distance record for women, beating by almost 200 miles the previous 1,810 mile mark set by Maryse Bastie of France in a flight from Paris to Russia. (Acme photo.)

A DETACHABLE CABIN AND A GIANT PARACHUTE compose this new life saving device, which is being developed by the U. S. army air corps at Wright field, Dayton, O. When the plane becomes disabled the pilot releases a gigantic 'chute carried in the contrivance, itself resembling an airplane, which rides on the wing of his plane, and which, when disengaged, carries the entire cabin to safety, while the rest of the disabled plane falls to earth. One of the
 world's most luxurious
 Overcoats

\$50

Winter-tex

You occasionally see a luxurious fabric—so fine, so smooth, so soft that you get pleasure out of just stroking it with your fingers. That is exactly the kind of cloth you will find in this beautiful new Winter-tex Overcoat.

The Weather-tex
 Overcoat . . . \$35

If you will compare this coat with a \$50 overcoat of last year, you won't be able to tell the difference.

It is intended for gentlemen who wouldn't wear anything unless it was fine.
