CALIFORNIA LEGISLATORS RE-PORTED AGREED TO EXEMPT ALL OTHER FOREIGNERS.

EXPECT GOVERNOR TO SIGN

Stated in Tokyo That No Responsible Nipponese Citizen Dreams There Will Be a War-President Wilson Wants No Discrimination.

Sacramento, Cal., April 22.-It was said here by administration leaders in the legislature that a definite agreement to enact an anti-alien land law directed solely against the Jap anese and exempting all foreigners "eligible to citizenship in the United States" has been reached and would Be carried out this week. It is asserted the amendments will be offered by Senator Birdsall.

Governor Johnson Said to Approve. It is understood the course outlined has the approval of Gov. Hiram W Johnson and that he will sign the bill immediately upon its passage. Wheth er such a law would be constitutional will remain in doubt until it is tested in the federal courts, but it is the settled policy of the majority party in the legislature to regard the state as having full rights in the matter until determined otherwise by judicial decision.

The new draft will be offered as a substitute for the Thompson-Birdsall bill in the senate, where it will first come to a vote. It is said that the danger of irreparable loss to the state through frightening away European capital, coupled with the fact that no matter what the form of the measure, the Japanese would know it was aimed at them, caused the legislative committee to decide on a bill frank-

ly intended to affect only Asiatics. The announcement from Tokyo that Japan already had withdrawn her support from the Panama-Pacific exposition in San Francisco is said to have

Japan Not Dreaming of War. Tokyo, Japan, April 22.—The chagrin; disappointment and wounded pride of Japan, which last week were vented in angry militant talk by irresponsible people, have become some what modified. The entire Japanese nation now awaits with intense and evident anxiety the outcome of the deliberations in reference to the California alien land holding bill at Sacramento. The government and commercial forces of Japan are using their utmost exertions in endeavoring to

restrain unthinking agitators here They point out that the real influences in Japan rely confidently on the highest thought and the highest influences in the United States. At the same time they assert there is not a single responsible person in either country who even dreams of war.

Try to Embarrass Government. It is becoming increasingly evident that the agitation in Japan is largely inspired by a small political group seeking to embarrass the Japanese government and putting forward the American land question to arouse naago, and named Faith, Hope and Chart tional feeling and hide its real pur house majority.
