REALIZE BIG SUM FROM TIMBER SALE

STATE WILL GRANT APPLICATIONS TO CUT DEAD AND FALLEN WOOD.

SECRETARY CARTON SAYS OVER 200 APPLICATIONS HAVE BEEN RECEIVED.

Removal of Dead and Fallen Timber From State Lands Will Lessen Chances of Forest Fires.

That the state will realize a large sum from the sale of dead and fallen timber on lands owned by the state both in and out of the state forest reserves is shown by the large number of applications received by A. C. Carton, secretary of the public domain commission.

Mr. Carton says over 200 applications have been received for the privilege of cutting timber on lands outside of the forest reserve. It is expected that before the close of another year the state will be many thousands dollars ahead as a result of the sales, and fallen timber removed from state lands, thus lessening the chances of forest fires.

The new postoffice was opened at West Lansing, It is a two-story wood structure 100 feet by 20 feet. Lieut. Holley, state military instructor, will occupy the second floor.

CYCLONE SWEEPS OVER FLORIDA

OLDEST CITY IN U. S. IMPERILED AS SEA RUSHES OVER WALLS FLOODING MANY HOUSES.

SIXTY MILES AN HOUR STORM RAKES WHOLE STATE; IMMENSE DAMAGE TO CROPS.

Cyclone Travels Sixty Miles an Hour and Covers the Whole Southern Peninsula.

St. Augustine, the oldest city on the North American continent, with its treasured relics of the first settlement by the Spaniards, is seriously imperiled by the cyclone which swept the whole of the Florida peninsula.

Scores of persons were driven from their homes by the rising tide. Several hotels on the water front were flooded in their lower floors. Two launches were sunk in the bay, but no lives were lost. The electric power plant was forced to shut down.

Although the city is two miles at least from the ocean proper, being separated from it by Matanzas inlet, a narrow waterway, the sea was of equal width, the waves of the ocean have flooded parts of the city.

The water poured over the high sea wall from the highest storm tide in 16 years.

All Florida, both east and west, south of Jacksonville, is isolated from the rest of the world by the destruction of telegraph wires and railroad tracks.

Orange and other fruit crops suffer enormous damage, the loss is one district alone being a million.

Huge waves sweep over low-lying shores and overleap sea walls of St. Augustine, placing houses in peril.

WELLMAN ABANDONS FLIGHT OVER OCEAN

ROYAL MAIL STEAMER TRENT RESCUES AVIATORS 150 MILES OFF CAPE HATTERAS.

THE "AMERICA" WAS FLYING DISTRESS SIGNALS WHEN SIGHTED BY THE TRENT.

Shipping Men Say Balloon Must Have Drifted Nearly 500 Miles South of Sandy Hook.

Walter Wellman's attempt to cross the Atlantic ocean in a dirigible balloon has failed.

The crew of the "America" was rescued from death by the Royal mail steamer Trent, 150 miles due east of Cape Hatteras on the North Carolina coast.

Wellman and his five companions in one of the most spectacular and hardest attempts on record were brought to New York on the Trent.

The one prominent feature of the venture is that Wellman kept the air 69 hours since his start from Atlantic City and has beaten by 32 hours the greatest dirigible flight heretofore made—that of Count Zeppelin, who could only stay up 37 hours.

Mystery Is Explained.

The rescue of Wellman throws light on the mystery which shrouded the airship's movement.

Instead of sailing with a fair westerly wind for Europe along the north of the Atlantic liners he drifted south along the coast.

After being reported off the New England shore Sunday the airship must have encountered a sudden change of wind and been carried 500 miles out of her course; for it is that distance from Atlantic City to Cape Hatteras.

Balloon Flies Across English Channel.

Another chapter was added to the history of aviation when the French dirigible balloon, Clement-Bayard, made the voyage from Compiègne to London in the remarkable time of six hours, a journey requiring seven hours by the fastest express trains and boats. Compiègne is 45 miles north-east of Paris and about 195 miles by air route to London.

Admiral Reis Was Assassinated.

That Admiral Cambido Reis, the Portuguese revolutionary chief, was assassinated is now practically confirmed. Admiral Reis was one of the leaders in the recent rising, which ended in the proclamation of the Portuguese republic.

MAY BE FORCED TO CLOSE POORHOUSE

SECRETARY ARAHIGNS COUNTY OFFICIALS IN REPORT ARE NOT KEPT PROPER

M. T. Murray Says Jail and Live-House in Michigan-Union to Live-In-Demand Supervisors Take Action on Once

Lansing—Supervisors in a number of counties in this state will find themselves confronted with severe action in the near future if they do not take prompt action to improve the manner in which their respective counties treat aged dependents and live-in-house inmates.

Just at this time, when Thanksgiving and the other holidays are near at hand, when the public attention is being attracted to the plight of the poor, the Michigan State Board of Corrections and Charities is endeavoring to close a poorhouse and three halls at unit places for human beings to inhabit. To numerous other counties have sent letters calling attention to unequal treatment of the aged and infirm in their respective poorhouses and jails and demanded that the supervisors take action at once to better the conditions.

Here's the way he describes the poorhouse or infirmary, as the latter term is more commonly used. "Within the shadow of a beautiful house, and in a community housing and advertising its beauties and resources, Grand Traverse county provides for her unfortunate dependent and infirm in a manner which is a disgrace to the state. The vermin-infested quarters are absolutely unfit for the purpose for which they are used. It is not a redeeming feature about the premises other than that the over-crowded and uncleanly quarters are the best they can do with what the county has provided.

No provision is made for the separation or classification of inmates, and during the winter months the old people are huddled and packed together in a manner which is a disgrace to the county. The means of heating and ventilation, five men were crowded, the beds and coats occupying practically all the floor space.

Many Flaws in Home Rule Act.

The supreme court listed to a review of the arguments in the case of the attorney general on the relation of the Home Rule Act to the common council of the city of Detroit.

Corporation Counsel P. M. Hally presented the case for the city. Attorneys A. C. Angell and Hinton E. Spaulding appeared for the taxpayers. The court heard arguments from the laws and cited extracts from many cases and showed that the submission of a proposed amendment to the city charter to the voters of the city is a violation of the Home Rule Act.

The case was heard before a full bench. The whole question simply resolves itself into whether the city is to be given an opportunity to vote on the proposed amendment to the charter at the general election in November.

When a petition was presented to the city of Detroit, a resolution was passed that a special election be called for the purpose of determining whether the taxpayers desired to amend the city charter to provide for the election of a mayor and council.

No suits started against M. U. R. "No suit has been started against the Michigan Telephone Company, which is a corporation organized under the laws of Michigan, and which is doing business in this state."

Michigan D. A. B. Reine Sessions. The formal sessions of the Michigan chapter of the Daughters of the American Revolution were started on Monday, October 27, at the residence of Mrs. J. M. B. Reine.

Rich Coal Field Is to Be Opened.

A coal field containing anywhere from 50,000 to 100,000 tons of coal, the richest bed of fuel in the entire state, will be opened up for development with the completion of the Detroit, Bay City & Western railroad, which, its promoters announce, will be ready for operation before the close of next year.

The Detroit, Bay City & Western railroad, which is the realization of Bay City's dream of nearly fifty years—a railroad from the western shore of Lake St. Clair to the coast of the western end of the state, is the realization of Bay City's dream of nearly fifty years—a railroad from the western shore of Lake St. Clair to the coast of the western end of the state.
