CHANGE benefit ME.*

Are you a laborer? Then ask yourself if a change would raise YOUR wages and ask yourself the question as to whether or not it would throw YOU out of a job. You are enjoying prosperity NOW. Do YOU want a change?

tion in 1894 under Democratic rule.

In 1894 there were 2,325 factories in the state, employing 68,591 males and 11, 187 females. Now there are 9,456 factories in poration, employing 303,525 males and 52,777 females.

This is a total of OVER A QUARTER MILLION MORE people actually employed in Michigan now than in 1894.

Do YOU want a change?

Do YOU want a change?

REPUBLICAN STATE CENTRAL COMMITTEE A. I. Groesbeck, Chairman

The postoffice receipts during the Roosevelt administration was \$162,000,000 and they jumped to \$214,000,000 during the three years following the ascendency of Mr. Taft to the presidential chair. been made under a Republican administration, not by rehearing fulsome generalities about shops running full time, mines operating all shifts, factories working to yourself the question. "Would a

In 1911 it was reduced to 5.97.

Although the day's work is one hour LESS, the day's wage is nearly ONE DOLLAR MORE. And the total amount paid in wages in Michigan in 1911 was nearly SEVEN MILLION DOLCARS IN EXCESS of the total amount paid to labor in 1894.

But the FARMER, you may say, how has HE been benefited?

has HE been benefited?

The price of wheat in 1894 was 53 cents; NOW it is \$1.06. Corn WAS 36 cents while PRESENT quotations are 66 cents per bushel. Oats, barley, rye, hay, butter, cheese, eggs, and milk have nearly doubled in value. Horese, cattle, sheep

and swine have greatly increased—nearly doubled—in value.

And conditions throughout the entire country compare with those of Michigan.

The amount of money in circulation has increased approximately \$3 for every mant woman and child in the United States during the Taft administration.

The total bank clearings increased from \$138,823,000,000 during Roosevelt's administration to \$153,369,000,000 under

The total amount deposited in banks

beast leaped out upon him

of the serpent were repeated in a flot of designs. On the top of the stone a sloping basin was hollowed out, and from this ran a channel to the outer edge. There was no room for doubt that it was one of the ancient sacrificial stones of the Mayas, and that the natural glade in which of the form that the natural glade in which would take him across about sixty miles further to the north. it had rested for centuries was once the sylvan holy of holies of the Maya priests of the locality.

Where they "averted evil" to their people by human sacrifices.

It was when a month and a half inland on this followed him, still they were deeply second trip that there occurred one of the most interested in him and considered him the discovery of four large and hitherto unknown the discovery with a companion of this sacrificial stone that introduced the first of the stone villages at a vistone of the stone of the most interested in him and considered him to be a prophet (John 6:14). Never the discovery of four large and hitherto unknown the less Jesus was moved with a companion of the stone of the most interested in him and considered him to be a prophet (John 6:14). Never the discovery of four large and hitherto unknown the stone of the most interested in him and considered him to be a prophet (John 6:14). Never the discovery of four large and hitherto unknown the stone of the most interested in him and considered him to be a prophet (John 6:14). Never the discovery of four large and hitherto unknown the stone of the most interested in him and considered him to be a prophet (John 6:14).

human sacrifices introduced the first of the stone villages. Alexistence, if not their location, was already though literally imbedded under the rank under-known to his Mayas under the name of The growth of the jungle, enough was uncovered to Four Sisters." show that at some time it must have been a place of importance. Ruined columns lay about. and great slabs of granite, some of them weigh ing many tons, were scattered in irregular heaps. The wavering lines of broken slabs and columns which in places showed through the foliage indidecoration and carving of these slabs there was every mark of an art which, although in its form widely at variance with that of the Egyptians, is perhaps as old. There were indications, too, of a culture as ancient.

At the time of the conquest of the Mayas, in a warfare which began about 1540 and continued for years, a city called Tihoo, on whose site the Stands Meride in The new territory, whose resources have been revealed through the enterprise of this young explorer, is believed to be one of the most valuable finds, commercially and historically, of many decades. The untold riches of its forests are not only accessible, but Mr. Millward is likely to prove to a large extent to decade and strength he disciples are aghast at his suggestion that he feed this multitude of "about four thousand." "Whence shall one be able to one with bread" (R.V.)? On the other occasion Jesus had asked Philip, who lived in the near-by town of Beth to prove to a large extent to decade and strength he considers these men far superior to the Mayas. The new territory, whose resources have been revealed through the enterprise of this young explorer, is believed to be one of the most valuable finds. Commercially and historically, of are not only accessible, but Mr. Millward is likely to prove to a large extent to the Mayas. The new territory whose resources have been revealed through the enterprise of this young explorer, is believed to be one of the most valuable finds. Commercially and historically, of are not only accessible, but Mr. Millward is likely to prove to a large extent to the Mayas.

The new territory, whose resources have been revealed through the enterprise of this young explorer, is believed to be one of the most valuable finds one be able to do "Charles" where the disciples are aghast at his suggestion that he feed this multitude of "about four thousand."

"Whence shall one be able to be one of the most valuable finds one be able to be one of the most valuable finds one be able to prove the men far superior to the May

"Ah! another daughter?"

"No, a son. Name's Nathaniel, and ain't half as bad as you might think."

"It isn't what you've been used to, the best styles after all." ble Compound and got better right away.

Your valuable medicine is worth more than mountains of gold to suffering we had and she firmly refused Mrs. Coffin's

The minister looked more troubled to drown, "observed Miss Annabel." "The minister looked more troubled to drown," observed Miss Annabel. "Mr. Langley, our former pastor, was a sewer odd, gentleman, but he was the firmly refused Mrs. Coffin's not too-insistent appeal to return to the house "up street" and have suppound, made from nativercots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the moetsuccessful remedy for female ills we know, of, and thousands of voluntations of his in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you want special advice write to Lydis E. Plakham Redicine Co. (conding in the minister and have suppounded that a shandkerchief. The minister smilled rather one sidely.

If you want special advice write to Lydis E. Plakham Redicine Co. (conding in the minister looked more troubled to more trouted and his tastes were were contained to make port most any time. I believe. Now, Mrs. Coffin!" Mrs. Coffin!" Mrs. Coffin!" Mrs. Am alive! I'm not worried. Why should you be? We were talkin about more of the most time for supper and stayin overnight; and I'll have to take each other on trust for a while, until we see whether the minister looked more troubled the firmly refused Mrs. Coffin's mot worried. Why, Mrs. Coffin!" Mrs. Allew you had all. I'm not worried. Why should you be? We were talkin about more of the still in the first part of the condition of the supper and stayin overnight; and I'll have to take each other on trust for a while, until we see whether? Then she changed the subject to Cap'n Elkanah's. They jib er said to give gound the first part of the same by you. If that's agreeable. You'll bear a first part of the same by you. If that's agreeable. You'll bear to first part of the same high they in the first part of the same night as ours. They have to the same by you. If that's agreeable. You'll bear they in the first part of the first part of the first part of the same night as ours. They have to the same night as ours. Th

and I've made a lot of trouble, I'm afraid. But yesterday afternoon I was ready and, to tell the truth, I was eager to come and see my new home and get atking work. So I started on the morning train. Then the stage broke down and I began to think I was stranded at Bayport. But this kind-hearted chap from Wellmouth—I believe that's where he lived—happened to pull up to watch us—wrest-ling with—the smashed wheel, and when he found I was in a hurry to get to Trumet, oftered to give me a lift. His name was—was Bird. No, that wasn't it, but it was something like Bird, or some kind of a bird."

Bird?" repeated Keziah thought-fully. "There's no Birds that I know "Tm sure I'm ever so much obliged "The worth navier of the Regular church in Trumet. Also, he began to realize that, as skipper, he was most inexperienced. And Captain Daniels hat and valise in his hand.

"Tm sure I'm ever so much obliged "The worth naving his coat and carrying his chart and valise in his hand."

"Bird?" repeated Keziah thought-fully. "There's no Birds that I know" "Bird?" repeated Keziah thoughtfully. "There's no Birds that I know "I'm sure I'm ever so much obliged his part. of in Wellmouth. Hum! Hey?
Twa'n't Sparrow, was it?"

"That was it— Sparrow."—

to you," he said. "And, as we are go the first Sunday came and with it ing to be more or less together—or the first sermon. He read that sermon at least I guess as much from what to Keziah on Saturday evening and

WERE RACE OF CLAY EATERS but I would be very glad to receive your French Savants Have Proof That Pre at all times endeavored to administer the historic Parisians Ate Earth estates that have come to my jurisdiction as a Food.

A French savant, Dr. Marcel Baudouin, has discovered that Parisians at one time were clay eaters. The bresent generation, of course, is ex-cluded. The geophagous Paristans were prehistoric ones. How he discovered all these facts has been ex-plained by him to the Academy of Science. The region of Paris, he says, was inhabited by tribes that made a practice of mixing clay with their food. When they had no other food they simply ate the earth. Montmatre clay, it seems, was particularly nutritive. The sand in the bed of the Seine was an excellent digestive. Children were nursed and brought up on both these delicacies between the ages of three

Many of these vigorous prehistoric bables had already worm out their teeth. It was this very fact that proves that they were a geophagous race. The remains of their teeth show that they were worn and polished by eating clay and sand, just like the teeth of the geophagous or earth-eating tribes of Africa and the Pacific ocean. We know that even in our own clay staters who have degenerated George J Burke, the democratic from civilisation are to be found in North and South Carolina. Their teeth present exactly the same characteristics as those of the prehistoric Parisians, who are, therefore, proved to have been fond of a vol-su-went d'ariside or correid when and Cartain on record for the aumont of the voters
