CHAPTER XIX—Continued.

Smith did his various errands quickly. When he reached the fourth-floor suite again, Bibbey was out of the bath; he was sitting on the edge of the bed wrapped in a blanket, and the steaming pot of coffee sent up Smith's hurry order beside him on a tray.

CHAPTER XX.

The Pace-Setter. Smith made an early breakfast on the morning following the drive to the abandoned mine, hoping thereby to avoid meeting Miss Richlander.

CHAPTER XXI.

The Colonel "Det." Though it was only eight o'clock, Smith sent his card to Miss Richlander's rooms at once and then had him to wait for her. She came in a few minutes, a strikingly beautiful figure of a woman, with her hair done up in a bun, wearing a red dress, and smiling serenely at him.

Smith matched the mine owner's good-natured smile. For some unexplainable reason the world, his particular world, seemed to have lost its malignance. He could even think of smiling at you, and we'll plan what can be done."

get away without finding it. It was from Verda Richlander, and it had neither superscription nor signature. This was what Smith read:

"My little son had failed miserably. Mr. K's messenger found my father in spite of it, and he—the messenger—Miss Baldwin refused, rather rudely, I thought, to tell her father where you had gone."

maniac or a drunken man, I mean." This time Miss Richlander's smile was distinctly resentful. "I suppose the colonel's daughter answered the letter, and she said, 'There was an awkward little contemptuous, and Miss Baldwin refused, rather rudely, I thought, to tell her father where you had gone.'"

Smith broke away from the unwell-composed subject abruptly, saying: "There is something else you ought to know. Miss Richlander glared at the face of the small watch pinned on her shoulder. "You must not stay here any longer," she protested. "The Stanton's may come down any minute, now, and they will see you here."

decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, and a bottle of Lydia E. Pinkham's Blood Purifier, and now I feel just as well as any other woman. I advise every woman, single or married, who is troubled with any of the above-said ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me."

The first contingent of drafted men from Washington county will be sent to Camp Custer at Battle Creek on Sept. 5. The government plans to order only five per cent of drafted men at a time in order that they may be easily transported by the railroads and the camp put in proper shape.

As you drive your auto through the city streets have you observed how few of them are equipped with why? Have you observed the rapid increase of the auto and auto truck in such cities as Jackson and Lansing, and the scarcity of horses? That's why the streets are so clean.

Pope Benedict's peace plan is rejected by the United States. To end the war would merely strengthen the Kaiser in his plans for domination of the world, says President Wilson in his reply. Cannot take the word of the present rulers of Germany as guarantee of everything that is to endure unless supported by the people of Germany themselves.

All German aliens over 14 years of age who have not applied for a marshal's permit, will be given a limited time in which to do so. About 50 appeared before U. S. Marshal Behrardt and Deputy Marshal F. L. Dodge at Ann Arbor, Tuesday. Aliens having guns, revolvers or other firearms are required to turn them over to the marshal and they better do it at once or they may get into trouble.

It is announced that a war council is to be held and that able men are to be asked to assist President Wilson in carrying on the work of his war office. Since the United States entered into the war his duties have become so heavy that it is feared his strength greatly. We trust that he will be able to find somebody to help rather than to hinder. There is altogether too much politics woven into the war game and it greatly hinders the cause.

Gov. Sleeper made it known to the boys at Grayling, Sunday, that from the time a Michigan soldier is wounded on a French battlefield until he is thoroughly recovered he will be cared for by experienced men. If his wounds are such that it is necessary to return him to the United States for recovery, it will be done. His parents will be notified and if advisable funds will be furnished so that they may be at his bedside. Neither expense nor our efforts will be spared in caring for the Michigan men who go to the front.

SOW WHEAT EARLIER.

Most of our farmers have adopted the plan of late sowing of wheat in order to avoid the attacks of the Hessian fly. On this account the wheat has not gotten as good a start in the fall as it used to and the agricultural college farmers have urged a return to the old methods. They say on good wheat soils in southern Michigan eight pecks per acre will give better results than the usual seeding which is six pecks. Southern Michigan farmers should seed wheat from the 10th to the 25th of September.

Rev. E. L. Conklin will preach at the Universalist church Sunday on the subject "The Laboring Man and the Church." His sermon has been designed as an appropriate fore-runner of Labor Day, which is Monday.

How Much Wool Will There Be in a \$15 Suit

Glancing at a Toledo paper last week, it interested us to the extent that our customers might share our information. Following is the clipping:
"Wool houses are busy preparing samples for the Government. Total sales for last week were 3,000,000 pounds. The entire wool market has joined with Boston in taking up the proposition of reserving 50 per cent of the wool supply for the Government. The effect of this plan on manufacturers is not considered berrish for those making civilian clothing. There will be little cheap clothing offered for 1918. Advances of \$5.00 or more per suit are expected. Mill agents are convinced that at present prices a suit cannot be retailed under \$15.00 unless it is all cotton. Little has been done in Ohio wools. They were quoted at 80c to 85c."
The above pointers should give you a fair idea of what next year will be, for prices on clothing. We predict (if the war lasts) that next year will see the highest prices since the Civil war.

In spite of the advance we are going to give you
10% Discount On All Suits
(Except Serges) Saturday, Sept. 4.
YOU SAVE \$5.00 TO \$7.00 ON A SUIT.
