How he likes the sunny flavor
of Campbell's Tomato Soup!

Why not for
lunch tomorrow?

Let him eat all he wants, too... it's so splendidly wholesome and beneficial... healthful, full-ripe, juice-laden tomatoes — you actually serve on your table... blended with choice butter such as by Campbell's chefs, with their lifetime's experience in fine soup-making... No wonder the whole family wants you to serve it often... When you go to your grocer's today, be sure to get your Campbell's Tomato Soup!

I like to read stories
And fairy tales, too,
But Campbell's Tomato
Is a dream that is true!
