ㅁ

Drink a glass of real hot water before breakfast to wash

Life is not merely to live, but t live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and ye how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to fee dull and heavy when they arise, spli ting headache, stuffy from a cold, fou tongue, pasty breath, acid stomach can, instead, feel as fresh as a dais; y opening the gluices of the system each morning and flushing out the nant matter. Everyone, whether ailing, sick o

well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all th sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you ar enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are both-

ered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged o get a quarter pound of limeston ruge which will cost very little, but unced crank on the subject of internal sanitation.-Adv.

reports concerning this country are being continually corrected by Americans themselves who know the facts, and who are too fair-minded to let a false statement go unchallenged. A case in point arises out of a statement supposed to be made by a resident of Alberta, and published recently in the Spokesman Review, of Spokane, in which the condition of settlers in this country was painted in a very bad way indeed. The writer of this attack on Canada refused to let his name be known, so it can be taken for what it is worth, but Mr. S. L. Wallace of N 4723 Crestline, Spokane, who lived for some years in Western Canada, came to the defense of the

country in the following letter which was published in the Spokesman-Review of February 11. 1916:-"To the Editor of the Spokesman-Re-"In Sunday's Spokesman-Review was a letter from a man in Alberta to the

chamber of commerce, asking that something be done to keep Americans from going to Canada, and saying that that government was run by the railroads, banks and manufacturers; that once a man got there he never could get away. Had this man published or over his own signature there is no doubt but he could get out No country will do as much to help a man to get on his feet, if he tries to

Interesting Comparisons Made of Famous Twirlers.

Speed of Charley Nichols Was Effective Because Sent Up With Easy Motion-Best Man to Take Over Another's Game.

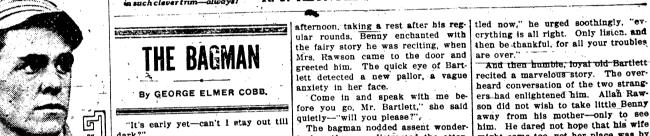

Jack Doyle has some interesting comparisons to make of famous pitchers, and those fans who used to delight in Charley Nichols' pitching. when his great jump ball was working, will be interested in what the old New Yorker and Baltimore player of "Nick's" time has to say about him. Jack caught the fast pitching of Amos Rusie, batted against "Kid" Nichols and has observed closely the work of Walter Johnson. "Johnson's fast ball is faster than Rusie's," says Doyle, "yet Amos had a faster and wickeder curve. But in

holding Rusie and Johnson up to view as the speediest pitchers, there's one bygone pitcher who is overlooked. I mean Charley Nichols. Though not as fast as Rusie or Johnson, he was good and fast, and his speed was all the more effective because sent up with an easy motion. "Nichols was the best pitcher I ever

saw to take another pitcher's game, and for that reason there never was another pitcher who was more valuable to his team than he was to the Bostons. By taking over another pitcher's game I mean going in when that other pitcher was in bad, and he could do that effectively even if he had pitched the day before. There haven't been any more useful pitchers than 'Nick.' STUFFY M'INNIS SLUGS HARD

SOUTHPAWS WON'T BOTHER THE INDIANS

Slugging Members of the Cleveland Indians. When Cleveland was making its bid for the American league pennant in

YYYY

1913, much of its batting strength was centered in the left-handed hitters—Jackson, Graney, Johnston and Leibold—the two extra outfielders, Buddy Ryan and Jack Lelivelt, also being side hitters. It is going to be differen this year, and Manager Fohl will be able, should he so desire, to send a team into the game that will have but one left-hand batter. Gandil, Turner, Chapman, Thomas and Evans are right hand batters, so is Bill Wambsganss, extra infielder. While Bobby Roth is the only right-hand batter among the outfielders, Howard, who bats either side of the plate, could go to either right or left field and replace either Smith or Graney. With such an array of righthand batters, it is rather expected that the Indians will not be afflicted with a continuous diet of southpaws as will the Tigers and White Sox.

The Weber Always Leads

A BOUT 1845, when the first Weber was built, you could not buy a better wagon than a Weber. There were no better built. Weber made "the best" his standard.

That was nearly seventy years ago, but the standard has been the same every year since. You know that, from the good work you have seen Weber wagons doing. You know they have been always popular.

We can show you, if, you cope in, that "the best" is the Weber-standard to-day. We want to show the wagon to you in the up-to-date.

standard to day. We want to show the wagon to you in the up to down, with every improvement, some of which you can't find on any other make of wagon.

You can see, here in the store, the new fifth wheel, the folding end gate, the link end rods, the strong construction of gears, wheels, and boxes. Come in the first chance you have and see this wagon,
