Remedies for colds and coughs. Large black or red cherry cures. Spiced Currants—Take two pounds of brown sugar, half a teaspoonful of each of cinnamon, ginger, allspice and cloves. Cook all together thirty minutes. Keep in a stone jar well covered and sealed.

MOT WEATHER HINTS.
Blow very early and do the hot work during the heat of the day. It is surprising how much more can be done from five to six than from ten to eleven. There are no interruptions, as the majority of people are sleeping. Take your forty morning washes and get your work done early.

IMPROVEMENT MADE IN MODERN TYPE OF BABY BEEF ANIMAL

Predicted It Will Continue to Increase in Popularity in Those Districts Where Farmers Do Not Wish to Dairy—Vast Range Areas in West Have Been Cut Up Into Small Farms.

Twenty-two years ago the popular baby beef was a mountain of meat. It was a large animal, weighing from 1,000 to 1,500 pounds. It was a slow grower, and it was a slow finisher. It was a slow finisher, and it was a slow finisher.

The killer also discriminated against the younger animals usually carried a little more than the younger animal, and there is less water in the carcass, so that they kill out a larger per cent of good meat. The feeder himself found that unless he raised a steer that weighed 1,000 pounds at birth, he would not be able to get a good return from the animal.

If the cattle feeder aims to produce his own beef, he should raise a steer that will weigh 1,000 pounds at birth. It is well known that young calves lose weight rapidly in proportion to their live weight. A steer that weighs 1,000 pounds at birth will weigh 1,250 pounds at the time it is killed. The census bureau shows that in...

It is now thought that congress will adjourn about Aug. 12. Just in time for Homecoming's Day at Manchester on the 24th.

It is believed that Detroit real estate men have options of large tracts of land in Windsor and expect to get rich by selling them.

The lights were turned on the new electric street lamps on Chicago street Saturday night and they made a fine appearance.

From the activity shown by lumber men in the northern part of the state, it does not look as though they were so seriously worried of Canadian reciprocity.

A card from Miss Florence Foucher of Seattle and teacher in the city school states that she has been on a trip as far south as San Diego, Cal., and has had a fine time.

Senator Townsend voted in favor of the resolution which passed by a vote of 55 for and 27 against. Townsend voted 27 yeas and 27 nays against it. Senator Townsend has again introduced a bill for deep waterways between the lake and the coast by way of the St. Lawrence river.

R. E. Olin of Lansing who holds the majority stock and is the head of the Rock Motor Co., refused to dispose of his stock to eastern parties unless the latter would also make the same price offer to all other stockholders, which they were unwilling to do as they would mean a deal of about \$6,000,000.

The crop of rice is unusually large and early in the season this year. There is absolutely no doubt that a great many cases of typhoid fever are the direct consequences of rice in the house. Clean up the breeding places of flies. Kill every one you see with the knowledge that you are preventing someone from having typhoid fever, or some baby from having cholera infantum.

Almost everybody in the village and a lot of country people are planning to attend the bazaar picnic at Wampler's lake next Thursday. The merchants have agreed to close their stores which looks like the town will be almost deserted. The idea of taking a day off and getting better acquainted with your neighbors and customers in a social way is a good one and the time will not be lost.

In conversation with a highway commissioner not long ago, regarding the country roads, he said that under the present system it was impossible to better the roads much. The farmers want to work the roads themselves; they expect to think that the roads really belong to them, that they are taken from the land adjoining their farms, and they consider the complaints made by automobile drivers as unjust. They have always done the road work when their teams and men could be spared from the farm work and they think it nobody's business. They say that the automobile owners are not taking any responsibility for the roads and they think it is their duty to do so.

Dr. C. F. Kapp went to Detroit last Saturday to see how things were progressing with the work on his son Fred's house. They expect to begin talking in a few days.

Dr. M. H. P. Austin of Brooklyn visited Mr. D. H. Brown's Monday night and on Tuesday morning went to Cleveland to attend the national dental convention.

Miss Edith Dietle who is clerking for Yocum, Marx & Co., is taking her vacation. She expects to spend next week at Wampler's lake with Mr. & Mrs. Frank Foster.

Wm. Burdette and Louis Louder came home from Battle Creek last Friday afternoon. Mr. Louder thought he was being benefited and returned Sunday morning for another week.

Dr. Peter Schermer filed the pupils of the First Evangelical church at Jackson Sunday. The patriot said Mr. Schermer was pastor of this church four years and has many warm friends in the city.

The Misses Prudence and Louisa Good-ry and Alice Oak started for Bay View today to spend a few weeks.

BRIEF LOCAL ITEMS

The Fair has a new advertisement this week.

On Monday night, a 14 pound pickeral was caught at Hoxley's lake, Sandusky.

The steel spire for the new catholic church has been placed in position.

Yocum, Marx & Co. have an advertisement this week that everyone should read.

John Decker is having his building, corner of Jefferson and Water street, painted.

Mr. Sloan has the collar dug and is laying the foundation wall for his residence.

The Manchester house looks much better since the front porch has been painted a lighter shade.

The outlook is good for a bumper crop but there are some fields that look as if they had not been properly cultivated.

A fellow remarked Monday, "Mother said it was a hard drinker who had been in the army and it rained last night, why she's as dry as I am."

The cool weather caused a demand for wood and those who had not secured a supply of coal for winter, began to think it time to do so.

There is a great quantity of farm help and laboring men generally. All classes of workmen are getting big wages and there is no indication of a panic.

The agricultural college train will arrive here next Wednesday at 1:15 and remain one hour. Farmers and others interested in agriculture should be there.

The high winds have done some or less damage throughout the county. The trees are down and the fields have blown over.

There is a great call for residences in this village. There are no empty houses suitable for a small family. It is a pity that some one here to live for this reason obliged to seek a residence elsewhere.

Everything is all falling for the farmer and business men's banks along a Wampler's lake. The bank is all right. The business here will be closed this day so that all may go and have a day of recreation.

Feed Beans who lately bought the Schaefer farm north of town, lost a horse Monday. His wife was hitchhiking and the horse was taken by a stranger.

Lightning struck a chimney at Henry Palmer's home and destroyed the ground in front of the house. The chimney was blown down and the ground was damaged.

Mr. & Mrs. C. J. Henschel and daughter Susan were in town Tuesday.

Mr. & Mrs. E. P. Hoffman were over Sunday visitors at the former's parents at Monroe.

ORCE, picturesque and ability in congress knows no southern. Northerners, southern, eastern and westerners have their strengths and their weaknesses, their likes and their dislikes, their physical characteristics and their mental idiosyncrasies just like all other human beings.

There have been men in congress who year in and year out on every occasion have kept before the people the one special legislative elevator, John T. Morgan, for years senator from the state of Alabama, worked for months untiring to secure the adoption by the United States government of the Nicaraguan route for the great inter-oceanic canal. He lost out, but it is probable that the face which he obtained in his researches was of more value to the diggers of the canal than those gathered by any other man.

There was substance to Senator Morgan's speeches as long as his life. If the voice of the Alabama man had been younger there would have been more of it. It is the voice of the Alabama man that is the voice of the nation. It is the voice of the nation that is the voice of the world. It is the voice of the world that is the voice of the universe.

KEEP ALWAYS BEFORE PUBLIC

Most Successful Merchants Are Those Who Keep Always Before Public

By Wm. G. Friedman

Just about this time of year a goodly number of merchants decide that they will save money until the middle of September by not advertising.

Year after year, for nearly twenty-five years, one of the hardest parts of my work as an advertising man has been to convince the merchant who wants to stop advertising during the summer months that he should never stop advertising.

My average of success for each year has been more than 40 per cent, and that is a record. But the 40 per cent of doubling merchants who were persuaded to have faith in the value of advertising in summer, fall, winter and spring months have been very successful. I am glad to say.

When he wants to do an advertisement, he should do it successfully. I think.

No average retail business can afford to neglect the newspaper. It is the best advertising medium in the world. In this busy world, we are so easily forgotten. We must keep ourselves before the public. We must advertise. We cannot afford to be overlooked. If we do not advertise all of the time, we cannot expect to be remembered.

THIS AD HELPED BUSINESS

But It Didn't Ad Much to the Coffee of a Certain New York Clerk.

A church on West Eleventh street, New York, did a rushing business in catering, not to the spiritual but to the physical, during the summer months.

THE VALUE OF PRINTING

The value of printing is not only a matter of cost, but a matter of quality. It is a matter of the art and science of the printer. It is a matter of the skill and industry of the printer. It is a matter of the reputation of the printer.

Lecture Found It No Trouble At All To Answer Question Asked To By Inquirers

"Will you allow me to ask you a question?" inquired a man in the audience.

"Certainly," said the lecturer.

"What gives a lot of figures about increasing wealth, the growth of trusts and all that?"

DISFIGURED WITH CRUSTS

"Some time ago I was taken with eczema from the top of my head to the bottom of my feet. I suffered untold itching and burning, and could not sleep. I was treated by doctors, but nothing helped. I was almost driven to despair. I was almost driven to despair. I was almost driven to despair.

DEEP DRAINAGE INCREASES ROOT SPACE

By R. J. BALDWIN, Michigan Farm School

Fig. 1-In wet soil the roots grow near the surface and are not so much affected by drought.

Fig. 2-Roots grow deep in well drained soil and are not so much affected by drought.

Roots, as well as all plant tissues, require air, water and food. In order to live and grow, plants must have these things in the proper amounts. If these things are not in the proper amounts, the plants will not grow. If these things are not in the proper amounts, the plants will not grow.
