

The Safe, Steady, Farm Light

LALLEY-LIGHT is electric light for the farm.

It is safe. It is clean. Its cost is low. Its brilliance is always steady, without a flicker.

The light direct from the generator, with the plant in operation, is as sure and steady as when current comes from the storage battery.

This is so because Lalley-Light engine is designed

especially for driving an electric generator.

It has extra large ball-bearings throughout. No other uses two ball-bearings on the crank-shaft; one on the connecting rod.

LALLEY-LIGHT

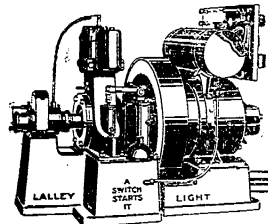

Electric Light and Power for Every Farm

Lalley-Light has been in successful farm use for

seven years. It brings new conveniences, better living, to every farm. Its light and power cost but a few cents a day.

Let us demonstrate Lalley-Light, free, right on your own farm. Write for the owners' testimonial book.

SHARON

Mr. and Mrs. Arthur Strahle moved from the Fred Kuhl farm last Wednesday to the Little farm in Bridgewater.

We are very fortunate in having so convenient and roomy a place as Gieske brothers' store at "the hollow," for holding caucuses and election, since we have no town hall.

Among those who took stock to Manchester for shipment Saturday, were the Hazelschwerdt brothers and they had a bunch of fat steers that must be graded as prime.

Much of the material for building a new town hall on the site of the church, which was destroyed by the cyclone last June, is on hand and work will begin as soon as settled weather comes this spring.

Ralph Kimball, who has been on the George Pardee farm, has moved onto the William Haag farm in Norvell township. The farm from which he moved was recently bought by Mat Schabbe, who will move there and his son-in-law, Alvin Tirb will operate his old farm.

For some time the services at the Row corner church have been quite irregular owing to the weather and condition of the roads. Rev. Horn informs us that they will now be held regularly with evening services the coming Sunday and both morning and evening services one week from Sunday. Sunday school and the young peoples' meetings will also be held regularly hereafter.

The teachers and pupils of district No. 1 gave a farewell party in honor of the Knickerbocker and Breitenwischer children, Wednesday afternoon, Mar. 6. The former family will move to Freedom and the latter to Manchester. The children had a happy time playing games and light refreshments were served. At the close these lines were spoken: From our school four more children go, and our number is getting low; sixteen now will enter the door where 23 had entered before. Our love for them plainly shows that behind they leave no foes. Their familiar faces so loving and kind, we shall always picture in mind. Biddle, Dorothy, good luck in their turn. In the past, success has been their aim, and we hope it will remain the same. We will miss them much indeed, and we hope they will succeed. When in school again they start, may they remember from whom they part; and with them our best wishes take, when new friends they try to make.

BRIDGEWATER

William Dewey moved into his new house on Monday.

William H. Gadd will bale nearly 100 tons of hay this week. He has also fed two carloads of lambs.

Last Saturday during the storm in the morning, the signal of the River Raisin Station was raised and it froze fast and could not be lowered.

Charles Maurer shipped a carload of hay from the Hogan siding on Tuesday. It speaks well for a farm of 80 acres, he having also fed and sold a carload of lambs this season.

The democratic caucus, held at the town hall last Friday resulted in the smallest attendance of any in many years—less than 20 being present. As the nominations in this township are almost equivalent to an election, it seemed strange to see so few present.

Following are the candidates for township offices, first after office being democratic:

IN ANOTHER FORM

Two British soldiers went into a restaurant at Saloniki and asked for Turkey with Greece. The waiter said:

"I'm sorry, gentlemen, but I can't serve. Whereupon the Tommies cried: 'Get the Bosphorus.'"

When that gentleman arrived and heard the complaint, the manager said:

"Well, gentlemen, I don't want to Russia, but you cannot Roumain." And so the poor Tommies had to go away hungry.

FARMERS TO GET SEED CORN

State Ready to Supply Applicants At a Price of \$5.00 per Bushel.

Almost 100,000 bushels of seed corn which will be sold at cost to Michigan farmers in districts where a shortage exists are en route to the Michigan Agricultural College or have already arrived.

The announcement, made by the seed corn committee of the college, gives out that the corn, all of which is adapted to Michigan conditions, will be distributed at \$5 a bushel on the basis of acreage, adaptability and need.

The supply was purchased by trained corn men, under authority of the governor's committee. A part of the corn is of the dent varieties, secured from South Dakota, some of flint, mostly from New York and 51,000 bushels are from New Jersey, of corn of standard types. All of this corn will be inspected at the loading pier and germination tests run by representatives of M. A. C.

Arrangements have been made by the committee with grain elevators, seed men, co-operative organizations and farmers' associations to aid in the distribution of the corn at cost in their localities. In portioning out the shipments the needs of communities, the source of the corn and its adaptation will all be considered.

Individuals in need of seed, the instructions read, should get in early touch with County Agent H. S. Osler at Ann Arbor, and local grain dealers to ascertain where they can secure a supply. The college itself has no part in the distribution of the corn.

WHEN MARY'S LAMB GREW UP

Mary had a little lamb—
But how that lamb has grown!
Now Mary'd rather walk a mile
Than face that lamb alone.
