They tous the new hay in the meadow.
They gather the elder bloom white:
They find where the dusky grapes purple
In the soft tinted October light.

They gather the delicate sea weeds,
And bedid tiny castles of sand;
They plack up the beautiful sea shells—
Fairy barks that have drifted to land.
They were from the tail, rocking tree to;
Where the criole's hammock nest swan
and at night time are folded in alumber
By a song that a fond mother sings. Those who toll bravely are strongest; The branchic and your bottom great And from those brown-banded childre

friends the following timely hints: Keep busy; when the hands are idle, use the head; it is a profitable labor, in to be fed to stock, and mixing it dust, or superphosphate of lime. Draining of wet lands and marshes adds to their value by causing them to produce earlier, and a greater quantity and better quality, and improves the health gallons of cider. Mix it well, and Blount to the State senare, and he was

The bird was exhibited on a table, around which the savans gathered. One faction, headed by Dr. —, maintained that the bird was nothing more than a common black crow, the tail of which had been turned gray by some accidental cause not understood, having possibly had salt thrown on it in the young and tender days of the bird. The other faction, headed by Judge Clemens, scouted such an idea. It was abound—ridiculous. They were willing to admit that the bird was nothing the error in the cell, and placing her lips between heavy of the bird was nothing more than a drown on it in the young and tender days of the bird. The other faction, headed by Judge Clemens, scouted such an idea. It was abound—ridiculous. They were willing to admit that the bird very much resembled the crow; that possibly it was a crow; but, if so, it belong to a separate and distinct species from any that had ever before been discovered.

The discussion was continued, and because of the laws and covered.

The discussion was continued, and because of the laws and the continued and because of the laws and the delight of their triends. The possibly it was a crow; but, if so, it belong to a separate and distinct species from any that had ever before been discovered.

The discussion was continued, and because of the laws and the continued and because of the laws and the laws of the laws are trusted that the appeal will be widely a conversation in the German lain that the bird was nown in the cell, and placing her lips between the bear where the lame man did told him he would get into trouble it be ded the metal that the post of the laws and grown that the trusted that the appeal will be widely a gentleman came over to the lame man and told him he would get into trouble it be ded to professionals, but in the retire own gratification.
