RUSSIA TO DOMINATE WORLD Scotch Scientist Sees Wonderful Fi ture for the "Colossus of the Snows."

"The twentieth century," sa Charles Sarolea, in Everyman e the century of the Russian . M Sarolea is professor with the term to guages in the University of Ediaburgs te has traveled in Russia and made special study of its languages and it peoples. He says: "Notwhnstanding war and famine, plague and discaevery year 2,000,000 of souls are add ed to the Russian empire. Every year housands of square miles are opened to agriculture and industry. Moral an intellectual progress have been enormous. Fifty years ago 99 per cent of the people were still steeped in gros ignorance, 90 per cent were still liv ing in a state of seridom. The ukas Alexander II accomplished with a stroke of the pen what it took western nations 1,000 years of Christianity an f revolution to achieve. Today, less than two generations after the emand ation, Russia is taking a leading part in many of the arts of peace, in many of the higher activities of man. She has given a Verestchagin to painting, Mendelieff to science, a Tschaikowsky to music, a Solovief to philosophy; ture an immortal band of masters of language, who have brought us a fresh

TVER since the doors of this store opened, its founder has tried to live up to the spirit as well as the letter of the word "Progress." What is back of us largely determines what is ahead. Back of this business, back of all it is or ever hopes to be, is a reputation for keeping its promises with the public and giving the customers all-around satisfaction on the ground of efficient and economical service.

Larger sales demand larger ideas, and in their development new plans for the betterment of the store unfold here constantly. To devise ways and means whereby the greater volume of business can be handled to the wider satisfaction of the customer is our constant thought, for as the customers' satisfaction broadens, so broadens the store's helpfulness."

Striving ever to give our public a worthy store, equipped for better service, for making shopping more a pleasure and less a tax, the present improvements and enlargements on our second

But these do not complete our plans. The last word in improvement is never spoken here—we are never satisfied—there is always sometheng to be accomplished and higher ideals to reach. Our best recommendation is the record behind us and on it we build for the future.

The Wheat Yield

Tells the Story

of Western Canada's Rapid Progress

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known ate reported for the period up to October 15th, upwards of four and a quarrer million bushels being experted in less than six weeks, and this was but the overflow of shipments to Montreal, through which exist shipments were much larger than to New York.

Purebred hogs receiving scant care and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country, while yields of 45 bushels per acre are common. a close pen without proper ventilation M. V. McKIKKIS Vetch sowed with rve makes a good

Some governments, while allowing the local authorities to ax prices on most things, issued decrees applicable to their visible territory concerning a few highly important articles. Thus Austria and Germany both prescribed the proportion of wheat or rye flour that should be used in making bread Later both Austria and Germany fixed the wholesale price of cereals, and brought the distribution and consumption of flour and bread under strict

Turkey fixed prices for petroleum, sugar, and flour. In Italy salt, tobacco and matches are government monopolies, so that their prices were fixed by the central authority. Denmark, Hol-land and Switzerland limited themselves to controlling the most important breadstuffs of each country.

Neutrality in Saloniki. A correspondent of the London Daily Sketch gives a description of Saloniki, which he pictures as a town of odd contrasts in these days in which Greek neutrality is on the edge of the boil-Turkish consuls lunch together every day in a restaurant surrounded by scores of British and French officers Every Friday the Ottoman consulate flaunts the standard of the Crescent in the teeth of the entente battleships, which look on with complete indifference. Restaurants, cafes and hotels are, of course, making undreamt-of profits. In the gulf, within sight of the quay, lies a heterogeneous fleet of ships of all the allied powers, with a great throng of transports, hospital ships, supply ships, tugs, lighters, reproducing afloat the medley that prevails ashore."

"Girls" at Age of Thirty-Five. Cheer up, spinsters. You are still young even if you're thirty-five and melancholy. Shake the latter feeling and laugh youthfully, for the members of the Brick Presbyterian church have solved the age problem for "girls," Yes, it's true, says a New York corespondent of the Pittsburgh Dispatch. You are still a girl at thirty-five. This is the age limit they set for admisson of boarders to the new William A. Barbour Memorial dormitory for self. Fred, Martha, Lillian and George Buis, supporting young (notice the "young") women. The age limit to the member ship is one of the new laws said down for the management of the new home. The building will be seven stories high and will accommodate 120 young March 5, at 10:30 o'clock sun time.

#### SCHOOL NEWS

The heights of great men reached and kept. Were not attained by sudden flight; But they, while their companions slept Were toiling upward in the night.

## **OUR PUBLIC FORUM**

Peter Radford ON ADVERTISE IT IN AMERICA.

ested in its material development, I want to sid my approval to the "Buy It in America" movement. Commercial patriotism and business pride are the foundation stones of success in industry and no country can become supreme in commerce and trade unless it fosters a spirit of friendship and partiality for its own products and institutions. It is the spirit of the hive that makes the wheels of industry turn and each community should be a progressive unit in our industrial universe. All things being equal the farmer should patronize the local merchant, who is always a good citizen, a heavy taxpayer and friend of the farmer. The farmer sends shiploads of raw material to foreign markets and factories that meet on their way vessels laden with finished and foreign

But as a farmer and friend of the manufacturer and merchant I want to jobber may blow loud blasts on the horn of patriotism but if they will put an "ad" in the newspapers in their trade territors. an "ad" in the newspapers in their trade territory, making a business presentation of their goods, they will find it far more effective than waving the Star-Spangled Banner. The farmer fit as much interested in the price of the things he has to buy as in the price of the things he has for sale and the advertising columns of his newspaper are his price list. The price is the thing and the farmer wants the figures in cold type. The politicians give him all the patriotic buncombe he cares for. Business enterprise is a far more suggestful salesman than business patriotism. trade territory, making a business pro

grown products coming to America. Any effort to minimize this ed

There are many most worthy organizations working to promote commerce and trade but we seldom find organized effort to promote the press, yet it is recognized as the most powerful agency for progress the world has ever produced. We have all sorts of days calculated to promote business and honor industry such as Trades Days, Bargain Days, Labor Days, etc.; why not have a press day and all business concerns advertise the things they have to sell and everybody subscribe for the local paper and all delinquents pay a year in advance? There is nothing so elevating in civilization as the smile

of an editor and nething will contribute more toward the welfare of a community than the prosperity of the press. \ The farmer is a friend and patron of the rewspapers. He subscribes for the local paper and reads every line in it and it is the best investment he can make. There is no news so valuable as store news; no information so interesting as market demands; no tragedy so entertaining as the rise and fall of prices and no page more closely studied by the farmers than the tising columns of the press.

## You Can Be Free

from kidney and bladder trouble, rheumatism, stiff joints, and muscles, old age or tired feelings, throat, stomach and bowel troubles by its use, or money refunded.

the greatest rectifier for the blood and skin yet known of the greatest rectifier for the blood and skin yet known, Greasy skin with pimples, blothes, eruptions or scrofula easily cleared away. Its use leaves the blood and skin as pure as the lilies. SAN-YAK for the stomach, nerves and blood is the best the world ever saw. SAN-YAK prevents the excessive flow of poison-fluid into the blood from the super renal glands near the kidneys, causing the arteries to harden in the years past 50. This preventative keeps the arteries soft and flexible, giving flexibility to the muscles as in youth.

You can feel well and active at any age from 60 to 90 Man should die from old age, not from diseased tissue Mothers and daughters can avoid many dangerous operations by the use of this wonderful medicine The use of SAN YAK for pain in the back and abdomen greatly lessens the danger of appendicitis. \$1.00 per bottle. SNOWMAN.

A large party of friends of Mr. & Mrs Ernest Smith surprised them at their home on Beaufort street Saturday evening, as a demonstration of friendship on their departure for their farm in Sharon. the date also being Mrs. Smith's birthday. Misses Viola Dietle and Myrtle Renau and Mahlon and Francis Smith entertained with piano, violin, trombone and cornet and eleven tables of cards were played, at which Raynor Haeussler and Irene Nisle received first prizes, the consolation prizes going to Mrs Chas. Glatz and Frank Smith. An oyster supper was served and a good time had generally. Wm. Hoffer for the company presented Mrs. Smith with a fine umbrella. Mr. & Mrs. Smith are returning to their farm home today.

Mrs. Grace Spaulding Adams of Beeville, Texas, in writing for a certain copy of The Enterprise, says: "We always enjoy having The Enterprise come in the home, although there are so many names with which I am by 3436 votes. Florence Bertke lovely weather, gardens growing, doors Huldah Luckhardt and windows open, summer clothing Carl Mahrle
