piped in white, \$6.50. Figured voile, is quaintly fashioned with black velvet finishings, A cool little floral figured voile, has a tunic with a wide hem of

Smart White Skirts in Wash Materials \$1,25 to \$3,50

Separate skirts are marvelously attractive this season. The sport influence has made their popularity the greater, both in white and many handsome striped materials. New arrivals are these smart skirts in all-white, most inexpensive in price. At \$1.25—Wash gabardines in white, jaunty patch pockets and belt; buttoned all down the front for easy laundering.

At \$2.50—The new cordaline in white, set in pockets, trim little belt.

At \$3.50—Novelry bestet warraging.

At \$1.69—Two attractive styles in wide-wale pique, all-white, and white linen skirts with both pencil and awning stripes in black

\$3.50.

HORSES THRIVE ON ALFALFA No Other Hay Comes So Near Bein

deal, if Sanely Used—Has Large Protein Content. Some ridiculous prejudices are held against alfalfa. The less known about t the more intense is the prejudice, one that constantly has to be fought as the plant advances into strange territory is that it is unsuited and even dangerous to horses. The fact a, no other hav comes so near being ideal, if sanely used. Where largely grown and best known, it has larges popularity and use as a staple ration or horse and mule stock of all ages. One element that makes alfalfa so valularger than is found in any other hay. Best results are obtained by feeding with it, as a balance other feeds hav ing less protein.

Horse owners accustomed to using CHRESTY FATHENSON

prairie or timothy hay, and keeping mangers heaped, are likely to overfeed on alfalfa, with harmful effects, such as would follow from feeding to much oats or corn.

Regardless of theories and scientists, there is much testimony from men severely practical that alfalfa hay alone serves every purpose as a roughage for mature horses at heavy work and for growing colts of any age, although for some horses when driven ast it is found rather too much of a laxative. Hundreds of horse owners

STUPID PLAYS AMUSE Slip a few Prince Albert Play in Central Association Desmokes into your system!

Week Than in Big Leagues i Whole Season - Three-Base Hit Counts for Single. According to Ned Egan, "the "Cone Mack of the Minors," more "bone-

head" plays are made in class C and D

eagues in a week than you see in the

hig leagues in a season. Egan de-

scribed by Ned Egan.

cribes a play made in the Central asfor several days. Waterloo was playing at Muscating and Wetzell. Muscatine's right fielder, was on first base, and Sours of the same team at bat. Sours gave the hitand-run signal and Wetzel started pitcher began to wind up. Sours hit base Wetzell thought he saw Hill. Waterloo's left fielder, reaching up to

catch the ball.

Without waiting to see whether the fielder made the catch, Wetzell raced back to first base. Meantime the ball had soared high over Hills' head and Sours turned first base and raced for second. Wetzell passed him at ful peed, going in the opposite direction. When Sours reached second he hought that he had made a mistake about seeing the ball fall safely, and started back to first. Simultaneously Wetzell saw Hill chasing the sphere, and he again began the dash for second, and once more both players passed each other on the dead run, both badly confused. The result was that a hit that should have been good for a triple and a score went for

And all this happened without the umpire being entangled in the "bone head" play.

> THIRD BASE FASIEST. \_ TO STEAL SAY STARS

"Ty" Cobb, king of base stealan infielder believe that third base is the easiest cushion to steal. "Tv's" reason for thinking so is that runners can take a bigger lead off second than off any other sack. "Buck" says that the third sacker must take the ball at a hard angle and which to slide around him.

For a Tip-Top **Breakfast** 

Post Toasties

Here's the why:

The New Toasties have a delicate, true corn flavour-unmatched by any other corn flakes. Trial proves.

They are the meat of choicest white Indian Corn-first cooked and seasoned, then rolled into thin wisps and toasted by quick, intense rotary heat. This new patented process of making raises distinguishing little bubbles on each flake, and brings out their wonderful new flavour.

## Three Hundred Million Bushel Grop in 1915 Farmers pay for their land with one year's cros

Farmers pay for their land with one year's crow and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever There is more

sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

Oats averaged in 1915 over 45 bushels per acre Barley averaged in 1915 over 40 bushels per acre Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from \$12 to \$30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

Wheat averaged in 1915 over 25 bushels per acre

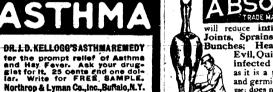

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or
