## SOLDIER BOYS PRAY

### In Stress of Battle Fighters Sought Protection From Him Who Is Mightiest.

That the war has served to awaken a religious spirit in the youth of the land, though it may not serve to swell the membership of any church, is the contention of Wilder Bancroft who left here with Co. E. of the 126th infantry in 1917, and who served throughout the war though he was transferred to headquarters company after Co. E. landed on French soil, says the Ann Arbor Times.

"There are few soldiers who have taken any part in the great war which has just ended who will say today that they do not believe in a supreme being. There are but few who have lived through that hell of shot and

shell and gas who do not believe a supreme being watched over them and brought them safely through all the horrors of the past months. There are but few men who did not pray that their lives might be spared when they advanced to meet that rain of death and destruction that the Hun sent into our lines. Most of us are not ashamed to admit it, either.

**Swore But Not Profane.**  
"Not that these men made any profession of religion, and not that they did not swear like troopers, for they did. Men who presumably never in their lives used a profane sentence before they went to war, learned then to roll out the cuss words with neatness and despatch, but it was not profanity with them, for they did not mean the things they said; it was the excitement of the moment and the natural outlet of pent-up feelings. But when these men prayed, they prayed because they believed that there was a Father in heaven who was watching over them, and that if they came through that awful thing called war, it was His care and His guidance that made it possible, and not an accident of fate.

It's There to Stay.  
"This belief in a supreme being or power will not leave those men into whose brain and heart it was burned by Hun warfare. They may never join a church, and they may continue to 'cuss' but never to their dying day will they forsake belief in a Father in heaven, who watched over them in the hour when they feared the end of living had come to them.

"I doubt if church membership will increase to any appreciable extent because of the returned soldier, who received his religious awakening on 'Plains' fields."  
Ask Private Bancroft to tell you of his experiences in France and he will probably tell you as he has told others, that he was in but little danger and that he has nothing to tell. From another member of his company the story has been told of how he was caught in an American barrage and nearly lost his life.

An Emergency Runner.  
It happened that Private Bancroft was used as an emergency runner one night, carrying messages from regimental headquarters to brigade headquarters. And it so happened that at that exact time the American forces advanced to an objective only to find that the Germans had got wind of their coming and had retreated farther back. Without waiting for orders the Americans advanced for headquarters. And it so happened that in this barrage that Private Bancroft was caught. It seemed sure death but he dodged from shell hole to shell hole and finally the barrage lifted.

"And what did you do when all this was going on?" he was asked. "I prayed," said Bancroft.

## WORK OF RED CROSS

### Loyal and Patriotic Women Continue To Aid Soldier Boys And Others

As heretofore stated, the Manchester Red Cross, which must be taken to include the townships of Bridgewater, Freedom and Sharon, were asked to knit 50 sweaters, 25 to be completed by the last of December and 25 the last of January. The ladies willingly undertook the task notwithstanding the holiday festivities would demand more or less of their time. They delivered the first 25 on time, as has been stated in The Enterprise, and went at the last half with perhaps more zeal than before, going "over the top" with a total of 56 sweaters.

Following is the list of those who worked and the number they knit. In this connection we will say that many who knitted but one sweater would gladly have done more but the committee desired to spread out the work as much as possible.  
Mesdames Wm. Dewey 13, Mary Way 2, Roy Lowery 2, Ida Logan 3, Clare Walter 2, George Walter 2, A. J. Waters 2, F. E. Spafard 1, Adam Schable 1, Ella Nestell 1, Herbert Hunt 1, Otto Wydeck 1, J. D. Gage 1, Albert Lowery 1, Esther Schable 1, J. F. Spafard 1, Clarence Dietle 1, Webster Logan 1, Elmer Stark 1, Misses Nettie English 4, Jennie Lowery 2, Winifred White 1, Katharine Spafard 1, Jennie Smalley 1, Sarah Lovejoy 1, Lillie Kulenkamp 1, Ida Kulenkamp 1, Ella Kulenkamp 1, Myrtle Reed 1, Marjorie Withersell 1, Gaita Waters 1, Julia Tirb 1, Amanda Tirb 1.

The ladies were again complimented on the quality of their work in finishing partly-made garments that were sent over here, also on the children's garments the ladies made and sent over.

A. J. Waters took a package of supplies to headquarters at Ann Arbor Tuesday.

## SOLDIER IS MOURNED

### Letters of Appreciation of Her Husband Received by Mrs. Graves From Company Soldiers.

Rimaucourt, France, Jan. 17, 1919.  
My dear Mrs. Graves: Being First Sergeant of this Company, I have known your husband since the time he first entered the army, which was very close to the time I received my commission, and it is because of this long comradeship with your husband that I have come to know him so well, that it is indeed painful for me to transmit to you the very sad news that he was suddenly called from this earth by his Maker.

He was killed in a motor accident. I was near him when the accident occurred and helped him to the first dressing station where he received immediate attention. His suffering was short and not severe.  
He was universally liked by his officers and fellow soldiers and his unfortunate death is a source of genuine sorrow to all of us. He was buried reverently by his comrades, the service being conducted by a chaplain of his own faith. He lies at the left of the road leading from Rimaucourt to St. Blin, one-half kilometer east of Rimaucourt, nearby where Base Hospital Unit No. 53 is located. His comrades felt his departure so keenly that their contributions for flowers were so profuse that the casket was completely covered.

With deepest sympathy to you and his parents from every member of the Company, I am sincerely yours,  
LAURENCE LIPMAN,  
1st Sergt. Supply Co., 330th F. A., France.

My dear Mrs. Graves: I wish to express to you my very sincere and deep sympathy in the loss of your husband. It seems hard especially after the fighting was over, that such a fine type of American manhood should have to be lost to our country and I want you to know how very deeply I feel for you in your great sorrow.

Personally, too, I feel it greatly and shall always miss him in the Company, as will all of the members, for he was a man of whom I was proud and could always depend upon. Quiet and reliable, he never shirked his work and was always the first to volunteer when anything was to be done, no matter what it was, and his example was an inspiration to the others.

In his commanding officer and in behalf of the Company, I extend you our sympathy in your bereavement and wish you to know how much we all will always miss him.  
Sincerely yours,  
HASHELL LOYES,  
Capt. 330th Supply Co., F. A., France.

## FISH FROZEN IN ICE

### You May Buy Ice And Fish at Same Time Next Season If You Lock Sharp.

While loading ice onto a wagon at the upper pond Tuesday morning, the men discovered a bullhead frozen in the middle of a cake of ice. That is something unusual and the weather must have changed mightily suddenly to cause water to freeze rapidly enough to thus catch a fish.

Wild-eyed Customer—"I want a quarter's worth of carbolic acid and I want it quick."  
Quick Witted Clerk—"This is a hardware store and we don't keep carbolic acid, but we have a fine line of ropes, revolvers and razors."

### THE NEAR EAST TO CIVILIZATION "SAVE MY CHILDREN"

## A BIG LAMB SUPPER SOCIETY VERY ACTIVE

### Young Men's Club Gives Supper in Honor of Returned Soldiers

Perhaps for many of the bachelor members of the club who had concluded to remove the ban on celibacy would have thought to have their wedding celebrated by old congenial companions, but Charles Burtless, the most extensive livestock dealer in this section of the state, and who was married at New York city last week and left at once for a honeymoon trip to Florida, furnished a fat lamb which the club baked and with other necessary "fixins" prepared a supper fit for the gods.

It was served at the club rooms Sunday at 6 p. m. about 80 covers being laid. It was a jolly party and all joined in testimonials of appreciation for the meat; they toasted the beautiful bride and congratulated the fortunate brother.

The soldiers also came in for words of praise for the good work they had done for Uncle Sam. A. J. Waters handed out the compliments in his most felicitous style.  
Then a telegram was sent to Mr. and Mrs. Burtless by the club and all voted the occasion a most enjoyable one.

## SENDS HIS GREETINGS

### Former Southern Michigan Man Has Prospered in North-west—Wants to Be Remembered.

J. J. Marr, who at one time was in the fence business and is well known to farmers in this vicinity, sends money for The Enterprise and adds: "Am now located in the Rose Glen valley, North Dakota, and on very fine land. If it could be set in lower Michigan it would be worth \$200 per acre. Three years ago it was owned by the Indians, but was opened up for homesteading and I wish you could see it now. I own 150 acres here and hired it broke last year and here is what it turned out: 1,750 bushels of wheat, 330 bushels of flax, 320 bushels of potatoes, which will bring me around \$6,000 when sold.  
Remember me to all, as I was in the fence business and was well acquainted with many Manchester farmers. Also formerly ran the Springville Lake mills."

## WAITING IN RUSSIA

### Former Manchester Boy Cables His Parents All Is Well With Them In North Country.

Lieut. Elbert C. Lewis of Ann Arbor, formerly of Manchester, who went overseas with the 85th Division and has been in Russia since August, where he is now on the staff of the judge advocate, sent the following telegram to his parents:  
Archangel, Feb. 8.—Safe and well. Received all your mail. Don't credit exaggerated reports about conditions here. White often. Lewis.  
From this we conclude that the 329th, which is in the vicinity of Archangel, in Russia, is in good condition.

## LOST MANY VALUABLES

### Former Manchester Ladies Victims Of Burglars in Their Home In Detroit.

The home of Mr. and Mrs. A. Hess on East Grand Boulevard, Detroit, was burglarized recently, furs, jewelry and clothing being taken, in fact the second floor of the residence was ransacked and all the more valuable articles taken. Mrs. Hess was formerly Miss Hulda Koch of this village. Her sister, Miss Bertha Koch, who lives with her, is wearing her fox furs only because the robbers in their haste dropped them in the middle of the room.

Mr. and Mrs. Hess had been to Toledo for a Sunday visit with Mr. and Mrs. William Schroeder and returned in the evening. Soon after their arrival a burglar alarm was sent to police headquarters by a neighbor who had seen suspicious characters around their premises, and it is now thought the robbers may have been up stairs in the house when the owners returned.

As the visitors stopped at nothing of particular value or quality on the upper floor it is thought they would have later taken silverware, etc. down stairs had they not been frightened away. The rascals were afterwards caught and found to be part of a gang of men and women engaged in wholesale burglary. Many of the stolen articles were sold in Jackson.

## WELFARE CLUB MEET

### Manchester Boosters Plan Another Goodwillship Affair for Next Thursday Evening.

Celebrating the second year of its existence, the Welfare Club will sit down to a banquet at the Manchester hotel next Thursday evening at the usual supper hour.

These banquets are planned as a get together feature and it is hoped each member of the booster club will be bubbling over with the best of good feeling and the spirit of comradeship, also that he will have his appetite whetted.  
There will be other things than something to eat. An orchestra has been engaged, and there will be speaking. Fred M. Freeman of Jackson, who was instrumental in organizing the club has been asked to act as toastmaster and has consented. The roving gentlemen of the village have also been invited to come and partake of the viands and add a word for the good and welfare of the club and the village. L. Whitney Watkins is also expected to be present.  
We learn there are to be seats for 100 at the banquet table and it looks as though those who wish to get in on the feast of good fellowship should procure their tickets early.

## HIGH MASONS MEET

### Sublime Degrees Exemplified—Three Councils Represented—Grand Lecturer Present.

Blanchard Council, R. & S. Masters and Clinton Council officers met with Adoniram Council at Masonic hall here Tuesday evening, and in the presence of Frank V. Hale of Pontiac, the grand lecturer, conferred the degrees upon Roy Blythe, Dr. P. A. Scheurer and Frank Higgins.  
The meeting was greatly enjoyed. A smoker followed. Within a few weeks another assembly will be held and degrees conferred.

The Star Chapter will meet Friday evening.

## WARNER'S Rust-Proof Corsets

To Be in Fashion you should wear a Warner's Corset, a comfortable fitting corset, a fashionable shaping corset and a corset guaranteed to wear without rusting, breaking or tearing. When you discard a Warner's it is because you wish a new one.

Come and See the New Warner's Rust-Proof models for growing girls and slender figures. We have a wide assortment for these types as well as for women of the larger and average type. If you have never worn a Warner's you will find them figure-beautifying models.

Select a Warner's Brassiere. It is designed to fit, to wash, to wear. It performs two functions—completes the shaping of the corset about the waist and adds attractiveness to the blouse.

Chas. Sloubart, who is now railroad agent at St. Louis, was in town Sunday. He likes his work there very much.

Mrs. Irene Niele came down from Jackson last Friday afternoon and visited her parents at the Blosser home.

We learn that Miss Marie Kirshofer has been in with influenza at Hollywood, Cal., but is able to be about again.

Fred H. Blosser drove to Chelsea Saturday afternoon to meet his wife who had been in Detroit for several days.

Rev. Johnson was taken sick last week and has been unable to attend his church duties. He is somewhat better now.

Mrs. Carl Lehr, who came from Detroit to attend the funeral of her brother, Ralph Kimble's wife, returned home Saturday.

Mrs. Carrie Bryant of North Adams, who has been visiting her niece Mrs. Willis L. Watkins, several weeks, has returned home.

Mrs. Luella Braun accompanied by Norma Beule of Ann Arbor spent Sunday at the home of Robert Beule in Niles.

A. J. Waters, T. J. Farrell, E. D. Root and G. H. Breitenweiser attended the republican county convention at Niles.

Mr. Roy Blythe came from Camp Custer Tuesday morning to attend the assembly of Adoniram Council R. A. S. M. and visit friends at home a few days.

Many were pleased to shake hands with Lewis Louie on the streets Monday afternoon and congratulated him on his improved condition after being confined in bed so long.

Mrs. Kate Conklin, who has been visiting in Minnesota, Chicago and Alton, returned home last Friday.

Handy work was done in the country they came from or the one they would as better than this.

Women cooks have become so accustomed to the use of substitutes for wheat flour during the war that they are now unable to do without it. Some of the substitutes are so good that they are not better so long as they can get good wheat flour. American people who are little difficult in learning an easy living have been too apt to be extravagant when it comes to the use of substitutes for good food. It can be made by use of substitutes and if one can save in one way we have that much money to spend for something else.

In our rounds in search of news the Enterprise news gatherer stepped into the mill a few days ago and found the general manager and editor sitting comfortably seated beside the office stove reading. On inquiry as to how the business was getting on, the editor smiled and said: "I was studying the government food regulations and the restrictions on flour upon millers are simply awful and how some mills can get away with it and still make a profit is a thing I am trying to figure out." We left him to his cares and returned, saying unkindly to him that we had our own keeping up with government regulations.

People who have the desire to see and study the wonderful machines which caused such destruction in Belgium and France will have a rare opportunity by attending an exposition to be opened at Detroit next Thursday and continued until March 2nd. A large amount of war trophies such as British rifles weighing 34.00 pounds, a 210-millimeter field gun, queen piece of the Krupp, the largest captured in the world, and other trophies from this country; a huge naval gun from the Emperor; a French whippet tank that preceded the American marines into action at Chateau Thierry. There are about 1,000 pieces of war material, every type of trench weapon used, and the development made during the war. The exposition is to be at the Wayne gardens. A daily train will be run from Detroit to a band of 60 pieces from Great Lakes training station. The marines will be moving pictures of war scenes, etc.

A pleasant gathering was held at the home of Mr. and Mrs. Andrew Braun in the village on Saturday, Feb. 8, at which were present: Mr. and Mrs. Wm. Beuler's 50th birthday. Those present were: Mr. and Mrs. Wm. Beuler, Jr., Mrs. Clarence Beuler and wife, John Beuler, Mrs. Wm. Schuller and family of Freedom; Mr. Frank Beuler and sons of Lodi; Robert Beuler and family of George Beuler and daughter of Ann Arbor and Wm. Braun and family of Manchester.

Harry Crook who was here a few years ago working in the Manchester Auto Co.'s garage and who has been in the Pacific States will be given an aviation course, arrived home and has been on his way visiting his folks and old friends in Niles. He and his wife and gave The Enterprise, Will Holmes and other friends a visit. Mrs. Crook who has made her home in Jackson, Mich., accompanied him to New York as Harry expects to get his discharge very soon. Harry enjoyed his trip to France but had an opportunity only to visit Paris.

**SPEAKS WELL OF US**  
Indiana Paper Tells Its Readers About Smart Michigan Town It Knows.

We dip the following from the Community Magazine, a paper published by the Community Chautauks:  
"The water appears as a looking glass and on the other side a roaring, scolding sea. Surrounding this sea is a farming country of thirty people. Manchester is said to have more wealth to the square inch than any town of its size in Michigan. The town is built of stone and brick in the business section and has many fine residences. From Manchester and its schools have gone many well known men. Captains Charles and E. F. Allen, minister and lawyer of heroic Civil War fame, lived here; A. F. Freeman, of the state tax commission fame, was a resident; Capt. John K. Robison, commander of the ship which led the American navy to the Philippines, was born here; the administration, was a boy in Manchester, and Dr. Thomas Moran of Purdue university was educated at this village school. It is a town of excellent schools, fine Lutheran, Catholic and Methodist churches, and a worthy citizenship."

**SUCCESSFUL FIRE DRILL**

High School Under Perfect Discipline Results in No Accidents No Damage Done.

We have heard many compliments for Supt. Andrews for the splendid manner in which he arranged his fire drill and it worked so neatly that the pupils were unaware that there was a fire drill. Another thing that was noted by the principal was the fact that the high school boys quickly organized a fire drill and attacked the fire on the roof in such an effective manner that they had it well under control before the fire department arrived.

In this connection The Enterprise notes that only a few minutes ago the school was in the midst of a fire drill. The fire drill was held in the school building. The fire drill was held in the school building. The fire drill was held in the school building.

The banks were closed Wednesday that being Lincoln's birthday, and a legal holiday in this state.

Mr. William Bartless received a box of oranges from his son Charles, sent from Palm Beach, Florida.

The weather since Tuesday morning has been moderate, in fact it is occasionally, but not enough to really cover the ground, and in a few hours it will get a little drier.

The creamery has secured about half the quantity of ice required to carry it through the season, but Mr. Sorber hopes for another shipment of ice from the Lake States.

John Rowland is going to the city to see the lower pond Monday morning, cutting ice to fill his house. The ice was 10 inches thick and very clear.

Friday will be St. Valentine's day and the children and youths are expecting to send one or more of the mysterious mislaid-took-why, we can't give that away.

A gang of men started in Monday morning cutting and hauling ice to fill George Hart's pond. The ice was 9 inches thick and of very good quality.

Mrs. Enoch Silkworth has rented her farm west of the village to the Eisele of Freedom. The farm is at present occupied by Albert Faidkamp who recently bought the 224-acre farm. The changes will probably take place about March 1st.

The Academy of Forty met in a very pleasant and profitable assembly with Mr. and Mrs. Ed. E. Root on Tuesday evening. The program featured a paper on Michigan by Miss Bessie Powers, and a trip to the Greenman farm, Mr. Arthur Freeman and Mrs. Gottlieb Jacob.

The Women's Relief Corps had in installation of officers Tuesday evening and the Grand Army boys were invited to be present. Some members of the corps and post were unable to be there on account of sickness, such to the regret of the friends. McCord acted as installing officer and every member in a very satisfactory manner. A supper was served and short speeches were made by various members, all of which was enjoyed.

The 50th Century club held a meeting with Mrs. E. E. Root last evening. It was in honor of St. Valentine and proved a very lively and pleasing affair. Members came in costume, representing famous general senators and five ladies were participating very cleverly taken. With all the attractiveness of dress and the program was not forgotten, and altogether it was a meeting well to be remembered. Retirees were served.

The W. C. T. U. met Wednesday afternoon at which she is truly an interesting and very instructive affair. Women's suffrage was perhaps the leading subject discussed and explained. Every woman qualified to vote expects to do her duty and that she is truly an American in sentiment and in fact. They expect to oppose the amendment allowing both men and women to vote with every ounce of their strength they declare, and want the help of all law-abiding and peace-loving citizens.

The group meetings in the interest of the Centenary Movement, held at the M. E. church last Thursday afternoon and evening, were held as well attended as it was hoped they would be. There was a considerable interest manifested. Short talks were given in the afternoon by Revs. Roy C. Scott of Niles, L. H. Kellogg of Tinton, N. M. Combs of Bridgeport, F. M. Purdy of Clinton, also by Wm. Gadd of Bridgeport, Dr. Munser of Detroit and by Rev. J. W. Purdy of the Methodist district superintendent, Dr. Fruit, took his place, giving a fine address.

**WOMEN TO REGISTER**

Instructions Every Woman Should Read Carefully Before Attempting to Vote.

The Republican county convention was held at Niles on Wednesday, Feb. 13, 1919. Victor E. Van Ameringen was re-elected chairman of the county committee and Dr. W. F. Patton of Ypsilanti, secretary.

All-Union party commendatory resolutions were passed, also a strong one regarding Theodore Roosevelt. Roosevelt made a speech supporting the resolution and announced that Mr. Campbell attended a Republican convention in Ann Arbor 62 years ago, which was worthy of note.

A. J. Waters made a speech explaining that there was a strong movement on foot to place some risk farmers on the board of agriculture and that the farmers of the county were to be elected by Mr. Dora H. Stocking to the board of agriculture.

Registration is a listing, for use on election day by election inspectors, of all qualified voters. This is done to prevent illegal voting. The City Clerk or Township Clerk is the official before whom you must register. In order to be sure you can vote on April 7, 1920, you must register on or before that date. You do not have to write out any statement. The County Clerk will write the proper matter in his book.

You must register in your own name. You do not have to give your age. All you need to do in that regard is to state that on election day you will be 21 years old or upwards. You must give your residence and street and number, if any.

A woman born in the United States is not a citizen unless her parents were citizens or not, but a woman citizen of the United States who marries an alien loses her citizenship by reason of said marriage and she cannot vote thereafter unless she becomes naturalized through office proceedings. The naturalization of her husband alone would not be sufficient, nor would the death of her alien husband restore her to citizenship. A subsequent marriage to a United States citizen would, however, make her a citizen.

7—In order to vote in Michigan a woman must be:

(a) 21 years of age or upwards on election day.

(b) A resident of Michigan for six months prior to election day.

(c) A resident of the township, village or ward for 30 days prior to election day (except in case of change of residence from one precinct to another in the same ward or township).

(d) A citizen of the United States, the wife of a citizen of the United States, or the wife of an alien who has been naturalized in the United States at least two years and six months prior to election day, and who, at the time of her naturalization, declared his intention to become a citizen.

10—Any former registration of a woman to enable her to vote on a ballot in any election held at school meetings, is not sufficient, and a woman must register with the City or City Clerk now to entitle her to vote at an election.

11—On April 7, 1919, the voters of Michigan will vote, not only for the members of the Legislature and local officers, Justices of the Supreme Court, a Superintendent of Public Instruction, and members of the State Board of Agriculture, Members of the State Board of Education and Regents of the University, but they will vote upon several important amendments to the Michigan Constitution, including an amendment relating to the liquor traffic and an amendment providing for good roads. More than half a million women should register in Michigan between the present time and April 7, 1919.

The Republican county convention was held at Niles on Wednesday, Feb. 13, 1919. Victor E. Van Ameringen was re-elected chairman of the county committee and Dr. W. F. Patton of Ypsilanti, secretary.

All-Union party commendatory resolutions were passed, also a strong one regarding Theodore Roosevelt. Roosevelt made a speech supporting the resolution and announced that Mr. Campbell attended a Republican convention in Ann Arbor 62 years ago, which was worthy of note.

A. J. Waters made a speech explaining that there was a strong movement on foot to place some risk farmers on the board of agriculture and that the farmers of the county were to be elected by Mr. Dora H. Stocking to the board of agriculture.

Registration is a listing, for use on election day by election inspectors, of all qualified voters. This is done to prevent illegal voting. The City Clerk or Township Clerk is the official before whom you must register. In order to be sure you can vote on April 7, 1920, you must register on or before that date. You do not have to write out any statement. The County Clerk will write the proper matter in his book.

You must register in your own name. You do not have to give your age. All you need to do in that regard is to state that on election day you will be 21 years old or upwards. You must give your residence and street and number, if any.

A woman born in the United States is not a citizen unless her parents were citizens or not, but a woman citizen of the United States who marries an alien loses her citizenship by reason of said marriage and she cannot vote thereafter unless she becomes naturalized through office proceedings. The naturalization of her husband alone would not be sufficient, nor would the death of her alien husband restore her to citizenship. A subsequent marriage to a United States citizen would, however, make her a citizen.

7—In order to vote in Michigan a woman must be:

(a) 21 years of age or upwards on election day.

(b) A resident of Michigan for six months prior to election day.

(c) A resident of the township, village or ward for 30 days prior to election day (except in case of change of residence from one precinct to another in the same ward or township).

(d) A citizen of the United States, the wife of a citizen of the United States, or the wife of an alien who has been naturalized in the United States at least two years and six months prior to election day, and who, at the time of her naturalization, declared his intention to become a citizen.

**SIXTY BILLION DOLLARS IS UNCLE SAM'S INCOME**

Figures mean little when they run up to eleven places, but it is comforting to think that the national income for 1918 amounted to \$60,000,000,000. This is double the total of 1910. It shows the enormous stimulation of activity under the stress of war. More than that, it gives a slight idea of the immense potentialities of the United States.

Sixty billion dollars a year means \$80 for every man, woman and child in the United States. The New York statisticians figure that the total wealth of this country is now double that of England and the national income is more than double that of England.

There seems to be no reason why the American people should not subscribe to the Government War Savings Campaign. With sixty billions a year income we ought to be willing—yes, eager—to "finish up the job" and wipe out all war debts.

Captain Anderson Dana, who has just returned from the streets of London, grandson of the journalist, Charles A. Dana, has an interview for his "My grandfather believed in marriage. He thought it steadied a man's nerves and made a story he used to tell."

asked a man:  
"Have you ever heard anything about the man who is telling you that his wife is lying?"  
"Here," said the man.  
"There's no man or woman," said the chap.  
"Here," said the man. "By gosh, I married one!"

C. J. Foster, who was the county school commissioner two or three terms before Supt. Evan Esberry took the job, will like to have another turn at it and has been circulating a paper among acquaintances to become a member of the Board of Education. Mr. Esberry were school mates at the Normal school.

**CELEBRATION**

George J. Niles and family left Sunday morning for Jackson, going by way of the Farm hotel at Niles, as George was anxious to get home and cutting and storing ice for next summer's use.

Mrs. A. A. Snowman has returned home from an absence in Detroit since the holidays. What started as a nursing visit developed into a nursing in patients among her relatives.

Mr. and Mrs. Bert Knowles and Mr. and Mrs. M. B. Wallace of Adrian drove up here last Friday in Mrs. Knowles' new car and spent an hour calling on friends. Mrs. Wallace favored the Enterprise with a call.

We learn that Dr. Klopfenstein has sold his home on Eason avenue. His new home is in the village. He has lived since moving from Manchester, and aims to buy another house near his old home.

C. W. Cass drove down to Wm. Gadd's in Bridgeport Sunday to visit them and found Mrs. Charles Robinson and daughters of Ann Arbor there, so they took them to Chelsea where they took an interurban car for home.

Fred Blosser and George Niele drove to Chelsea last Friday afternoon and made several calls among their friends at the printing offices and the plant which is managed by Fred's classmate, Leo Freeman. They will have a rare opportunity by attending an exposition to be opened at Detroit next Thursday and continued until March 2nd. A large amount of war trophies such as British rifles weighing 34.00 pounds, a 210-millimeter field gun, queen piece of the Krupp, the largest captured in the world, and other trophies from this country; a huge naval gun from the Emperor; a French whippet tank that preceded the American marines into action at Chateau Thierry. There are about 1,000 pieces of war material, every type of trench weapon used, and the development made during the war. The exposition is to be at the Wayne gardens. A daily train will be run from Detroit to a band of 60 pieces from Great Lakes training station. The marines will be moving pictures of war scenes, etc.

**MUST BE AMERICANS.**

Members of the graduating class of the University of Porto Rico are petitioning in a petition to the legislature asking that a memorial to President Wilson be so amended as to make a definite demand for independence of Porto Rico, and they are all fearful that this action may prevent them from getting positions at George. Since the war with Germany it is evident that the government of the United States expects all citizens to be loyal to it. In all positions sought hereafter the past history of candidates will be closely scanned. We have been too lax in this regard. It is the conviction.

The unsual fashions of yesterday do not exist today. The woman who would spend her time and money on a dress of the past would be a laughing stock.

Women have discovered that they do not want to look like the women of the past.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book 1919, just published which is brought out to the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

THROUGH THE LOOKING-GLASS

Soft Suede Is Brought Out for Spring Jackets.

Pliable Material May Be Dyed in Seasonable Colors and Will Admit of Alluring Combinations.

By EVELYN NESBIT.

The unsual fashions of yesterday do not exist today. The woman who would spend her time and money on a dress of the past would be a laughing stock.

Women have discovered that they do not want to look like the women of the past.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book 1919, just published which is brought out to the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

13 Dollars—13 Cents

When Swift & Company paid, say, 13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

At Least 75 Per Cent of Grade Crossing Casualties Could Be Prevented.

BRIEF REVIEW OF SITUATION

Most-Common Cause Is Inability of Driver of Motor to See Approaching Train

Comments on the annual report of Commissioner Gordon of the California State Railroad Commission.

Before considering the remedies for crossing accidents it may be profitable to review the situation briefly.

In the first place we are warranted in assuming that a very large proportion, certainly 75 per cent of such accidents are avoidable.

The host and hostess were presented with a pair of woolen bed blankets. Mr. and Mrs. Brandt leave for their new home in Jackson in the near future.

### Do You Perspire Freely?

Why should you buy borated Talcum Powder to prevent perspiration odors when you can buy the pure Boric for less money? It's the boric acid in talcum powder that does the work. Then, use the pure thing—20 Mule Team Powdered Boric.

It has a soothing effect on the skin—it is an antiseptic as well as a deodorant and does not clog up the pores as most talcum powders do.

Use 20 Mule Team Powdered Boric and save yourself the embarrassment of perspiration odors. A little of this preparation sprinkled in the bath water will work wonders.

20 Mule Team Powdered Boric is sold at all good drug stores.
