## HO, FOR COUNTY FAIR

Tuesday, Sept. 16 to Friday, Sept. 19. Will Be Great Days in Ann Arbor.

The first day of the new Washenaw county fair will be called victory day in honor of the soldier and sailor boys who helped save the world from autocratic oppression. Everything will be free to the boys in uniform.

A company of soldiers and seven carloads of war material from Camp Custer will be there. Airplanes will fly over the city all day. A barbecue will be served to the boys at noon.

noon. After dinner that horse that races unguided against competing horses will give one of those wonderful exhibitions. Athletic sports for prizes between soldier boys will make lots of fun. There will also be boxing.

A Chicago fireworks company has guaranteed to give the finest display of set pieces ever shown in the state, during the afternoon and evening of the first day of the fair.

Farmers, manufacturers and merchants will have large exhibits of all kinds of stock and products on exhibition throughout the week. Many special prizes have been offered to encourage boys and girls, as well as the older people.

The fair opens Tuesday with the victory celebration and closes Friday night. Help to boost the fair and make it a success from the very first.

## VISITS HIS OLD HAUNTS

Well-Known Clinton Man Answers Beckon of West and Takes Trip to Mines.

James Hogan of Clinton, who is well known to most of our farmers, readers at least, as he has been a resident of Bridgewater and Clinton for many years, and is a member of one of the leading stock-buying firms in Lenawee county, is now sojourning in the west. Way back in 1863 Mr. Hogan left the east in search of gold in California, making the perilous trip "around the Horn." He wandered up into Nevada, lured by the stories of great fortunes gained in that land of glittering ore. He got a job in the Minnesota mill and lived and worked at Washoe City until he knew that whole country like a book. He was there when Nevada was admitted to the union and voted in the first state election, and a Democrat ticket at that, though they didn't want to let him. The mine owners

were Republicans and their men were supposed to vote as they wanted 'em to, but Jim was—they called it obstinate—and insisted on voting a Democrat ticket, even if they threatened to discharge him. Democrat tickets were hardly worth counting that day, but it's different now.

Mr. Hogan left Nevada in 1887 and located in Bridgewater and became a leading and well-to-do farmer, finally relinquishing in favor of his son Wilbur to make his home in Clinton. For years he longed to go back and see what the country looks like. He is there now and the Reno Evening Gazette man found him and made a story of what he had to say about old times in Galena, Ophir, etc., in the Washoe valley. Reno did not exist then but he remembers the location and was surprised at it all. The Truckee Meadows were a marsh and of no apparent value to gold diggers and Mr. Hogan says that he could have bought with a few dollars what now represents many millions.

### LEADING UP TO IT.

He called his typist to his office. "Miss Keytab, you dress neatly and you have a well modulated voice. I might add that your department is also above reproach."

"Thank you very much, sir. But I don't think you should pay me such compliments," answered the blushing girl.

"That's all right," said he. "I was just leading up to the point of telling you that you don't seem to know a comma from a colon, and your spelling is simply rotten."

The man who makes a suggestion for the betterment of the business in which he is employed, even if he is dead wrong, is worth two of the chap who does as he is told and plays safe.

Mrs. Raynor B. Haussler is visiting her sister, Mrs. Rebert, at Fremont.

## EXTENDS FISHING RIGHT

Fishermen Have Right to Go on Private Lands Along Streams.

An opinion by Attorney General Groesbeck has just been rendered which is of deep interest to fishermen.

The attorney general rules that the general public has right which the private owners are bound to protect, and that a private owner of contiguous lands has no right to fence them in so fishermen cannot get along the streams to fish.

It has been brought to our attention that farmers have been posting the Huron. Under this ruling the notices are of no value and fishermen can fish on posted land without breaking any law so long as they respect property rights.

We read in the paper the other day that one of the big shoe makers was having his shoes half sold. He said that shoes at \$14 a pair were too expensive for him to wear; that he had not bought a pair of new shoes in two years and intended to get along with his old shoes as long as he could. Thoughtful people will see that he expects that the price of shoes will come down before he will be obliged to buy a new pair. But what do we find the average person doing. Instead of economizing as that shoes manufacturer does, why look at the feet of the ordinary person, your not too well off neighbor, for instance, yes look at your own feet and behold they are adorned with a new high-priced pair of footwear. Yet people are complaining about awful high prices.

A truck equipped with U. S. pneumatic tires in 1911, is on a 5000-mile trip through the farming district to give motor truck owners visible proof that motor trucks which run on pneumatic tires live a longer time. The United States Tire Company is said to be the first to experiment with and make this type of tire. Every truck owner knows that a truck which has given steady service since 1911 has something remarkable about it. The average life of a truck does not exceed over any such period and there are few, if any, trucks which were in operation in 1911 which did not find their way to the scrap heap long ago. But these trucks which put on U. S. pneumatic tires in 1911 are still in active duty showing that pneumatic tires add many years to life of trucks.

## Many Extra Miles

We can show you—and prove to you—that there is a genuine money saving in the use of United States Tires.

The extra miles they give mean just so many extra dollars counted in real money. And there are further actual economies in the saving of gas, oil, repairs and depreciation. The reason of all this is in the tires themselves—their liveliness, ruggedness and sturdiness.

There are five United States Tires—a type for every make of car.

## United States Tires are Good Tires

We know United States Tires are good tires. That's why we sell them.

**For Is or Theorists— which!**

The packing industry is intricate, complex—far more so than the railroads or the telegraph. Every day multiplying needs of society increase its problems and multiplying responsibilities demand more of it.

Highly trained experts, specialists of years' experience, thinkers and creative men, devote their lives, their energies, their activities, to solving the problems of the packing industry and meeting its widening duties.

Swift & Company is not a few dozen packing plants, a few hundred branch houses, a few thousand refrigerator cars, and a few million dollars of capital, but an organization of such men. It is the experience, intelligence, initiative and activity which operates this physical equipment.

Can this intelligence, this experience, this initiative and creative effort which handles this business at a profit of only a fraction of a cent per pound from all sources, be fostered through the intervention of political theorists, however pure their purposes? Or be replaced by legislation? Does Congress really think that it can?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

## WAMPLER LAKE

A gay time was had at the dance pavilion of The Farm last Wednesday evening when guests of the hotel and cottagers joined in a masquerade dance.

Every sort of character seemingly, from a bride to the bolo man was represented, and even Charlie Chaplin came. It was an impromptu affair and every nook and corner was searched for material fit for camouflage.

Everyone was in the best of spirits and the evening proved a most happy diversion.

The first winter has struck the lake, though many guests at the hotels hurry home with the going of hot weather, Dame Nature smiles sweetly and holds a fascination for lovers of the out-of-doors.

We may soon expect to see some good catches of pickerel, as September is a favorite month for fishing for this variety.

'Tis said that, having shed their teeth and acquired a new set by September they are keen for biting.

Many visitors to the lake drive over the Irish hills and are enthusiastic over the beauty of the scenery. But comparatively few know what additional attraction a continuation of the drive west and south a few miles to "Prospect Hill" offers.

The roads are fairly good and cars have no difficulty in reaching the top, which is the highest accessible point in southern Michigan.

The scene from its summit is declared by travelers to be one of the grandest in the country. One can look for miles and miles in any direction.

A concerted action should be taken to improve the road running around the lake at the foot of Cedar hill.

Henry Lentz started the job two years ago and has probably done his share, as we understand, without assistance. The road is not now as good as it should be, though a small amount of labor put in by the would work wonders.

A machine was stalled there Monday while attempting to let another get past and was gotten out only by the help of several who were held up by the blockade.

The other road coming north from the pike at Evans lake is not ideal by any means. One or the other should be made first class.

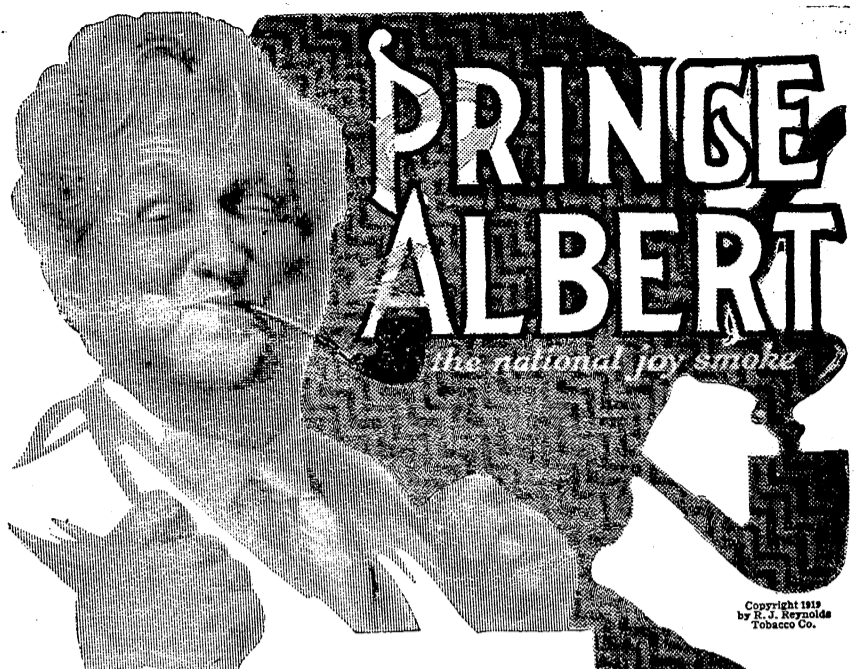

I am still in the stock shipping business and patrons may telephone me after 6 o'clock p. m. Call phone 75-F12. Wm. F. Rehfuss.

# Why Have Tractor Troubles?

**L**UBRICATING oil is inexpensive — the cost of a burned-out bearing will pay for the lubricants necessary to keep the machine in order for months. The Standard Oil Company (Indiana) manufactures three lubricating oils for tractors—

- Heavy Polarine Oil**
- Stanolind Tractor Oil**
- Extra Heavy Polarine Oil**

One of these three is the correct oil for your tractor.

Our Engineering Staff has prepared a chart showing which one will give the best results in your particular tractor. The nearest Standard Oil representative will be glad to show it to you.

Write for "Tractor Lubrication," which you will find a valuable reference book of 100 pages and we believe it will save you many days of tractor idleness with the resultant money loss.

The Enterprise did not mean to overlook Sharon in giving an account of the Victory parade last week. It was Sharon that had a decorated car, and not Freedom. The mistake was probably made in calling off the cars as they passed the office. The drivers persisted in running their cars too close to the one in front of them and it was difficult to write the names as fast as the cars passed by. Sometimes it was almost impossible to tell what the cars represented. Sharon did its full duty in all war measures, as far as we know, and we regret that she did not get full credit at our hands.

The personnel of the Manchester Auto Co. underwent a change last Friday when R. E. Ross, who had been associated with Elmer F. Klump the past few months, withdrew and his interest was taken by Clarence Lindbert. The new member of the firm has been operating the merchants' delivery in this village the past two years and this business will be continued by the auto firm with I. E. Davison as deliveryman. With the Buick and Dodge Brothers lines in their hands we bespeak for the new firm a splendid success. Mr. and Mrs. Ross will return to Detroit.

One of the most unique and perhaps convenient and comfortable motor conveyances we have ever seen stopped here at noon one day last week. It resembled a Pullman sleeper except for size, was painted white and furnished in first-class style throughout, even to a refrigerator. The engine was of great power and the chassis was fitted with seven-inch pneumatic tires. The entire outfit had a look of refinement and comfort. Its cost was over \$6,000 and it belonged to a gentleman from western Pennsylvania, who with his family was touring west.

A Clinton man rolls up in a blanket and lies down in his watermelon patch nights to keep the boys from stealing his melons. He don't need to have a lantern because every time he lights his pipe the boys know where he is.

Farmers and other people in this section of Michigan will be obliged to buy apples raised in other sections, if they have apples for winter consumption, because the crop is very light. Trees in most orchards show neglect.

George Dickerson was a pleasant caller at The Enterprise office last Friday morning while in town calling on old friends. Mr. Dickerson lived here many years, his father was Amos Dickerson who owned the old foundry and machine shop on the middle dam. He was a zealous Methodist but he and his wife passed on many years ago. George is working in the Michigan Central freight yards.

Mr. and Mrs. Ed. Logan and Mrs. J. R. Sloat enjoyed an auto trip to Rockford, where they visited Mrs. Charles Becker and children. Mrs. Becker was a sister of J. R. Sloat and Mrs. Milo Carpenter and she and her sons and daughters have been occasional visitors here. They own about 800 acres of land about eight miles northeast of Rockford. Returning, the auto party visited Kalamazoo, Camp Custer, Battle Creek, Marshall and Jackson. They found the roads good with occasional exceptions.

James Kelly had his regular monthly trip to Ann Arbor, Tuesday, where he met other comrades comprising the County Soldiers' Aid Commission. Perhaps few men on the shady side of a century old would care in have the responsibility but James does not feel that way. If he can do something for a comrade he is ready to go unless prevented by health or weather, because he can keep in touch with the nation's progress by conversing with the boys from various parts of the county.

### BRIDGEWATER

W. H. Every is graveling driveways around his residence, making a decided improvement.

Herman Wiedman was the first in this vicinity to fill his silo, having done it last Friday with Ben Feldkamp's outfit.

The Heim brothers are enjoying a visit from their niece, Mrs. Sarah Turner, of Marysville. She has not been here in many years. When a girl she lived in Macon.

Edward Traub and family of Chicago have been visiting cousins in this township, among whom are Mrs. Jacob Maurer, Mrs. Elmer Johnson and Mrs. Whitney Palmer.

The job of putting in the No. 2 Bridgewater drain was let for \$10,000, to the same company that dug the Saline river drain a few years ago. Osar Reiser will build the cement bridges at a cost of \$2,444.

A lawsuit between John T. Stoner of Clinton and Fred Randall of this township was tried in the town hall Tuesday and most of the big men of the community were there, as it was an event not witnessed here since the days when Esquire McDougall held court. It was a jury trial and was about the qualifications of a certain horse sold to Randall, payment for which Stoner brought suit. Rathburn of Tecumseh represented Stoner and Waters of Manchester looked after Randall's interests and secured a verdict of no cause of action.
