#### A WIDELY POPULAR AUTHOR

George Barr McCutcheon Has Written Many Successes Since His Big Maiden Effort

Few authors have stepped as quickly into great popularity as did George Barr McCutcheon, the author of our new serial, "Black Is White," and very few have retained it in such undim-

A facile writer and a born story teller, McCutcheon wanted to emulate the examples of his brothers, John, the celebrated cartoonist, and Ben, an editor, and that of George Ade, intimate friend of the family, but his excessive modesty held him back, and for a time he did not attempt anything. Finally he wrote "Graustark," but underrating

his effort he did not try to find a publisher. His brothers, however, and George Ade, instantly recognized the worth of the manuscript, and having induced the author to submit it for publication they had the satisfaction of bringing out of obscurity one of the iterary successes of the year.

The successes of the several stories that followed is common knowledge to every lover of good fiction. "Brewster's Millions" is another of his big winners, and "The Hollow of Her Hand" has also met with wide popular ity. Today the name of McCutcheon attached to a story is all that is neces sary to assure its quality and secure a reading from those who appreciate and enjoy good fiction.

rantee Fund to Be Maintained By State Banks Under Supervision of State Bank Commisisoner.

Lansing-A proposal for guarantee of bank deposits, fostered by Rep. L. J. Wolcott of Albion, and backed by the state grange, promises to be one of the real live issues before the present Michigan legislature. Defeated in an atempt to get through a similar measure two years ago, Wolcott is determined to make a serious fight to gain aproval for his bill by the 1915

Wolcott's bill is drafted after laws Kansas, Nebraska and South Dakota.

The bill provides that all state banks electing to come under the Michigan guarantee system shall deposit and maintain with the banking commissioner, United States bonds, Michigan state bonds, bonds of any county, township, school district, board of Michigan, to the amount of \$500 for every \$100,000, or fraction thereof of the bank's average deposits, minus the capital and surplus as shown by the last published statement.

Following the deposit of this initial uarantee fund, which shall be maintained at all times under the supervision of the state banking commissioners, annual assesments, of one twentieth of 1 per cent of the average guaranteed deposits, less capital and surplus, shall be levied in January and July of each year. These asses ments shall be continued until the cash fund for the guarastee of deposits shall be approximately \$300,-000 over and above cash deposits

In case of failure of any state bank this fund shall be available to pay off depositors.

According to the report of the state banking commissioner there were, in Michigan, on December 31, 1914, 461 state banks with average deposits of \$420,965,185,70 and a total number of depositors of 1,215,701.
