DEMOCRATS HAVE LARGE MAJORITY OF ELEC-TORAL VOTES; CARRYING MANY HEAVILY POPULATED STATES.

SPLIT AMONG REPUBLICANS LOSES THEM MANY STATES.

Solid South With Majority of the Eastern States Insured the Election of Wilson in Early Returns.

With the election of Woodrow Wilson to the presidency and Thomas WERIDIAN CHAPTER No. 48, R. & A. M., meets at Masonic Hall, Wednesday Even-ing on or before each full moon. Com-panions cordially welcome.

The size of the majority given the democratic national ticket of the assembles at Masonic Hall, Tuesday Even-ing after each full moon. All visiting companions invited. Mat D. Blosser, C. W. Case, Recorder. T. I. M. that Illinois would give an overwhelming majority to Roosevelt, while the MANCHESTER CHAPTER No. 101, O. E. S., meets at Masonic Hall, Friday Evening race in Pennsylvania was so-close to bring all three candidates within range

Early returns gave Gov. Wilson and Gov. Marshall the "solid south" and the states of Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New York, West Virginia, Indiana and Missouri. As the night advanced and returns from the west began to come in these earlier estimates were confirmed, and Montana, New Jersey and New Mexico were added to those that seemed certain for the democratic candidates, while scattering returns from San Francisco and Los Angeles made it probable that Cali fornia might join the Wilson-Marshall column.

Shortly before midnight, Col. Roosevelt made the following statement: "The American people by a great plurality have decided in favor of Mr. Wilson and the Democratic party. Like all good citizens I accept the result with entire good humor and contentment. As for the Progressive cause, I can only repeat what I have already so many times said: the fate of the leader for the time being is of little consequence, but the cause itself must in the end triumph, for its triumph is essential to the wellbeing of the Amer-(signed.)

m Maryland were re-elected. son 114, 59 Roosevelt 116,985.

Connecticut Coes Democratic. Indiana Overwhelmingly Democratic. The vote of the state shows the Indiana apparentyl went overwhetmblice of electors who will cast the ingly Democratic Genernor Wilson, state, Ferris is elected by 10,000 but WOODBRIDGE N. FERRIS.

for president for the first time in its

WHOLE NUMBER 2331

EARLY RETURNS INDICATE THAT FERRIS IS ELF.CT. ED BY ABOUT 10,000 MAJORITY.

ROOSEVELT HAS LEAD IN THE STATE, WILSON SECOND.

Incomplete Returns Indicate That Roosevelt Will Have a Lead of Between 25,000 and 55,000-Heavy Vote Poled.

By probably not less than 40.000 plurality Theodore Roosevelt carried Michioan, and the state's electoral vore will be cast for him. Woodrov Wison ran second. The vote, as shown by the returns

from 568 precincts, dut of 1.872 in the state exclusive of Wayne county: ROOSEVELT 62-331

WILSON . . . 46.916 TAFT 43,783 On the earlier returns it appeared that Roosevelt would have not less than 100.000 over his nearest om-petitor, but as the counties whose population is more largely rural came in, his percentage of lead fell off, and Tart gained. With the same number of precincts heard from, Woodbridge N. Ferris leads for governor by slightly over 3,050. The figures are:

> FERRIS . . . 40.740 MUSSELMAN. 37.41 WATKINS 32,990

'f the rat o holds in the rest of the man ganed.

On account of the tremendously heavy vote cast, the great number of offices voted on, and the fact that there were three parties in the field, result Lindquist is a winner in the eleventh, but in the twelfth there is the Beet Joe" has pulled through victor in another thugh battle.
 The early returns are as a rule only on president and governor, though fragmentary returns on the suffrage amendment indicate that the vote on that proposition is very evenly divided. The returns on congressmen are very scattering. For congressman at-large what figures are at hand show Kelley and Frensdorf running neck and neck, with Hill, the Bull Moose candidate, third. In the second district Beakes, Dem., leads Wedemeyer, the present Re publican incumbent. In the third the election of Carney, Dem., over J. M. C. Smith is indicated. In the fiifth Edwin F. Sweet, present Democratic congressman, is being

given a hard race by Carl E. Mapes, Republicar. There is a possibility that Sam W. Smith, Rep., has been defeated in the sixth by Alva M. Cummins, Democrat, and in the seventh Cramton, Bell Mississippi's Majority 105 COC. and Sherman are all closely bunched. The Deriverate majority in Missis In the eighth, as was anticipated "Chandler, the Progressive, pulled enough votes away from Fordney to bring Purcell, Democrat, close up and it will take the full returns of the district to show whether or not "Sigar Bee Joe" has pulled hrough victor in another tough battle. Sears, Progressive, failed to make the snowing expected of him in the ninth, and McLaughlin has probably won. Too few returns are in from the tenth, the biggest district in the state. The progressive or buil moose party made a remarkable run and helped the democrats to win the race. In Michigan Roosevelt lead by a good majority but his followers lost.

For the first time in history passenger received news of the presidential, state Mrs. Wm. Heffer to Ann Arbor in their on steamships on the lakes and oceans and county elections by wireless tele. auto, Banday and visited Mr. & Mrs. graph. This is a great age. Fred Heusel.

the single exception of surveyor. They Mrs. Georgiana E. Myers of New York The democrate carried the county with had no candidate for that office and on October 6. Jerome Allen, republican was elected against Frank Savery, progressive.

The husiness man or firm who goes out of town for all printed stationery, has No, but they will do it every time.

The political campaign made little difference with business affairs this fall. the home of her parents, Mr. & Mrs People were busy, there was a constant Harvey Anthony where she passed away damand for laborers and men hed very this morning. little time to talk politics or listen to A. J. Waters was in Glinton last week others. The newspapers were used to reducate the people and the result was a better independent of the situation others. The newspapers were used to better understanding of the situation.

We have received a season ticket to the international live stock exposition to be held at the union stock yards, Chicago, and family this week. She has not been Nov. 30 to D-c. 7. The fat stock show bere in 11 years and has not seen her to one of the most interesting expositions, brother only once in 30 years. if the year and farmers attend it to get pointers on the best breed of cattle The Anthony, Theodore and Edward Staib, exposition seeks to encourage production of mure and better beef, pork Miller of Manchester and a large number and mutton.

From the reports this morolog the -Democrats appear to have pretty much jubi ant. If they indeed have the senate and house to back President Wilson there will be no reason for doing other then just as their platform provides. They

hard working men to carry out the important duties devolved upon the party. The tariff is going to be the hardest ing her tather, Mat D. Blosser for two problem. If they make a mistake the weeks, returned to Lansing Friday as her people will rise up and smite them as husband who was up north had come they amote the republicans this year.

Short Measures Being Used by Many People.

"The other day," said a well known lawyer this morning, " a couple of young fellows, sons or a wealthy farmer living just outside the city, came to the home of a man upon Madison street and want ed to sell him some potatoes. The price was 40 cents and the Madison street man finally agreed to take ten bushels of them. When the potatoes were delivered he didn't happen to be home bimself but his "The other day," said a well known wife was, and she noticed that the ten bushels looked rather skimpy. ". Are you sure that's ten bushels?'

she asked. "The boys assured her that it was Later when her husband came home the potatoes were measured and were found to be just a bushel and a half short both by weight and by dry measure. The man was indignant about it and came to see me. I wrote to the farmer and told him what had happened.

'You probably are not aware that your sons violated a city ordinance and rendered themselves liable to arrest b selling short measure,' I told him, ' But they did and I would advise you t come in as soon as possible and straighten this up.' "Well sir, he fell over himself getting

in here to settle. " Bat here's the point : There's a lot of short measure seiling going on here by people who probably don't know it's contrary to law. Every one of them could be arrested and prosecuted, and you can bet on it there will be some strests if the practice isn't stopped. The city council passed an ordinance last

spring making it illegal for anyone-and that includes farmers and grocery geepors and everyone else-to sell abort meas ure. A number of people had better h looking out a little gr there will be some | Manchester Enterprise ting doirg "-Ann Arbor News.

the tears that were ready to flow. The meeting then came to a close,

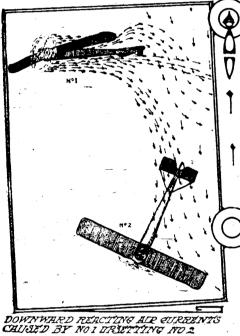

We wish to express our thanks t

HE ever growing number of human lives sacrificed to the advancement of aviation gives us ample reason for pause and serious hought. The toll so far paid is rapidly nearing a total of two hundred since the death of Lieutenant Selfridge, of the United States army, in September, 1908. Naturally, some of these fatal acidents were to be expected after flying became a money-making

apectacle in some directions. The professional aviator felt obliged to make his flights thrilling a the eyes of the spectator, and to that end he as done things of a venturesome nature for which he has paid dearly more than once. We are not concerned with this phase of the Foolhardiness is no real part of the effort advance human flight, even though attendant nishaps may teach useful lessons. What is of rious concern is the loss of life of those ear-

ly devoted to the furtherance of the science

and the adaptation of the flying machine to the eds of the army and the navy in time of war These officer students have gone into the work with that spirit of professional devotion which is of the utmost value to the promotion of helpful

nowledge, and they have generally avoided able only as an asset for the showman. These calm-minded devotees-The term usiasts might be mislcading-have earnestly striven to make the most out of the instruments

cent military maneuvers has exacted its doleful some of these many accidents utninating have been those it the participants.

On March 13 at Johannisthal, ju Berlin, a flying machine driven by Schade and all . If successful the nicest judgment is required an aeroplane handled by Rettinger came to on the part of the aviator lest he suddenly bring sector while in the air a short distance above pressure to bear upon his planes in excess of thousands of feet heavenward, and we have in the ground. The machines were instantly smash their reserve of strength. Collapse of this sort the ground the machines were instantly smash; their reserve of strength. Collapse of this sort ed and sent crashing to the earth. Neither of has happened with dire results upon a number of the aviators was injured, but a passenger was hurt. Unquestionably, this collision was brought about by the mutual effect of the disturbed air about by the mutual effect of the disturbed air er sense of the word, the term air hole is a misa kindred character occurged at Boual, France. Did you ever watch the surface agitation of a on June 19, but with disiatrous results. Captain boiling pot? Well, that is substantially a dupli-boiling pot? Well, that is substantially a dupli-te either stumbling into air balas thus created between the two machines. The next mishap of nomer, and a cavity as such does not really exist. Dubois and Lieutenant Meignan, both of the cation of just what is going on in the air about army, were operating scroplanes during a dense us. The earth acts like a great reflector of the construction of the cation of the structure operating scroplanes during a dense the structure operating scroplane structure scroplane structure operating scroplane structure scroplane scro tog, and drove into each other while going at sun's heat and starts the air boiling below here nearby fellow? Again, if the aviator is traveling against a stratum of wind of a definite speed and then purposely descends, reaching an air belt of lower duce the force of the air striking the surfaces of his planes, and this drop in pressure may speed or altered direction, these changes may reof his planes, and this drop in pressure may cause his machine to fall speedily earthward. who would straighten out my tangled This is another proof, of course, of the imaginary

the flying machine is quite distinct from that of the balloon. The balloon floats because it is either lighter than the air it displaces—when it rises-or remains at a fixed altitude because there is a perfect balance between its weight and that aloft whether drifting with the wind or being iriven by a motor. The heavier-than-air flying machine, on the other hand, is sustained in flight sufficient opposition on the part of the air to lift or to sustain it. When the propellers cease to revolve the aeroplane starts earthward, and disaster can be avoided only by volplaning or per-forming a sweeping spiral descent. A maneuver this sort is nothing more nor less than a modified drop. The safety of the aeroplane, perefore, when in midair, depends upon the nice balancing of the machine and the proper equalizng of pressure upon the planes. Eddies in the air or any other disturbance which will bring the aeroplane into conflicting atmospheric belts or zones will imperil the stability of the ma me courage, perhaps, to-to say some ching and the life of the aviator unless he be ever watchful, and there are somes of these conguard
