Trouble Now Threatens.

Women Said to Have Great Success in Taking the Places of Men The London Times gives a report of the inquiry made by a British deputation of women regarding the world done by French women in agriculture The delegations, which sought to find ways in which English women could give greater assistance in carrying on the war, made a fortnight's stay in For most of their stay the party was within sound of the guns, and much of the time was spent on small holdings on the battlefield of the Marne. The members were especially impressed by the unremitting energy of the French women-wives, daughters and mothers of soldiers-and their aptitude in taking up the heavier forms of farm work. One soldier's wife plowed and sowed 50 acres of ground after two days' lessons, and then instructed her twelveyear-old daughter in the same work. On very few farms were men seen other than cripples or the aged. The

miss their guess if he does not develop into a star in the American league.

EXCITING FLAG RACE

None More Promising Than Present in American League.

Almost Certain Contenders for Championship in Opinion of President Ban Johnson-Cleveland

(By BAN B JOHNSON, President of the With the baseball season of 1916 in full bloom, enthusiasm in Uncle Sam's great national game is everywhere apparent. This enthusiasm furnishes a striking contrast to the period immediately preceding the campaigns of 1914 and 1915. It is needless for me to refer to the distressing conditions under which the game labored in the last two years,

r these are still fresh in the minds of every fan. Suffice it to say, that the situation having been clarified during the winter months, baseball is again due for a period of prosperity which I hope will equal, if not surpass, those wonderfully prosperous seasons of 1912 and 1913. Believing in the doctrine of pre owners have their teams on edge and long training seasons under southern skies. We have had many exciting races for our pennants, but I cannot recall one which was more promising than that which is now upon us. Boston, Chicago, Detroit, New York,

Come In and See the Weber Here Are a Few More Points on the Weber

WOU will be interested in looking over the hound, hub, skein and skein box construction. On the Weber the hounds are of straight grained oak; on the front gear they are of the square type, wide and roomy in the rear, to give the reach ample support in turning short. They are mortised and well braced with solidly welded steel.

Hubs are of white oak only, turned, shaped, and bored accurately for the iskein boxes. Skein box is made so that a grease chamber is formed. A solid cellar keeps the oil away from the wood of the hubs. Mud and sand cannot get into the axle and the skeins cannot wear in to the skein boxes. That means long life and good service.

These are all reasons why you should have a Weber wagon—that is—if you want a wagon for real work. Come in and let us show you.
