Nature was at work with very different tools.

carving even more interesting shapes in her mountains and rocks, and today she is still at Work adding to the collection.

When rambling about one winter in Corsica

I came across many striking examples of her handwork, remarkable not only for their quaint handiwork, remarkable not only for their forms, but as examples of a very peculiar process of weathering. In one district where, the rocks are principally gray granite, my daughter and I were attracted by the curious appearance the sky of some rocks sharply outlined against the sky on a lonely mountain top, so we started off to in-After a stiff climb through the "maquis," dur-

ing which the summit of the hill was hidden, we arrived at an open space and were almost startled as we found ourselves suddenly confronted by a ort of nondescript hippopotamus with a most evil leer in his eye, and who cocked his little ear as if to ask what right humans had on the en-chanted ground over which he stood sentry. For, deed, he was only an advance guard, as a little urther on a giant sea-lion reared up in indignation to a height of twenty feet with projectingtusks and threatening aspect, while just beyond stood a whole company of weird companions.

causing the weamering of rocks are rain, frost tious we certainly should not have stayed to investigate. As it was, we found the eye was the rocks photographed occurred the climate is formed by a hole wors right through the granite, comparatively dry and hot. There is little rain, with a projecting piece in the interior forming the eyeball, and as we moved our position the rain there is cannot to any extent gain access to the contract of the

on a higher rock, stood a dragon or pterodacty, while extended on the foreground was what The sight of this strange assembly; however, the attrace and the piggles, like the confer had given my daughter a very different idea. "had their houses in the rocks." More than once the daughter a very different idea. "had their houses in the rocks." More than once the daughter a very different idea. "had their houses in the rocks." More than once the other prevent the truth of the old we met with cases where a front of masonry had northern legislate, which tall how "warfa and been built onto a large cavern, with windows. northern agreems where the new sample, strong and all complete, and modern man had inter-protection crocks. Were Men Truly Wise.

What a beautiful picture it makes, this adoration of the wise men. Truly ECZEMA IN RED BLOTCHES

As this weathering action eats its way deeper, and approaches the surface of the men of the present day were equally shot about one-sixteenth of an inchereck at any point, threatening to wear a hole right through it, it meets with the hardened outside crust already described, and its progress becomes very much slower. This may happen not only because the crust the carries and the Gospel we find the first two the heaves the crust the carries and the Gospel of Jesus tried different eczema ointments but without results. I also took medi-

inst only because the crust is harder, but because the hirst the is harder through by the sun and so the formation of dew is checked.

Today the nations of the east are hearded through by the sun and so the formation of dew is checked.

The example of these outer the crusts remaining after the rock below has been gaten away is seen in photograph.

No, 6, and, of course, similar thin, crusts generally exist they also cover the crusts are very durable, still they also eventually crumble away.

It is ours to show them the guiding throughout the world. Sample of each with they also eventually crumble away.

It was not the production of the alimal forms of our first the production of the production of the alimal forms of our first the production of the production of the production of the production of the prod Henkel's Bread Flour,

Straighten That Lame Back!

Beckache is one of Nature's warnings of kidney weakness. Kidney disease kills thousands every year. Safety is only certain if the early warnings are heeded while help is possible. Doan's Kidney Pills have helped many thousands to get rid of backache, strengthen weak kidneys and regulate bladder and urinary disorders.

Don't neglect a bad back. If your back is lame in the morning, if it hurts to stoop or lift, if the dull aching keeps up all day, making work a burden and rest impossible—suspect the kid-neys. If the urine is off color and shows a sediment; if passages are irregular, too frequent, too scanty, or scalding, this is further proof There may be dizzy spells, headaches, nervousness, dropsy swellings, rheumatic attacks, and a general tired-out, run-down-

Use Doan's Kidney Pills, the remedy that is publicly recommended by 100,000 persons in many different lands. Doan's act quickly, contain no harmful nor habit-forming drugs and are

From Serious Dropey To Perfect Health George Davis, 524 S. 23rd St., Vincennes, Ind., says:
"My back sched day and night. I became nervous and irritable and had such headsches, I thought my head would burst. I could not work without terribbe dissy feelings and was afraid to venture far alone for fear of failing. For days at a time I could not uringts, and, finally when the passage did take place, the ador would be stifling. My feet and arms were swollen as twice their natural size. When I touched the swollen area, a dent would remain. I finally began using Doan's Kidney Pills and soon noticed a change for the better. The swelling in my limbs and arms went dows. better. The awelling in my limbs and arms went down, the disry spells left, and ere long I was in as good health as ever before in my life."

When your back hurts, when your hidness trouble gas, other you feel tired, work out or depressed, don't simply out for a hidness remedy ask distinctly for Doss's Ridness the same that cured Mr. Doots, and make sure the DOAN'S is on the box.

"When Your Back is Lame-Remember the Name"

NEWS FROM THE STATE CAPITOL

THE INITIATIVE, REFERENDUM AND RECALL WILL BRING ON A SHARP-SCRAP.

THE "HAVE ONE ON ME" MEAS URE PROVIDES FINES AND JAIL

The Work of the Solons Carries a Wide Range of Very Interesting Matters'to the Taxpavers

TBy Gurd M Haves I

There will be a big fight in the house this week when the resolutions relating to the constitutional amendments providing for the initiative, referendum and recall are reported out. There is every indication that Gov. Ferris, through his lieutenants in the house will take a hand in the scrap. The chief executive is not at all satisfled with the report of the house committee on revision and amendment of the constitution which fixed the maximum of signers on initiatory petitions at 20 per cent. The governor is of the opinion that it should not be more than ten per cent and should possibly go as low as eight per cent. From present indications if is evident that the friends of the measure will have considerable trouble in reducing the figures of the committee.

Although opponents of the Middleton antitreating bill made an effort to defeat the measure by foolish amendments, it was agreed to by the house and ordered placed on third reading. The bill not only probibits treating in saloons and barrooms but makes it the duty of the bartenders and proprietors to refuse drinks to those seeking to treat friends. The bill provides a penalty of a fine of from | with the pure leather provision. \$10 to \$50 for the first offense: \$50 or 90 days in jail-for the second offense, and for the third offense the license of the saloon in which the have one on me" ceremony takes place, can be cancelled.

Among the amendments offered was one to include the treating with cigars, chewing gum and soda water, and another was submitted requiring or elsewhere. However, these amendments received but scant-attention.

The bill requiring cup vending devices or other apparatus-to furnish drinking cups at a cent each in all public places and railroad cars, where drinking fountains are not established, has been agreed to by the house committee of the whole. The Clark bill cial fishing in the waters of the lakes surrounding Michigan was agreed to, as well as the James bill which requires that candidates be furnished with a proof copy of the election ballots before they are printed.

Rep. Hinkley, chairman of the way: and means committee of the house. has introduced the general purpose appropriation bill to provide for the general expense of the state government, salaries, the legislature, etc. The total is \$1,788,570 as compared with \$3.223,000 two years ago, when a milion was added to clear up the defelency. At that the total is \$500, 000 less.

There was no opposition in the senste to the Murtha bill to establish a may furnish school books free; but uniform system of probation. This measure had the support of all the though supplemental books not apphilanthropic societies of the state proved by the commission may be and is characterized as a measure in the interests of the moral betterment of Michigan's young folk.

Included in the measure is the north vision of the payment of a living wage ta the probation officers in order that the high grade officer can afford to engage in the work. Under the existing law probation officers received \$2 per day. Under the bill they may be paid \$1,200 per annum. There was no discussion on the measure and no negative vote.

The Grand Marais road bill was passed by the committee of the whole and the resolution to amend the contution in order to provide for verdicts by two-thirds vote of juries was also agreed to. The Jensen inheritance tax bill and the Montieth bill providing for a lien on grain were taken up in the senate committee of the whole and speedily agreed to.

It is apparent that the bill of Rep. Odell which passed the house requiring the sterilization of epileptics and certain classes of insane persons, is going to have rough sledding in the in the senate strenuous objection was raised by Senator Fitzgibbon and after a debate the bill was made a spe- Huron; Hanley, Murtha and George G. cial order for March 11. The salary of the state highway commissioner will remain at \$2,500 per year for the present at least as the house turned a deaf ear to the proposal of Rep. Fralick that the yearlystipend of the highway commissioner be increased to \$3,000. Rep. Fralick says the request came from Deputy Highway Commissioner Frank Rogers who was nominated as a candidate for state highway commissioner at the republican state convention held re-

Rev. Nank announced in loud tones that all political parties have held their conventions and that nomingtions for the office of state highway commissioner have been accepted without any complaint as to the salary, in view of which he remarked that he guessed the state would secure a commissioner without raising the salary.

It came as a severe shock to the members of the senate committee on state affairs to learn that 99 per cent of all shoes which retail for less than \$5 and \$6 contain substitutes for leather and would be affected by a measure requiring the labeling of all footwear in which substitutes for leather are used. And yet this information was brought out when a numberof shoe manufacturers appeared before the committee in opposition to Senator Woodworth's bill

The shoe manufacturers insist that the so-called 'horn fiber" counters are superior to leather and fiber boxes in the toes of the cheaper grades will outwear cheap leather and are not susceptible to water. They claim substitute inner soles are just as good and by their use better grade leather may be used in the outer sole. They claim it is better to use fiber substi tute in building up heels in cheap

They argue that although a leather shoe can be made cheep, it will not compare with the article containing scientific substitutes and that any hing marked as containing imitations of substitutes would be ignored by the buying public in spite of the fact that it would be a much better wearing shoe than a cheap design complying

The house committee on education reported out a uniform text book bill known as the Durm-Young bill, which provides for establishing the uniform text book system in Michigan and making it compulsory on every district, except that districts may purchase the books prescribed and furnish them free to publis. This action is that the bill cover treating in homes in direct contraventien to the wishes of a majority of the school boards of the state, their request being that cities having or establishing the free text book system, be exempted from the provisions of the bill.

A majority of the committee was not in favor of this exemption, however, a bitter fight will be made on the floor over this question and will be renewed in the senate if necessary. Rumors of revising the laws relative to commer book question have been current since the first day of the-session, but no definite hint of what is being done along this line has developed. Representatives of book companies are here and a mass of literature has been distributed among members at the ex-

pense of some one. The substitute bill provides for a text book commission consisting of the governor, superintendent of public instruction, president of the agricultural college and two members to be appointed by the governor. This commission will select the so-called "basil" books" which must be sold at 70 per at present for those books. The sys-School boards of districts or cities a sinking fund, and to elminate the paper man, has been appointed to a deficit, which is slowly growing. must purchase the basil books

added. If onesed the bill will take

fect Sept. 1. 1914.

Although considerable opposition de veloped to the Odell bill providing that the dairy and food commissioner may combine the various funds approprieted for his department into one pot for use he considers in the best interests of the state, the house passed the measure by a vote of 53 to 34. It is explained that under the existing laws the commissioner often finds the fund for some particular department work exhausted, with the work uncompleted, while sucther department fund is plethoric with money for which there is no use. The bill has passed the senate and is now up to Governor Ferris for approval or veto, and it is expected that the bill will receive the seal of approval from the chief executive.

By a vote of 26 to 5 the senate passed the concurrent resolution providing for the submission of the equal suffrage amendment at the spring election Senator Winegar, of Iron senate. When the bill was discussed Mountain, was the only progressive in the upper house to vote against the resolution. Senator Fitzgibbon, of Port Scott, of Detroit, cast negative votes.

The resolution was amended ed the Odell measure, but a concerted foreign born women will not be eligiin the state for a period of five years

SUFFRAGE PAGEANT ASSAILEB

Howling Mob of 5,000 Hoodlyms Hold Up Paradé in Washington.

- Five thousand women, marching in the women suffrage pageant in the inauguration parade in Washington, practically fought their way foot by foot up Pennsylvania avenue through surging mob that completely defied the Washington police, swamped the marchers and broke their procession into little companies. The women, trudging stoutly along under great difficulties, were able to com plete their march only when troops of cavalry from Fort Myer were rushed into Washington to take charge of Pennsylvania avenue. No inauguration has ever produced such scenes, which in many instances amounted to nothing less than riots.

Later, in Continental hall, the women turned what was to have been a suffrage demonstration into an indignation meeting in which the Washington police were roundly denounced for their inactivity and resolutions were passed calling on President. Wilson and the incoming congress to make an investigation and locate responsibility for the indignities the marchers suffered. Miss Helen Keller, the noted deaf and dumb girl; was so exhausted and unnerved by the experience in attempting to reach a grandstand where she was to have been a guest of honor that she was mable to speak later at Continental hall.

COAL MEN MULCT PUBLIC\$10,000,000

WAGE INCREASES FOR 1912 TO-TALED \$4,000,000, BUT CON-SUMERS PAID \$13,450,000.

SOME SALES WERE MADE AT BIG PREMIUMS.

Operators, Dealers and Miners All Gained. But Consumers Paid Higher Prices Without Compensation.

Hard coal companies increased the Wages of their employes \$4,000,000 a year by the strike agreement of last May and increased the price of anthracite to consumers \$13,450,000, according to a report based on an investigation by the bureau of labor submitted to the house.

The report submitted by Secretary Nagel is the result of an investigation conducted in response to a house resolution asking for the "elements of cost and profit included in the present high price of anthracite." An average increase of 26 cents a ton in wholesale coal prices was discovered to have been made since the strike agreement of last May.

In spite of the fact that the workers benefited about \$4,000,000 in increased wages during the year, the report adds that "the recent in-creases in prices have been more than sufficient to compensate fully those companies whose costs of production have increased more rapidly during recent years, and at the same time have very greatly increased the profits of those companies, of whom there are several whose costs of production either decreased or remained stationary during the same period."

U. S .Troops Kills Mexicans in Border Battle.

For nearly half an hour in Douglas, Ariz., a force of 60 Mexican soldiers engaged 16 United States troopers of the Ninth cavalry under Liuet. Michaelson, on the iternational boundary line, until probably six of the Mexicans had been killed, several wounded and troops E and F of the Ninth cavalry arrived to reinforce the handful of Americans.

Reports of the casualties differ, some running as high as six Mexicans killed and others giving only four as the definite number of dead. City officials of Douglas in communi cation with state officials in Phoenix immediately after the fight declared the negro troopers had killed six of their opponents, and urged the state department to use every effort to protect the lives of Americans on this side of the border.

Mexico Warned Not to Kill Hostile Leaders.

A warning has been served on the Mexican government that the wholesale execution of anti-government leaders will not be tolerated

The warning which was friendly in tone and couched in diplomatic language made plain the principle of the state department that the United States does not wish to interfere in the affairs of another nation. At the same time, however, it was pointed out that the laws of humanity must be

Hnerta and the cabinet.

Turks Are Ready for Peace Pact.

The Turkish government definitely abandoned its prohibitive stipulations in connection with peace and placed the Ottoman cause aureservedly in the hands of the European yowers, with a request to conclude peace as advant ageously as possible for Turkish inter-

Unless, as has been the case before, Turkey changes her mind before terms can be concluded, it is believed her direct peace negotiations will be resumed speedily, with every prospect of an early settlement.

All unimproved church property in Muskegon will be taxed following a decision of the city counci

To insure the residents of Hastings a square deal in weights of coal, hay and other commodities sold by weight in large qualities in Hastings, citizens are liberally signing a petition asking the city council to establish a municipal acale.

Charles B. Cook, a prominent farmer, of Bennington township, has been chosen as farm expert for Allegan county, and will begin his work next veek.

J. F. Burke, of Detroit, superintendof the State Anti-Saloon league, told a conference of Protestant minis in Grand Rapids that March 16 will be prohibition day in all state churches. The ministers passed resolutions indorsing the Catholic federation in its efforts to shut up Rent county clubs where liquor is sold without pro per license.

Suit has been begun by the Rogers fron Manufacturing Co., in Muskegon, against Mrs. Esther Rand, daughter of the late William F. Chrystal and ad ministratrix of his estate, for an accounting. For 30 years Chrystal was secretary of the company, and it is alleged that by false entries during that time he defrauded the company out of about \$20,000.

In a determined effort to stamp out the drunk habit, Chief of Police Strobel, of Jackson, has issued orders to send to lonin every man whose per record will permit it.

Edible Mud Turtles. Hundreds of pounds of mud turtles

are shipped from Chicago to Philadelphia, where they are placed on the market as ocean terrapin. So fine and highly flavored is the flesh of these turtles that a great market has been opened for them in the east, where even a connoisseur of ocean turtle can not distinguish them from the real article. The variety of turtle shipped is the diamond-back, about the gamiest and best-known fighter of the mud turtle family. The diamond-back turtle brings the shipper from \$3 to \$5 acording to his size, and they range in weight from 30 to 50

Tobacco of Kavala.

One result of the war has been a slump in Turkish cigarettes, not, it is said, because they are scarce, but ecause all things Turkish are out of favor. But all Turkish tobacco does not go under its own name. The best tobacco in the world is grown on the plains of Kavala, but you would ask in vain for Kavala leaf or eigarette. The whole annual crop, valued at about £1.000.000, is shipped to Egypt, which does not grow an ounce of the weed itself, and there made up into into "Egyptian" cigarettes.-London Chronicle.

Too Cold to Freeze in Comfort. Weeks was a queer genius and was always telling his friends that he would put an end to himself. One exceedingly cold night he vowed he would go out and freeze to death. About midnight he returned, shivering and snapping his fingers. "Why don't you freeze?" inquired an affectionate relative. "Well, by Jove," replied the pseudo-suicide, "when I freeze I mean to take a warmer night than this for it!"---Biff.

World's Largest Telescope.

The largest telescope in South America is to be set up at Cordova Argentina, by the government of that republic. The telescope, which will be constructed in Cambridge, Mass., is expected to extend the researches in the southern heavens, begun many years ago at Gape Town by Sir John Y. W. Herschell. The refractor will have an object glass of 610 millime ters of 24 inches.

Musical Criticism in Kansas. The New York Male quartette was here Monday night and put on the third number of the lecture course. It was the bummest entertainment the neonle of our little town had ever had to put up with for a long time and we hope they never are billed for this place again.—Cedar Point Cor respondence Florence Bulletin.

Eyes Crossed, \$2,000 Damages, Mrs. Elizabeth Galbraith of Philadelphia was awarded a verdict of \$2. 000 by a jury because a brewery truck had knocked her down, fractured her skull and caused her to become permanently cross-eyed.

Por Sale-House and lot just opposite Douglas Baidwin's residence on Macomb Street, also that beautiful building lot with four rods frontage on Jackson Street just west of Martin Traubla residence-Will be on sale but a short time. Inquire of Steinkohl & Son Company, 606 Prudden Block, Lansing Michigan, or A. A. PROWERD:

Mrs, Jeseph Lowery placed an order for a large monument with The Carey Monument Works, to be erected this spring. The frin is yesy hory for this time of the year. Mr. Orr of Bay Oity in the new letterer. Ae comes, well reccommended and with over 20 years experience in the monument business. It was necessary for the firm to sign the agreement of the Granite Cutters Union to recore Mr. Orr. This from policy of a Equare Deal and the heet class of work, is keeping their books well filled with orders without soliciting.
