NOT DONE FOR PROFIT

Municipalities Should Serve People At Cost Says Expert in Speech At Detroit.

D. L. Turner, chief engineer of the New York service commission, was called to Detroit to discuss construction of a subway system there with the mayor and city officers and told them the city

did not need any subway system, but only "dip" subway in the down town district to take care of the surface cars. In the discussion Mr. Turner said: "Cities should not expect profit, should not expect their investment in transportation systems to pay them any money. They should charge up transportation to community service, just as they pave streets, lay water pipes and furnish sewers, for the social welfare of their inhabitants. "That a street car system should pay a city a reasonable return is the false basis that all cities work on, and must abandon," said Mr. Turner. "Convenient and adequate service for every part of your community is what your city wants," he said. "Everything else is secondary—even financial consideration. "You cannot accomplish the ultimate at one step or stride. It must be evolutionary, but you must lay out a definite plan, and follow it over a period of years. "No municipal transportation plan can expect to give proper community service to every individual and expect to be a good business proposition. It can't be self-supporting if it is good enough to take care of everybody."

MANY DIVORCE CASES

Washtenaw County Divorce Mill Is Grinding Strong—100 Suits Since January.

Washtenaw county may not be different from others but the records show an increasing amount of "family trouble." More than 100 actions for divorce have been started in the circuit court at Ann Arbor since January 1, 1919, and 42 absolute decrees have been allowed by Judge Sample in cases brought for hearing within that time.

Reasons for the suits are of course many and varied and the principals are listed from all parts of the country—from Florida to the West. However in the majority of cases the parties were married and lived in this county—Ann Arbor and Ypsilanti being about equal in number of cases.

More husbands than wives have begun suits for separation. In many cases men and women left home and failed to return.

A FUTURE "WORLD CHAMP" PREPARING FOR STATE FAIR PHYSICAL CULTURE CONTEST

WALTER J. HORTON.

Walter J. Horton, 6 years old, of 553 Canfield avenue west, Detroit, is preparing for the annual physical culture contest held in connection with the Michigan State Fair. Walter is a champion, having won first place in his class last year. He stands 3 1/2 feet high and weighs 47 pounds. Physical culture experts, who conduct the contest, each year, declare he is a perfect specimen of boyhood. At the fair, this year, to be held in Detroit from August 29 to September 7, hundreds of boys and girls and men and women, who are working for physical betterment during the summer, will be seen in these contests. G. W. Dickinson, secretary-manager of the fair association, gives this department his personal attention.

Certain U. S. senators were very bitter toward President Wilson because he would not divulge to congress the whole facts of the League of Nations and the peace treaty and now they refuse to give out their reasons for not accepting the treaty and the league plan. Is it consistent!

CHILD IS BITTEN BY DOG

Unfortunate Affair Forces Doctor To Kill Animal Friend Rather Than Be Criticized.

Dr. P. A. Scheurer's dog Spike, his companion on all driving through the country and much admired for his good nature and good behavior, was killed by the doctor last Thursday after he had bitten the cheek of a five-year old son of Mr. and Mrs. Theodore Uphaus, who live a couple of miles west of this village.

It seems the doctor was called to the Uphaus home to attend a lady who with her husband was driving from Clark's lake to Ann Arbor. Being attacked by heart trouble on the road they had stopped at the Uphaus home and called the doctor. When he arrived the dog was left in the auto as usual and it is well known that at such times the dog considered the car his special charge. The child evidently climbed on the running board in a spirit of childish investigation and on reaching up to the window was bitten on the cheek. Though it seemed as though the dog was attending strictly to his own business, rather than have any controversy over the matter, after making his second patient as comfortable as possible the doctor drove home and immediately sent his dogship to dog heaven.

ROBBERS AT BROOKLYN

Looks Like Second Visit of Robbers Who Were Successful There A Few Weeks Ago.

The burglars who successfully carried away a good part of Joseph North's stock in Brooklyn a short time ago evidently liked the fit of his garments and thought they would come back for more. At least the store was given a call Monday night.

Since the previous theft Joe and a companion have been sleeping on the premises with the intention of capturing or frightening anyone who thought of repeating the performance. One of the men was captured.

It is said that the two thieves gained admittance by the cellar, came up stairs and opened the back door so as to have an easy exit in case they wanted to leave in a hurry. And growing suspicious they did leave hurriedly, in fact with such speed that a fuselade from shotgun and revolver did not overtake them, though the windshield of an auto in which a man and woman were resting

Wm. H. Every of Bridgewater, Barney Bertke of Freedom and A. J. Waters of Manchester are among the members of the advisory committee.

Great Britain's peace celebration at London began last Friday, most of it being in honor of Gen. John J. Pershing and the American troops who participated in the victory parade Saturday. Gen. Pershing reviewed the American troops and conferred the Distinguished Service medal on 80 British officers, most of whom were generals. At Guild Hall the city chamberlain presented a sword of honor to Gen. Pershing and the general delivered an address of thanks. At the Mansion House calls were made for a speech and the general appeared on the balcony above the square and acknowledged the compliment. He also attended a banquet at the Mansion House.

Plenty of Entertainment At the Chautauqua, Too

Never since men first planned to carry the very highest type of entertainment to communities such as ours by means of the "big top," has a Chautauqua program offered as high a standard or as great a variety of entertainment features as will be presented this year.

Geographically the program stretches all the way from Scotland to Hawaii—or Harry Bennett's Scotch Entertainers feature the costumes, the comedy, and the melody of the Highlands and the Royal Hawaiian Singers and Players offer the weird music of the tropical islands.

Hettie Jane Dunaway brings her great triumph—the tabloid drama "Just Plain Judy" adapted from the stage success "Daddy Long Legs"—and presents all the characters herself.

The Mozart Orchestral Ladies present a widely varied program of concert numbers that has more than the average appeal.

And Victor's Columbian Band—in a collection of great ensemble numbers, descriptive pieces, picturesque musical novelties, solos and rich instrumental groupings, winds up the week with a grand festival of music.

Delicate Mechanism

Despite its name Swift & Company is a business of finite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.
