# 850 MILES BUILT, 600 NOW BUILDING

GOOD ROADS CAUSE HAS PROS-PERED SINCE ESTABLISH-MENT OF STATE REWARDS.

OVER HALF A MILLION PAID OUT TO COUNTIES.

Gravel Roads Seem to Be the Most Popular-Highway Department is Proud Of Showing Made.

roads built in Michigan by the aid of the state reward since the highway department was established July 1, 1905, according to a statement 1905, according to a statement made to Gov. Osborn by Highway Commissioner T. A. Ely. On this mileage there has been \$585,290 paid in state reward, which statement must appeal to those counties that have failed to ake advantage of the reward law but have contributed generously in taxes to aid their more aggressive neigh-bors. Certain counties which have adopted the county road system have their system of county roads connect ing up their principal market towns practically completed and have drawn generously from the state for aid of their enterprise, while the more lag-gardly counties, which aided them, have nothing much to show but tax receipts for their share in the state's

venture along those lines .\_\_\_ Of the total mileage constructed 514 miles were gravel road and 313 miles macadam road. This is not all, however, for as a result of recent. ctivities there are 600 miles in course of construction or just completed, in

which the reward is pending.

During the year ending June 30,
1911, there were 304 miles constructed, of which 216 miles were gravel road, the form of highway construction which seems to be most popular in this state and on which the state has paid \$193,876 in rewards. It is a showing all around of which the department is proud and the officials say that several counties are planning equally extensive operations next year.

Postmasters Not Above Labor Law. The postmaster at Bear Lake, Mich., having taken exceptions to the order of Labor Commissioner Perry P. Powers that he must not keep girls in his employ over 54 hours a week, holding that the rules for the conduct of postoffices supercede those of any state department. Mr. Powers appealed to the postoffice department for a ruling in the case of the employment of girls in postoffices where the offices are maintained in connection with some lines of business. The ruling is of interest in that it affects more than half of the postoffices in the state of Michigan. The first assistant postmaster general at first took the ground that state laws relative to la-bor conditions do not affect postal-employes. Since then he has ascertained the contrary to be the case. He says: "This department has no disposition to interfere in any manner with the enforcement of the Michigan statute limiting the hours of labor women to 54 hours a week and to 10 hours in any one day, and it par-licularly has no desire to shield postmasters, who are also storekeepers, from the consequences of a violation of the law on their part in the emloyment of clerks longer hours than are permitted by the state statute. Not only will no objection be made by this department to the application of the law by the state authorities to cases where clerks are employed par-tially in work relating to the stores

wherein which postoffices are located, but this department is in entire sympathy with the attempt to reduce the abours for women and will be glad to tal fund left by Charles P. Brown, co-operate with your office in its effective properties of the control of the

# ALBION BANK CLOSED

Albion National Is in the Hands of Bank Commissioner.

The Albion National bank did not open its doors, for business Tuesday as the result of an order issued by National Banking Commissioner John-son Monday evening. Commissioner Johnson gives no reason for the order but M. D. Weeks, a director, states the accounts are in a bad state, owing to poor investments of funds President W. O. O'Donohue has not yet made any public statement.

The failure of the bank has created

great excitement, as according to the last statement published Dec. 15, the resources were \$200,100.24, while the

liabilities were of the same amount. This statement was approved by three directors. It placed the secured and unsecured overdrafts at \$6,127.92, while \$248.399.68 represented the loans and discounts. The commissioner is now at work on the books.

There was no hint the bank was involved in any way up to the time of Commissioner Johnson's announce. The bank was organized .. in February, 1905, and was patronized to a large extent by nearly all the lo-cal business men. It was originally a state bank, having been organized as such in 1887. The dying year 1911 is bequeathing the federal government a materially increased deficit as compared with the close of 1910, to be wiped out, if possible, during the remaining half of the current fiscal year. The general fund, representing the available resources of the treasury showed a big growth, on the other hand, due to the sale of \$50,000 000 in Panama canal bonds during the year. principal causes of the increased deficit was a falling off of probably \$10.

Miss Dora had figured time as close as a train dispatcher. She had not been in hiding ten minutes when Mr. Wells came up on the run. He saw the hat and handkerchief and uttered a groan and a shout. He was not up on avalanches, and he took this for a new one: Under it would be found the dead and mangled body of the girl he had tried to boss!
