Dallying With Dynamite

You business men; you men who have made money in some special line of commercial activity—I want to give you a piece of legal advice that will not cost you a penny and may save you the title to the property that you now own or may acquire.

You are shrewd enough in your own line of work but you are playing with high explosives when you aid and abet a movement to confiscate property without compensation.

On the surface it may seem all right to take a ballot on the fate of the lawfully established property of the brewer—you may not like beer, but in organizing the forces that will use the ballot to run one kind of property you are forming an army that marches under the banner of "Confiscation without Compensation."

Have you ever thought of the danger that comes from organized intolerance? Do you know that intolerance is with us to-day and that it is rearing its venomous head in every community in Michigan?

You do know that your liberty of conscience and action is even now restricted by the forces of intolerance parading as professed prohibitionists?

I am not speaking at random—I am speaking from actual experience in the campaign that is now in progress.

On my desk are letters from men who say that they are opposed to prohibition but that they are afraid to take a stand openly—that they cannot afford to antagonize the prohibitionists.

You do know that there are newspapers in this State that have been so intimidated by political preachers and professed prohibitionists that they dare not even sell me space in which to tell the truth about the prohibition movement?

Furniture of Utility and Charm

"The House of Good Taste" is fast becoming the home of all America. People have come to know that since they must live with their furniture for years, it should be attractive in appearance, dependable in workmanship, trustworthy in long service.

There is not a stick of furniture here that has not a good reason for being here, according to the strict "proprieties" of the highest decorating art.

Those who appreciate beauty in furnishing their homes will find in our show rooms Period furniture of utility and charm, reproductions of the work of master designers. They will recognize their desirability, their soundness of construction and fine finish.

Complete lines of brass and iron beds, bed davenport and chairs. A special feature is made of mattresses and springs in all grades and prices.

This is a department that holds something worth while for every home. The attractive displays in a series of exhibition-rooms make selections more convenient.

Official Award Gold Medal awarded to Pilot Lighting Plants For Country Homes

We are proud of the Pilot. It is a big thing to win the Gold Medal at a great World's Exposition. It is a bigger thing, however, to win the approval of hundreds of thousands of users in all parts of the country by delivering satisfactory, reliable lighting and cooking service every day—a year in and out.

Proud as we are of the Gold Medal, we are prouder of the Pilot's record in use, of the unequalled service it delivers and the lasting friends it has made.

REFORM PRISONS IN PHILIPPINES

Dr. Walter Dade Says Men Are Schooled for Life Work While Confined.

Education, Not Punishment Penal Colonies Are Self-Governed and First Class Prisoners May Live With Their Families on Big Model Farm at Iwahig.

New York—Dr. Walter H. Dade, director of the bureau of prisons in the Philippines, was in this city recently on his way to attend the American Prison Congress which was held in Buffalo.

He has under his jurisdiction the Billid prison, at which many of the methods of prison reform put into operation by Warden Thomas Mott Osborne of Sing Sing prison are in successful operation.

Under the new law the aviators corps is to have the following officers: One colonel, one lieutenant colonel, eight majors, 23 captains and 100 lieutenants. With this staff of officers to direct the training of military aviators, the department expects to put efficiency into the service.

Just as France has selected her flying corps, the United States now has a flying corps, which is expected to put efficiency into the service.

Through the bureau of prisons the government has established a uniform method of dealing with all the prisoners in the Philippines. The prisoners are controlled through headquarters at Billid. The great prison colony at Iwahig is ideally situated at Palawan, seven miles up the Iwahig river. Here are 14,000 convicts located on 10,000 acres. The colony is self-sufficient.

The prisoners have to earn the right to go to the colony and most of them are surprised by this ambition. A first-class prisoner in Billid becomes a fourth-class prisoner in Iwahig, which means that, having won the right to enter the colony, he must be able to follow agricultural pursuits he receives twelve and a half acres to cultivate.

The government furnishes him with work and the necessary implements and tools, builds him a house in which to live, and assigns an instructor in charge of him. Also he can deal at the cooperative store. The only condition imposed is that he must be able to support his family and half until it is reimbursed for the goods furnished to him.

The prisoners have their own police, their own courts, their own police, and their own courts, their own police, and their own courts.

U. S. TO HAVE GOOD FLYERS

War Department Finds This Nation Far Behind Europe's Military Aviation Efficiency.

Washington—Plans for the development of military aviation under the army appropriation act have been worked out by the war department and are now being put in operation.

The scope of the plans, as indicated by a determination to strike appropriate aviators, is approximately \$200,000. From 1911 until March 31, 1916, only \$200,000 was appropriated for aviation in this country.

Under the new law the aviators corps is to have the following officers: One colonel, one lieutenant colonel, eight majors, 23 captains and 100 lieutenants.

SOME FARMERS STILL USE OIL LANTERNS TO LIGHT THEIR BARN

Of course—back in the old days—30 years ago—you couldn't get anything better. But—these last few years have so changed living conditions that up-to-date farm families won't be satisfied any longer—with poor light.

PILOT-CARBIDE OUTDOOR LIGHTING AND COOKING PLANTS

for it gives them not only all the fine, bright, inexpensive light they can use—but cooking fuel as well.

This wonderful machine stands out of doors—on top of the ground, anywhere. It has totally changed the old-fashioned methods of barn and house lighting.

You can now flood your barn with safe brilliant light—instantly. No matches needed—No dangerous lanterns to tip over or upset.

Think what this means to you! Think how much better and easier you can work, with plenty of good bright light in place of a smoky, dim oil lantern.

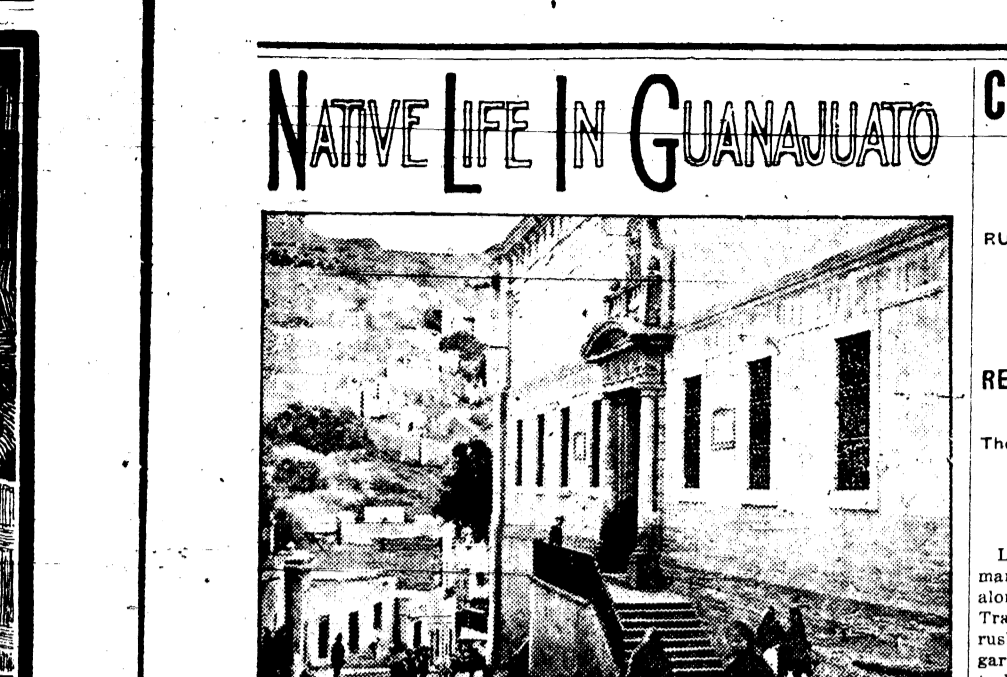

You will find the barn lighting feature alone worth the entire investment for the PILOT. And its use in the house, as well,

means added happiness—safety—comfort and convenience for your whole family.

Just because your father and grandfather used oil lamps and lanterns is no reason why you should, any longer, put up with their danger and poor light.

Find out today about this modern light plant. Write for our illustrated catalogs and descriptive booklets giving all the facts.

NATIVE LIFE IN GUANAJUATO

A STRIKING picture of native life in Guanajuato, the treasure chest of mercurial Mexico, is given in a communication to the National Geographic society.

Leaving the walled inclosure of the railroad yards, one looks down on the apparently cramped and crowded city of Guanajuato, capital of the richest of the south central states of Mexico.

In the soft sunshine of summer days the best view of the city is striking indeed. Churches of magnificent porticoes; ancient and modern architecture strangely huddled in the same edifice; brightly colored markets; stores of all descriptions; and dwelling places, rarely here, variously colored and of various styles.

The Mexican people know that he is born to serve, as did the old southern darky, and he is not slow to emphasize it on all occasions.

What matters if the person is over-crowded that night, or that the supply of fuel is small and depleted almost to the degree of exhaustion?

CENTRAL POWERS START NEW DRIVE

RUMANIAN ARMIES ARE PUTTING UP A GREAT FIGHT ALONG THE TRANSYLVANIA ALPS.

RELEASE GRIP ON LEMBERG The First Honor in the New Offensive Goes to Rumanians, Says Berlin Reports.

London—With the defeated Rumanian army being driven rapidly along their own frontier line in the Transylvanian Alps to stem the invasions of German and Austro-Hungarian into their country, the Central powers have launched a new great offensive for the northeast.

The first honor of the battle was with the Rumanians. An official statement in Berlin, issued by a similar declaration from Vienna, announces that the Rumanians have been driven back across the valley of the Neagra river.

Declaration of Principles and Challenge to Debate

The Professed prohibitionists Must come out in the open and meet the real issue in this campaign.

They talk about TEMPERANCE but TEMPERANCE is NOT an issue. Every good citizen is in favor of Temperance.

They talk about Saving the Boy from Temptation, but they have not made any effort to Save the Boy from Temptation.

Some Folks Can't Drink Coffee, or Think They Can't

But we've come to look like them! The proper coffee properly made, used in reasonable moderation, is not at all likely to harm anyone.

On the contrary, we sell coffee to a great many people who depend upon its grateful stimulation to start them going in the morning.

Yes, our coffees are different from the kinds you generally buy at other stores.

Your kidneys are distinctive—only we sell them to you. To buy our Coffee, is to assure yourself of coffee satisfaction, which is something well worth having.

FIFTY-ONE LIVES LOST IN BIG STORM

STEAMER MERIDA ADDED TO THE LIST OF BOATS THAT FOUNDERED IN LAKE.

Colgate Foundered in Lake Erie With Crew of Twenty-two; Captain Rescued.

Detroit—With the loss of the steamer Merida in Friday night's gale on Lake Erie, controlled by officials of the Valley Camp Shipping company of Milan, Ont., "her" owners, the death toll of the storm which four vessels sank, reached 51 men. Proof that the Merida had gone down came when seven bodies wearing lifebelts stamped "Merida" were picked up in mid-lake by two other ships. Her crew of 22 men is believed to have perished.

Another name was added to the death list when it became known that Walter Tule, of Redwood, N. Y., had been washed from the deck of the barge Isaac L. Bell in Friday's storm.

THE BEST FOUNDATION FOR STYLISH CLOTHES

No outer garment, however well cut or tailored can fit perfectly over ill fitting undergarments. A Munsing Union Suit, because of the perfect way in which it fits and covers the figure, is the ideal underwear and is preferred everywhere by "women who know."

The fact that we sell more and more Munsing-Union suits every year is significant. There must be a reason. In truth there are several. In addition to the perfect way in which it fits, Munsingwear is unusually fine in quality, remarkably durable, and surprising in its ability to stand trip after trip to the laundry without losing its shapeliness, perfection of fit or comfort.

Our splendid success with Munsingwear is the natural result of the splendid service and satisfaction that our customers get from it.

Our increasing volume of business in this line enables us to offer you a more comprehensive assortment of styles, weights and fabrics to select from this season than ever before.
