LARGE AWARD FOR LOSS OF HANDS

INDUSTRIAL ACCIDENT BOARD GIVES SYRIAN LIMIT OF THE LAW.

NEW RULING REGARDING THE PLACE OF HEARINGS.

Public Buildings Are More Suitable Than Offices of Employers Where Workman Is at Disadvantage.

The state industrial accident board in session at Lansing, gives out the information that hereafter all arbitration meetings of the board between employers and employes will be held in court houses or other public buildings wherever possible. In Detroit all cases will be heard in the county building. In the past meetings have many times been held in the office of the employer and the board is of the impression that it places the employe at a disadvantage.

Joseph Lahm, a Syrian, who was recently injured in Grand Rapids by having both hands cut off in a machine which he was working on, was allowed compensation for 500 weeks, the full allowance under the law. This will entitle him to \$2,875, and his friends in the furniture city have increased the amount to \$3,000. Lahm will sail for his home country, where he will join his wife and children.

New School for Traverse City.

Plans were put under way for the establishment of an educational institute in Traverse City, which will involve the expenditure of \$50,000, and within a few hours \$20,000 was subscribed by business men. Business, horticulture and agriculture will be the lines taught at first and other branches will be added. Plans for the building call for a capacity of 600 students, while an experiment farm will be provided near the city limits. A local business college will be merged with the new institution.

Only Resident Ministers May Marry.

Attorney General Grant Fellows has ruled that marriages must be performed by ministers and others competent to act, who are legal residents of the state and that persons imported for the purpose must acquire residence before officiating. Fellows jokingly declared that he believes in a high protective tariff and declares that the law might be amended so that "foreign" preachers could officiate in case the "consumer" is willing to pay a good-sized import tax.

State Officer is Accused.

Frank C. Jordan, secretary of state of California, is charged with malfeasance in office by the joint legislative committee which recently investigated charges in his department. In its report to the legislature the committee recommended that the case be turned over to the attorney general. The collection of \$7,700, all of which he kept, it is said, for copies of automobile registrations furnished to insurance companies and others during the time Jordan has been head of the department, is the basis of the finding against him.

Inspection Dates Are Changed.

Orders have been received by the state militia department requiring the completion of the inspection of the Michigan national guard by the army inspectors by June 1. It has been necessary to change the dates of inspection for the upper peninsula companies and some of those in the lower peninsula, as the original inspection schedule carried the dates into June. An additional officer has been detailed to assist in the inspection and the companies affected are being notified.

CALIFORNIA HAS MANY NEW LAWS

LEGISLATURE ADJOURNS WITH RECORD FOR PROGRESSIVE MEASURE.

POLICIES OF GOV. JOHNSON ARE VICTORIOUS.

Prominent Among Acts Are Teachers' Pensions and Aid for Discharged Convicts' Wages to Be Paid to Convicts.

The fortieth California legislature has adjourned with a practically unbroken record of victory for the progressive majority in the carrying out of the administration policies outlined by Gov. Hiram W. Johnson.

There was a union of progressive republicans and moosers to put the program through. Among paternal legislation, the teachers' pension act and that providing aid for discharged convicts stand out. The latter also provides that wages shall be paid to convicts during their incarceration. Courts are restricted from fixing the term of a sentence for any crime except murder.

State Auditor Fuller Revises Estimate of State Tax—Auto Revenue Will Yield Millions

Auditor General Fuller says that the state tax for this year may reach \$9,000,000, if he keeps on finding bills carrying appropriations. Since he gave out the figures a few days ago, on which he estimated the tax for this year at \$8,300,000, he has figures which indicate a state tax of at least \$9,000,000, and has not all the appropriation bills figured in at that. He also has discovered that the legislature appropriated over \$800,000 for the state highway department, in several bills. With the automobile horse power tax the department will probably receive over \$1,000,000 in 1914.

MEXICAN TREATY HINGES ON RECOGNITION.

United States and Great Britain Have Already Renewed Treaty Which Terminates on June 4.

Special arbitration treaties between the United States and seven other countries, which expire by limitation this year, will be renewed by the state department if the foreign governments are willing. GREAT ANT-FLY CRUSADE BEGINS

THE greatest ant-fly crusade that the world has known is now getting under way in a multitude of American cities and smaller communities. The crusade is being led by the health departments of the cities and by the health officers of the health departments.

During recent years physicians, bacteriologists, sanitary engineers, and other concerned authorities have been tracing in many cases directly into sick rooms, as well as to markets and fruit stores, the means by which the flies spread disease and death.

Little by little the government has become acquainted with the danger, and now health departments are undertaking systematic and complete extermination of the insect.

Not merely typhoid, but other highly dangerous intestinal diseases are now known to be spread by flies and germs of typhoid, cholera, diphtheria, infantile paralysis, and other diseases.

Virginia's state board of health has issued at least three bulletins and circulars devoted wholly or in part to the subject of the dangers of flies.

The Ohio state board of health has also been busy in the matter of the dangers of flies. It has issued a circular which is an important quarterly document on "The Ant-Flies Crusade."

South Carolina, Texas, and almost all the other states in the Union have done their utmost to educate the public on the dangers of flies.

Miss Ellen Terry admits she is prejudiced, and incidentally gives her reasons for it. Miss Ellen Terry has written a charming book on "The Russian Ballet."

NOTES FROM MEADOWBROOK FARM

Live stock means success. Checks need much attention. Make paths and borders neat. Tankage is recommended for cows.

Head work will often save hard work on the farm. All the various breeds of hogs have their ardent admirers. Oats and peas will provide a good growing ration for hogs.

During the summer months, the ewes should have access to luxuriant pasture. If you can't afford to buy a pure bred cow or bull, buy a calf and breed up a herd.

There is just as much need of improved dairymen as there is of improved herds. When in doubt as to what use to make of the manure, try it as a top dressing on grass.

Success in dairy farming depends as much on the man as upon any natural condition. In planting a new orchard it is far better to use too much space than to crowd the trees.

Many of the good dairymen start with Shorthorn and dual-purpose cows. As soon as they began to study, however, they changed.

Prune a little every year rather than too much every year. It will be better to prune a tree to carry with it a few buds than to carry with it no buds.

Exercise is necessary both for man and beast, but it does not mean that the horse should be worked hard. It is especially bad policy to arrange the house so that the wife must take a long walk to the kitchen.

FATHER EVER NEAR

In All Ages It Has Been Demonstrated, but Many Still Are Slow of Faith.

This is an age of marvels; we accept without any debate the wonders of the air, the airship, wireless telegraph and countless other new things, and we are ready for the new and ever more wonderful as yet many hesitate about the spiritual wireless that commences with God.

It is not that the members of his traveling party hesitated that he was persecuted, but that he was persecuted because he was persecuted.

God still speaks to men. His voice is understood. This is the age when the voice of God is heard in the world.

His machinery is not always visible. The machine should fit the man and the power to handle it.

One good cow well fed and cared for will give more profit than two good cows not so well fed and cared for.
