Washington.—Following is the text of the instructions sent Oy German Foreign Minister Zimmermann at Berlin to Minister von Eckhardt in Mexico City, ordering the latter to propose to Carranza the projected alliance between Germany, Japan and Mexico:

"Berlin, Jan. 19, 1917.—On the 1st of February we intend to begin submarine warfare unrestricted. In spite of this it is our intention to endeavor to keep neutral the United States of America. "If this attempt is not successful we propose an alliance on the" following basis with Mexico: That we shall make war together and together make peace. We shall give general financial support, and it is understood that Mexico is to reconquer the lost territory in New Mexico, Texas, and Arizona. The details are left to you for settle-

"You are instructed to inform the president of Mexico of the above in the greatest confidence as soon as it is certain that there will be an outbreak of war with the United States and suggest that the president of Mexico. on his own initiative, should communicate with Japan suggesting adherence at once to this plan; at the same PRESIDENT DENIED

"Please call to the attention of the president of Mexico that the employment of ruthless submarine warfare now promises to "ZIMMERMANN."

It is getting to be a long drawn out story, the way that Western Canadian armers have made money. Many of them a few years ago, came to the country with little more than thein tew household effects, probably a team of horses and a cow or two, and sufficient money to do them for a few months, until they got a start. Hundreds of such can be pointed out, who today have splendid homes, well equipped farms, the latest machinery an automobile. Here is the case of A. E. Merriam, formerly of Devil's Lake, N. D. He didn't leave there because the land was poor, or farming not a success, for all who know that country are aware that it is an excellent country. He wanted to expand, to take advantage of the cheap land that Western Canada offers. And that same story has appealed to hundreds of others who have had like success with Mr. Merriam. But his story, and signs it, too, is: "I came to Alberta in the Spring of

1909 from Devil's Lake, North Dakota, locating on my farm near Dalroy. and two head of cattle and about

tinued year after year, and if every was packed with stores, mails and follows this he will be ahead of the grain growers in the long run. Taking everything into consideration.

I feel satisfied with my success in Alberta.".

Smart House Dresses

Just received, a new line of House Dresses for Spring. Our House Dresses are friendly to the tub, in spite of the so-called dye situation. We are able to give you as good colors as heretofore. Such attractively trimmed, practical Dresses as we are offering at these unusual prices make it possible for every housewife to be daintily garbed. We have them in stouts and regular sizes, from \$1.25 to \$2.25.

Aprons

Have a nice line of Bungalow Aprons in all sizes. The colors as well as the materials are not only exceptionally pretty but have splemdid laundering qualities as well. Prices 60c and 70c.

Yours respectfully,

6. H. Breitenwischer

New Spring Dresses

All the world of fashion now studies the styles for Spring. First comes the choice of corsets, for they are the very base and foundation of style in gowns. And first among corsets one naturally thinks

phone. The automobile driven madly, recklessly through the hills and over the rough roads, had brought him directly to the office in the shortest possible time.

"There is a deflection one inch and aviation." "There is a deflection one inch and three-quarters deep in one of the compression members. C-10-R," was the prompt and terrible shawer.

Colonel Illingworth had not been president of the Martlet Bridge company for so long without learning something of practical construction. He was easily enough of an engineer to realize instantly what that statement meant.

"When did you ediscover it?" he shoot crows with when they get in three quarters deep in one of the compression.

Beware the Loaded Gun.

The man who returns from hunting and sets his loaded gun in the corner or hangs it on the wall is, in reality, setting a death-trap. Yet it is surprising how often this is done. The gun we "didn't know was loaded." is an old, old story, says Farmer's Guide.

You cannot be too cautious. The total gun you may keep on the wall to shoot crows with when they get in
