Your flag and my flag,
And how it flies today
In your land and my land,
And half the world away!
Rose-red and blood-red
The stripes forever gleam;
Snow-white and squl-white—
The good forefathers' dream.
Sky-blue and true-blue,-with stars
gleam aright.

Your flag and my flag!
And, oh, how much it holds—
Your land and my land—
Secure within its folds;
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-tossed—
Red and blue and white.
The one flag—the great flag—the
flag for me and you.
Gloried all else beside—the red an

Your flag and my flag!

The drums beat as hearts beat
And fifers shrilly pipe.
Your flag and my flag—

LET CONVICTS BUILD ROADS

The Roads Near Jackson Are Sadly In Need of Immediate Improvements.

A few weeks ago we published an item in The Enterprise in which it was stated that the warden of the state prison at Jackson was not in favor of employing convicts in the building of roads. He thought that they would consider the work as beneath them, or words to that effect. Besides it would prevent hem from atteding night schools. enect. Besides it would prevent them from atteding night schools. It is stated that the prisoners in Sing Sing, N. Y., are themselves in favor of working upon the roads and it is expected that it will be the means of bringing back strength and energy as well as health to all the inmates working outside. No man of all the inmates who went out last year had a word of fault to find with his treatment. All are anxious to join these camps again. Many states have built the better portion of their roads with convict labor, and now that farmers are having hard work to get suitable help on their farms, they cannot be relied upon to help much in good roads building, and convict labor could be used to advantage.

President pro tem., Trustee Sortor. The president presented the following communication:

Gentlemen: At this time it will not be unfitting for me to communicate a fact which for some time undoubtedly has been the burden of your thoughts. America, the land we love, is at war with the greatest armed foe that the world has ever known. Millions of men and the latest inventions of science are obeying the dictates of an autocratic government to crush out the liberties of the world. Valiant France and sturdy England, crushed and bleeding, are reeling from the shock of the savage encounter; and the destiny of free governments upon earth and the rights of humanity are trembling in the balance.

America, a land that has offered

America, a land that has offered a home and a haven of refuge to the poor and oppressed of all nations;

America, a land that has offered a home and a haven of refuge to the poor and oppressed of all nations; America true to her ideals, true to the principles for which she has ever fought and to resent the murder of her innocent people, has unfurled her battle flag.

The timid say that we are unprepared. Shall we be better prepared when France is crushed. England defeated our coast bombarded, our cities, towns and fields in the possession of and ravaged by a relentless foe? The time for argument has passed. Better to lose a million men and march with the allies to victory than to suffer their fate if defeated.

We have always turned with pride to the heroes who fought the war for American Independence and to the heroes who fought the war for American Independence and to the veterans of the Civil War, who severed the bonds of slavery. Let us now so conduct ourselves that future generations may turn to as with that same veneration in our struggle for freedom and independence of the world.

Manchester is but a small part of the great United States of America, but we must manfully bear our part of its, burdens. In this conflict there can be no neutrals, regardless of race, color or previous condition of servitude; there can be only two

classes, Americans or traitors. Man chester has never latter and never will.

latter and never will.

It is neither advisable nor necessary that we all shoulder a rife and march to the front; but it is both advisable and necessary that we organize our community whereby we can do the most good to our Government in its time of need. There is shortage of food in the world. Our army and navy cannot fight on an empty stomach, neither can one Our army and navy cannot fight on an empty stomach, neither can our-allies. We should discontinue all manner of public improvement for the present and give willing hands a chance to plant and sow, and if necessary we should find a way to find seed and ground for any who are otherwise unable to obtain it are otherwise unable to obtain it.
If any of our boys are called away,
we should have means to supply
their wants and to keep them in
touch with the old folks at home, so that they might know that their sacrifice was appreciated and not made in vain, and there are many other things to do that ought to be

Therefore, I recommend that a mass meeting be called for the purpose of organizing a Patriotic Association for the purposes above Respectfully submit-A. J. Waters, Village President. mentioned.
