New Subscribers Daily for The Enterprise

When The Enterprise found it necessary to advance its subscription price to \$1.50 a year on account of the increase in prices of paper, ink, type and labor, we lost a few subscribers. People who were receiving higher prices for produce they had to sell were not willing to pay us the necessary advance. Happily most of those have since renewed, but what is more satisfactory to us is the fact that many who had not taken The Enterprise have subscribed for it, and the list is growing daily.

IS YOUR NAME ON THE LIST? We want it there and extend a cordial invitation for you to, subscribe. To make it as easy as possible for those who have little money to spare, Enterprise subscriptions may be paid as follows, in advance:
