## COLLEGE WAR WORK

M. A. C. Will Be Thronged With Men And Women Busy In Various Lines.

War work along many lines will occupy much of the time of the faculty and students of M. A. C. during the summer sessions of the college, which will commence on Monday of the coming week. Ordinarily the warm weather months on the campus are the duller of the year, but between the training of auto truck and signal units for the army, and the conducting of special schools and conferences, the coming term promises to be one of the most active in the history of the college.

The routine summer school work will begin June 24, but at the same time women from every corner of Michigan will assemble to attend the special school of canning to be conducted for them by the home economics department of the college. This school, which will also be a food conservation congress, will be divided into two sections. The first section, which will be for women who have had at least two years of college training in domestic science, will report on June 24 and will continue in session until June 28, while the second section will be open to all women, irrespective of what their educational qualifications may be. This section will convene on July 1 and attend lectures and demonstrations until July 4.

Other features of the summer sessions will be a short course for the country clergymen, from July 8 to 20, and a country life conference, which will be attended by pastors and laymen of all denominations, on July 8 to 15.

During the week of July 9 to 13 leaders of the many boys' and girls' clubs in every county in the state will assemble on the campus to attend a week's training school and conference.

The list of Washtenaw county men includes: Patrick Irwin, Conrad Noll, Ann Arbor; Daniel McFall, Augusta; Frederick Alber, John Falconer, Manchester; J. W. Toban, Northfield; John W. Menter, Superior; A. J. Kelley, Daniel McFall, I. P. Shepard, Ypsilanti; Joseph B. Kemp, Whitmore Lake.

## THE BACCALAUREATE

Rev. H. J. Johnson Gives Very Fine Talk—Music for Evening of High Class

In spite of the extremely warm weather Emmanuel's church was filled Sunday evening with relatives and friends of the graduating class of our high school, who besides the general interest in the class had been attracted by the prospect of especially good music under the leadership of Mrs. Arthur Freeman and of a splendid address by Rev. H. J. Johnson—and they were not disappointed.

Mrs. Freeman succeeded in gathering an exceptional choir of voices, some of which had not been heard here in public. The male chorus was especially good and we think furnished the best balance for the female voices heard here in a long time.

Following is the musical program: Processional—"Cavatina" Roff Mrs. Taylor Gage, Violin Miss Minnie Grossman, Organ Choir—"Praise the Lord" Danks Soprano Solo—"Not a Sparrow Fall-eth"

Miss Mila Welch Parry Three-part Song—"Evening Hymn" Mrs. Geo. A. Smith, Miss Welch, Mrs. Einkorn, Mrs. Freeman, Mrs. Adam Houck, Mrs. Dresselhouse. Soprano Solo—"With Verdure Clad"—from "Creation" Haydn

Miss Marie Nagl Choir—"Be Still My Heart" Noelsch Soprano Solo by Mrs. Smith Choir—"The Star Spangled Banner" Baritone Solo by G. W. Kramer Dextology.

The personnel of the choir was as follows: Sopranos—Mrs. Geo. A. Einkorn, Mrs. Emmett Lowery, Mrs. Geo. A. Smith, Miss Mila Welch, Altos—Mrs. Edward Dresselhouse, Mrs. Arthur Freeman, Mrs. Adam Houck, Mrs. Jacob Wulfman. Tenors—Erwin Grossman, Waldo Marx, Samuel Voegeding. Bass: Otto H. Davider, George Hamm, G. W. Kramer. Miss Minnie Grossman, organist.

Rev. Johnson took as the basis of his address Paul's Epistle to the Romans, 13th Chapter, and gave a well-directed address rather than a sermon, which was listened to intently by those present. Some paragraphs from his thoughts follow:

To the members of the class of 1918: You will never be able to repay your parents for the privilege of a high school education. In many cases they have denied themselves necessities that you might continue in your school work. You cannot be too thankful to your teachers who have labored for your education. They have been amenable not only to the school but to the influence they have exerted.

Your privileges are inestimable; you are on the threshold of the world's greatest efforts. We are facing the greatest changes economically, religiously and politically the world has ever known.

In your motto, "Success Awaits at Labor's Gate," you have made the classic statement that success awaits your efforts. Success never intrudes itself nor underdresses upon anyone. You must remember that success comes only to him who is willing to extend an effort; your success in life will depend upon your ambition. If you have aimed high, if you have hitched your wagon to a star nothing can prevent your success if you put forth the proper effort.

God calls men to the ministry and to other occupations. Listen to God's voice, find what you are good for and concentrate all your powers on a worthy purpose—and God will reward you with success.

Don't drift; thousands of young people are drifting and they are wrecked on the rocks. You can fritter away your years in a round of useless pleasures, and I can pronounce your epitaph—Failure. You can take up the cross of good and righteous living and come down through life clothed in honor.

You may win fame and the applause of the world and yet not be a success. You cannot place your hand on the man in Manchester or the State of Michigan who has been a success and lacked the quality of being real. Above all things be a reality; be genuine.

## SHORTAGE OF SEEDS FEARED

Begin Now to Prepare to Meet Needs For Next Year, Is Advice Given by Observers.

The reserve supply of seeds usually carried by the seed houses has never been so low in the history of the business as now. This is attributed to a number of causes, among which may be mentioned the failure of the supply from Europe, the use of many seeds for food, an increase of about 50 per cent in the demand for planting, and the adverse weather conditions which have much reduced the usual California crop.

The old-time practice of saving one's own garden seed can in this emergency be revived with advantage but always remembering that the fundamental principle in successful seed saving is selection of seeds only from the best plants.

A bulletin entitled "Saving Seeds for the Home Market Garden" is being issued by the agricultural college and can be obtained by mailing a card to the Experiment Station, East Lansing, with a request for Circular No. 35.

## HELP FOR THE FARMER.

County Agricultural Agent Osler has many calls for farm workers and is able to supply but few of them. Some farmers want single men with farm experience, and they are hard to get. Others want married men for permanent jobs. Some are willing to take boys who are old enough to be of service. High prices of produce has induced the farmers to increase the productive acreage wherever they could and the harvesting problem is a hard one to solve.

In some places we understand an attempt is being made to induce merchants to close their stores one or two days in a week and to go out and help the farmers cultivate and gather their crops, without pay. This is called a patriotic duty. Any help that can be given the farmer in feeding the nation, ought to be afforded.

## IN WAR FOR MORAL REASONS.

An editorial in the Vienna Zeitung, a socialist paper, vigorously censures Germany's "peace by violence" with Russia and says:

Neither for military nor economic reasons could the United States have made war on Germany. "America," the editorial continued, "need but have looked on while the peoples of Europe were tearing themselves to pieces, and reaped gigantic profits out of the struggle. Powerful America has pledged her honor in the war and it is her will that this honor shall be vindicated."

## THE BLIGHT ON TREES

Examine Your Fruit Trees for Fire Blight, Says Expert at Agricultural College.

Evidence of the continued presence of fire blight on Michigan pears and apples has been coming to the agricultural college within the last few days in the form of diseased specimens from fruit trees in several sections of the state.

Fruit growers should take no chances with early cases of twig blight on young, rapidly growing trees, in the opinion of the experiment station pathologists. These twigs, relatively unimportant in themselves, quickly develop into important limb cankers which endanger the whole tree. Furthermore, they become sources of infection to neighboring healthy trees.

Information of measures by which this disease can be controlled can be obtained by writing to the department of botany, M. A. C.

Clarence Knorrp says that since last Wednesday he can see that he is recovering from the operation he underwent, and will, he hopes, soon be able to join the navy and get to work.

## Wednesday, June 26 will be SUBURBAN DAY IN JACKSON

### We Welcome You

On this day when all the city unites in extending its hospitality we invite you to come in and become acquainted. You'll find stocks of merchandise creditably large despite the shortage in all channels of wholesale merchandise.

Every section has a remarkably assorted display of goods, much of which was bought before prices began to soar. Our ability to buy in quantity and carry the merchandise through this period results in our being able to offer new staple goods at prices far below the present market value.

On Suburban Day hundreds of these exceptional values will be waiting for you.

Make our store your headquarters; the rest room is at your service and in our Cafeteria (2nd floor) we are preparing a special menu of exceptional merit at very moderate prices.

Even if you don't see the list of bargains in the city papers, come up anyway—

We'll try to make you feel at home

## FERTILIZER!

### NIT.-PHO.-POT.

The new prices for fall fertilizer have arrived. The raise is as follows:

16 per cent Acid Phosphate, increase	\$4.00
1-23 Bone Meal, increase	5.00
2 1/4-28 Bone Meal, increase	5.50
10-1 Mixed Goods, increase	4.00
1-12 Mixed Goods, increase	4.00

The fertilizer on hand is owned by the fertilizer companies, the above prices go into effect July 1st. After that date we have to charge that much more. You might as well have this raise as the fertilizer companies, as you will have to pay the advance later regardless of whom you buy.

WE GIVE YOU THE PRIVILEGE OF  
PAYING FOR THE SAME THIS FALL.  
BY A NOTE AT 6 PER CENT.

All fertilizer must be taken and settled for prior to July 1st to avail yourself of the above price.

Our advice is to buy liberally, buy the Bone Meals for wheat in preference to all other kinds, as it gives you more lasting results, but if quick action only is desired, buy the Acid Phosphate, 16 per cent, or the Mixed Goods.

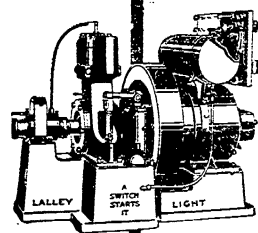

This offer is made you only subject to stock on hand. Phone in your requirements at once, or better still—

Come and get it before all is gone
