Has Been Grinding 82 Years

It had been a hard year for the father of the family and the coming of Christmas had something of terror in it for him when he thought of how much less in the way of gifts he could do than he would have liked to do. But he was not a miser, he had a heart that had been broken by the loss of his wife, and he had a son who was a bright boy. He was a man who had been a member of the family for many years, and he had a son who was a bright boy. He was a man who had been a member of the family for many years, and he had a son who was a bright boy.

It was in the morning that he was sitting at the table, and he was looking at the clock. He was looking at the clock, and he was looking at the clock. He was looking at the clock, and he was looking at the clock. He was looking at the clock, and he was looking at the clock.

It was in the morning that he was sitting at the table, and he was looking at the clock. He was looking at the clock, and he was looking at the clock. He was looking at the clock, and he was looking at the clock. He was looking at the clock, and he was looking at the clock.
