WILL RAISE PRICE OF SUGAR BEETS

THE BELIEF OF CANADIAN GROWERS REGARDING THE RECIPROcity PACT.

SOME DOUBT WHETHER PRODUCT WILL BE ADMITTED FREE.

The Question is Very Important to the Beet Sugar Companies of Canada as Well as to Michigan.

Canadian beet sugar companies are unable to learn whether sugar beets will be on the free list if the proposed reciprocity bill between Canada and the United States becomes a law.

American Consul Fred Slater, located at Sarnia, on request, given his opinion to the Canadian sugar companies.

Mr. Slater believes that beets will be on the free list under the proposed pact, and the companies will ask for an opinion from the Canadian government.

Under the tariff law of 1897, which will continue in force, providing it does not conflict with the compact, the tariff on sugar beets is 25 per cent ad valorem.

At the time the present tariff law went into effect there was considerable misunderstanding over the question whether beets were on the free list.

At that time the government handed down an opinion to the effect that sugar beets were classed under the list of vegetables and that they should be taxed the regular rate.

It was the contention of the sugar companies at the time that beets, not having been specifically mentioned in the vegetable list, should come under the schedule containing mosses, roots, etc.

Under the proposed pact, vegetables are placed on the free list, although sugar beets are not specifically mentioned, yet it includes "all other vegetables in their natural state not here mentioned."

At the time of the question over the first tariff beets were not used to a large extent for sugar purposes, but were for feeding purposes.

It is thought that this may mean a decrease in the present time because nearly all the beets are used in the manufacture of sugar, which consumes much labor, while previously the only change made to the beets was topping and washing.

The question is important to the beet sugar companies of Canada as well as to Michigan.

If beets are on the free list it will mean much more competition for the companies. Especially is this true of the Canadian companies where the price paid is not as high as in Michigan.

Whether the fact that beets are cheaper in Canada will increase the price because of the competition or whether it will decrease the price is the much more question which cannot be settled until it has been worked out.

The Canadian farmer believes that it will increase the price, without affecting the price of beets in the states.

"Mother's Day," May 14.

Gov. Osborn in a proclamation has designated May 14 as "Mother's Day" and urges its observance in all parts of the state.

The proclamation is as follows: "Motherhood is the sacred fountain from which flows the stream of humanity. Just as that fountain is pure and undefiled, so should be the character of our people.

"Natural, willing motherhood is the measure of the vitality of a race. Willful sterility is race murder and one of the gravest dangers confronting humanity today.

"I request the citizens of Michigan generally to observe the second Sunday of May as Mother's Day. As many as possible should read the article by Theodore Roosevelt upon 'Race Recidivety,' published in the Outlook of April 8. I bespeak for this day the profound consideration and highest thought of all our people upon the theme of mother, and all that the beautiful word implies."

U. S. Warships to Go to Acapulco. Alarm is felt in administration circles for the safety of Americans in Mexico, especially in the vicinity of Acapulco, on the west coast.

Conditions described as intolerable were reported to the state department by Ambassador Wilson and it is probable that warships will be ordered to Acapulco at once.

The ambassador acted following a report that two sons of Judge Melvin Goodman had been murdered by bandits at their father's hacienda not far from Acapulco.

Mr. Wilson wired also that Americans in Mexico City are becoming alarmed and that their unrest is due in some measure to apprehension of the failure of peace negotiations and a consequent prevalence of anarchy.

Seven Were Smothered. Nearly 300 tons of a hundred miners in the Hartford mine of the Republic Iron & Steel company, near Negaunee, were cut off from escape when the timbering of the mine took fire, and at least seven men are dead.

All the men were smothered by the smoke and gas from the fire. The fire broke out at the third level of the mine, about 400 feet underground. It is the theory that some careless miner left a lighted candle too near the woodwork of the shaft.

M. A. C. to Fight Larch Saw-Fly. M. A. C. will be one of the first colleges of the United States to lead a new sort of attack against the ravages of the tamarack saw-fly which has destroyed great tracts of American larch or tamarack in the northern part of this state and, in fact, in all stands of larch from Maine to Minnesota.

This insect has become a menace to what little larch remains in Michigan, and has already done millions of dollars of damage.

FOWLER (IND.) FARMER CONFESSES TO MURDER OF JOSEPH KEMPER OF CHICAGO.

SEARCH FOR MORE BODIES
Possé Scours Farm for Others Thought to Be Victims of John Poole—Accused by Son—Excitement Runs High Among Neighbors.

Fowler, Ind., May 4.—John W. Poole, wealthy land owner, placed in jail here on the charge of killing Joseph Kemper, a German farm hand employed by him, has confessed to the officers that he shot Kemper accidentally on December 12, 1906.

Poole was arrested near Rensselaer after the decomposed and terribly mutilated body of Kemper had been found in a corn field by Emory Poole, his son, and several of his neighbors.

Search for Other Bodies. The officers and people living in Poole's neighborhood believe that he may have used his farm as a graveyard for others employed by him who were missing and search is being made for graves.

The mystery promises to rival that of the famous Guinness case near Lapeorte, Ind. Like Mrs. Guinness' farm hands, who were killed after entering their employ, Kemper and at least two others employed by Poole are believed to have been murdered.

A fourth farm hand whose name is not known is missing. The two whose names are known are Charles Clark and Charles Mack who have been missing for nearly a year.

Poole insists that they left him of their own accord and that one went to Scranton, Pa. Son Causes Father's Arrest.

Poole's arrest was made on charges filed by his son Emory, who says that he was afraid that his father would kill him and his mother. The latter, however, stands by her husband.

Young Poole insists that his father killed Kemper in the kitchen at his home near here, but Poole declared that he killed Kemper accidentally in pursuit of a rabbit. He says that while he was climbing over a fence the gun was discharged, Kemper, he says, was struck in the head by the shot and killed.

Poole Under Heavy Guard. Poole is under heavy guard here as excitement is running high among the farmers. He is about fifty years old. He has several farms but has been feared because of his temper. Several years ago he shot and almost killed one of his employes in a controversy over wages. He was released on the ground that he was insane.

AMERICAN CITIZENS SHOT BY MEXICANS

DANGERED BY RAIN OF BULLETS IN ATTACK MADE ON JUAREZ.

REBELS HAVE NO FAITH IN DIAZ'S PROMISE TO RESIGN.

Fighting is Resumed at Many Important Points and All Leaders Except Madero Are Determined to Fight it Out.

Five Americans have been killed and 12 wounded by Mexican bullets fired across the river during the desperate fighting between the insurgents and federal troops at Juarez Monday night.

These 17 American citizens were all on United States territory, and most of them were in the streets of El Paso or on private grounds. Scores had narrow escapes and during many hours hundreds of bullets poured into the city, pattering against stone work and piercing wooden walls.

The city is in a state of terror, and there is a unanimous demand that United States officials do something to provide protection for peaceful Americans in their homes.

Colonel Steever, commanding the United States forces in El Paso, made repeated protests to the commanders of the Mexican federals and insurgents, but without avail. He says he can do nothing more as his hands are completely tied by orders from Washington.

There was stubborn fighting clear to the heart of Juarez. After an afternoon of desultory firing a formidable attack began toward nightfall and was continued until long after dark. The insurgents occupied all the outskirts of the city and the bull ring; captured the bridges and customs houses and attacked the federals in their strongest positions.

At about 9 o'clock the rebel forces apparently withdrew and the firing quieted down. At that hour, however, it was firmly believed that the attack would be renewed by morning if not before then.

DIAZ'S PROMISE TO RESIGN

Gen. Porfirio Diaz issued a manifesto to the people of Mexico declaring his intention to resign the presidency as soon as peace is restored. In this manner the president has virtually acceded to the demands of Francisco I. Madero that he make announcement of such intention.

It is to be hoped that peace is actually near. General Diaz reserved the right to be the judge. In the words of the manifesto, it will be "when, according to the dictates of my conscience, I am sure that my resignation will not be followed by anarchy."

The president made it clear that he does not propose to abandon the presidency while his country is at war and that he would not do so at any time under compulsion.

McNamaras Will Plead June 1. On charges of homicide and dynamiting the Los Angeles Times building Oct. 1, 1910, when 21 men were killed, John J. and James B. McNamara were arraigned formally in court in Los Angeles. With hands manacled, they were brought in by Sheriff Hammett and Judge Depue.

"Considering the importance of the case and the distance which is may be necessary to bring witnesses," Attorney Rappaport, for the defense, said: "I would like to have 30 days before the pleas are entered."

At 10 o'clock the plea of "not guilty" was entered by the defendant, and the provision of the statute which declares that the men must be tried within 60 days after they are arraigned.

Rappaport signed his willingness and the district attorney said he would consent that the pleas be made up June 1.

Ortie McNamara was not arraigned. He will not appear in court until the trial of the McNamaras begins.

Dynamite Trial Will Cost \$2,000,000. That the trial of the men charged with complicity in the destruction of the dynamite of the Los Angeles Times will cost approximately \$2,000,000 is the estimate by attaches of the district attorney's office.

Each side, it was pointed out, stands ready to spend unlimited sums in the prosecution and defense of the two McNamaras and McManigal. The court costs will run up in the thousands of dollars expended in bringing witnesses and evidence and in other necessary expenses.

Trusts Are in for Probing. Probing of the express companies, steel, shoe, sugar and woolen industries to see if they are combined into money grabbing and market controlling trusts, are to be pushed by the federal government, congress and interstate commerce commission.

About 150 concerns of Grand Rapids, employing labor, among them the furniture manufacturers, have issued a signed pledge declaring for the open shop and more employers are being added every day.

The Anglo-German Friendship society meeting in the mansion house, London. The object of the organization is to dissipate any ill-will and suspicion that may exist between the two nations, and the speakers referred to the movement as a fitting complement to the great Anglo-American peace meeting at Guildhall.

Germany Gives France Warning.

Germany has warned France of the dangerous consequences which would be likely to follow the occupation of Fez by French troops.

Further than this the government has taken no step, though watching developments in Morocco very closely. There is no truth in the rumor published Monday morning that Ger-

many had decided to send a fleet cruiser to Morocco to send a message to the flag at Casablanca, Rabat, Mogador and El-Araish.

In view of the hint from Berlin it is believed that the French flying column from the southwest which has been hurrying to the relief of Fez will be halted outside the capital.

Spain is \$16,000,000 Shy. With every possible cent of taxes squeezed from the people and every possible item of expense looped off, there still remains a deficit of \$16,000,000 in the Spanish budget. As a consequence it is predicted that the ministry may be forced to resign.

Military expansion and governmental graft are chiefly responsible for the deficit.

By 11 to 10 the Massachusetts state senate refused to ratify the proposed amendment to the federal constitution providing for an income tax. The measure recently passed the house by an overwhelming vote.

IT IS Not What You Pay THAT MAKES A BARGAIN But What You Get

That Brass Bedstead. Suppose you buy a Monument from one of the many outside agents and it fails to give satisfaction, you pay your good money for a sign that looks all right when erected, but later on, after six months or a year, it fades and checks, who will pay for your disappointment, when you have found out too late what you have bought, will the agent make good your loss?

Anyone Can Cut Prices, But It Takes Brains To Make a Better Monument. The CAREY-MORAN GRANITE CO. MANCHESTER, MICHIGAN.

We Are To Be Married Soon. THAT is what we hear and that is why we say come to our store to buy the bugs she will need. We have everything necessary and when she gets ready to go to housekeeping we want to furnish her with Table Linens, Rugs, Curtains, Shades, in fact everything in the Dry Goods line. You will not know what we have until you call, then you will be surprised and delighted.

By the way, if she is to be a farmer's wife, we want to buy her butter and eggs. Can't we buy yours too?
