Women Are Welcome

While we have no department devoted entirely to the use of our women cu stomers, we especially encourage women to open accounts with us in both our commercial and savings departments and we give their accounts special attention.

It probably would surprise you to know how many of our savings depositors are women—single women who earn their own living, married women who deposit for the family, well-to-do women who he ve a s sparate income.

At Our Institution

bank ing is made easy for women. The checking account is simplified and it in turn simplifies the family b' lying which is done so largely now-a-days by the women of the household.

Not a few of our vomen customers have both a checking and a savings account, thus combining the convenience and safety of the former with the 3 per cent. compound profit of the latter.
