PRATICAL INSTRUCTION IN HIGH WAY CONSTRUCTION AT U. OF M.

DEBATES ARE WON AND LOST

Michigan Affirmative Team Wins Decision at Home While Negative Team Loses in Contest at , Evanston.

Ann Arbor.—The announcements are off the press for the new short course in highway engineering, which is to be held at the University of Michigan Feb. 15 to 20, inclusive.

The course is open to all highway engineers or officials in this and adjoining states, and is free. Already many have said they will come.

The purpose of the course is to aid in supplying that information to highway engineers and to highway commissioners, relating to the coustruc tion and maintenance of country roads that is so much in demand, and so

Practical instruction will be given, aimed to obtain uniform, up-to-date practice and the construction of roads and bridges of a higher degree of utility and permanence at a reason able cost

Michigan Wins and Loses. Michigan won Friday night from

Chicago, in the seventeenth annual series of central league debates, the winning team securing two of the three votes cast. Of the 17 debates with Chicago, in this league, Michigan has won 11.

The question debated was, "Resolved, that the Monroe doctrine, as developed and applied by the United States, should be ahandoned as a part of our foreign policy." the Michigan team taking the affirmative.

Michigan's negative team, debating the same question with a team from Northwestern university, lost unanimously at Evanston, Ill., the same night. This is the third time in the history of the league that Michigan has lost by a unanimous decision.

FIRST GRANDCHILD ANTI-JAP BILL TO BE INTRODUCED

MICHIGAN ASKED TO PASS LAW DUPLICATING CALIFORNIA MEASURE.

CAUSED BY "YELLOW PERIL"

Rep. Oakley of Bay City Said to Have Bill Ready to Prevent Orientals From Holding Land in State.

Lansing-Michigan may find herself involved in international complications, if a bill fostered by the Michigan Federation of Labor and to be introduced in the legislature by Rep. Marshall A. Oakley, of Bay City, head of the house labor committee, is enacted into law.

The bill in question is none other than the California anti-alien land law which stirred up "war talk," seriously perplexed state department officials at Washington, and for a time threatened to cause serious trouble between United States and Japan.

Rep. Oakley's measure is an exact duplicate of the California statute, except that the word "Michigan" is inserted in place of "California."

The "gentleman from Bay" declares that his bill is the outgrowth of the recent "yellow peril" scare in Michigan, which followed the announce ment that an enterprising Chicago real estate firm proposed to colonize 300 Japs on a tract of several thousand acres of semi marsh land in Al ger and Schoolcraft counties, in the upper peninsula. Serious agitation against the plan on the part of residents of the districts involved resulted in a cancellation of the project, a least temporarily, and the Japs were

never brought into the state. Oakley's hill will provide that allens not eligible to citizenship in the Uni ted States may not own, lease, inherit, acquire or transfer land in Michigan unless there is a direct treaty between the United States and the country in question, especially granting to these aliens the right to acquire real prop

Chinese and Japanese subjects are the only aliens who cannot become eitizens of the United States, and there are no treaties between the United States and these countries which provide for the holding of land, hence the bill, if it becomes a law. will make it impossible for a subject of either Japan or China to buy, lease, inherit or transfer real property of any kind,

Direct request for the introduction of such a bill came from officials of the Michigan Federation of Labor, Oakley said Monday. The federation leaders believe, according to Oakley that the Japs, driven out of Californi by the action of the law there, are laboring men.
