## BOOKKEEPING ADVISED

Book Account of Transactions And Affairs Necessary to Farmer's Success in These Times.

Only by better management can Michigan farmers meet the problems forced upon them by present high costs, declare experts who have studied conditions in the state. Increased prices on everything the farmer uses are forcing growers to make the best possible use of their investments, and many are now keeping account books in an effort to find the profitable and unprofitable branches of their business.

Charles H. Graves, farm management specialist at the Michigan Agricultural College, who has studied reports from all over the state has the following to say of conditions: The high cost of living hits the

farmer on both cheeks. He must live and he must produce. High wages to all that he hires and high prices for all that he buys means less and less profits unless farm prices advance accordingly. The farmer must depend more and more upon his ability as a manager in meeting the situation.

One of the first steps to better management is a farm record book. Farmers who have kept records in the past are using them now in solving the problems that confront them. The most elemental records help out in making future plans and cutting to a minimum the enterprises that do not pay a profit. The time necessary to keep an account book is so small that no farmer can afford to be without one in the future. The beginning of the year will soon be at hand, and farm work will be slowed up enough from what it has been during the summer so that time can be taken to make the inventory and get the record under way.

### WASHTENAW COUNTY

A group of 160 farmers residing in the vicinity of Saline have formed a co-operative live stock shipping association.

A sale of government-owned footballs was held at Ann Arbor several days, but we have heard of none of our citizens going over after any. Postmaster Abbott says that there will be another carload for sale there later.

Every reader of The Enterprise should remember that the Washtenaw county fair will be the great event at Ann Arbor next week, and if possible attend it at least one day. The whole show will be under canvas and that alone will be a novel feature.

A. K. Collins, secretary of the Chelsea Fishing and Fish Propagation Club, received twelve cans of blue gills from the state fish hatchery, Tuesday, which were planted in lakes near Chelsea. This shipment makes 105 cans of fry that the club has received this year and planted in the lakes of Sylvan, Lyndon and Dexter townships.

## SELECT SEED CORN NOW

Fine Corn Crop Is Sure for Michigan This Year—Select Seed for Next Year's Planting.

That Michigan farmers will harvest an unusually fine corn crop this year is the opinion of Prof. J. F. Cox, head of the farm crops department at M. A. C., who points out that favorable weather has brought bright prospects to all corn growing sections of the state. Adverse conditions have resulted in poor crops for several years, but corn seems to have proved a success this season.

The fine crop gives an unusual opportunity for selection of good seed corn this year and many farmers of the state will take advantage of the opportunity to improve their varieties. The best time to make this selection is in the fall before heavy frosts come, usually in late September or early October. By going into the field and selecting good ears from the best stalks, growers can improve the strain of their corn greatly. Corn is Michigan's most valuable crop and efforts to improve the varieties will add greatly to the wealth of the state. The old rule of "like begets like" works out thoroughly with corn, and the farmers who take pains to improve their seed stock will gain both increased interest in their work and added profits.

Meridian Chapter will confer the fourth degree of masonry tonight.

The sound of saw and hammer is heard in every section of the town nowadays.

William Cash has bought his partner, Russell Middlemiss' interest in the blacksmith shop.

Manchester lodge F. & A. M. conferred the first degree upon three candidates, Monday night.

Dr. Kotts and family and Mr. and Mrs. Skinner of Toledo were guests of Mr. and Mrs. Fred Spafard Sunday.

A much-desired rain fell Tuesday night and a little more Wednesday forenoon, doing much good to vegetation.

Cider makers are getting ready for the fall run. We learn that apples will be shipped here to be made into cider, for which there appears to be a great demand.

Mrs. Carrie Burtless and daughter Hazel and Mrs. Thomas Thorn went to Napoleon Monday afternoon to attend the burial of the remains of Art. Burtless of Albuquerque, N. M.

Manchester masons have been invited to Napoleon Saturday afternoon and evening, when eight candidates will be given the third degree. Supper will be served by the O. E. S. at 7 p. m. Liberty lodge does the work in the evening.

Frank L. Lowery moved James Kelly's household goods to Brooklyn, Monday, where Mr. Kelly will make his home with his son-in-law, Henry Cash. While we shall miss the genial smile, jokes and visits with our old friend, we are pleased to know that his comfort and welfare will be so well looked after.

Wm. Traub and family of Chicago again visited his brother Martin and family, Tuesday. When he was in Detroit two weeks ago on business he had two new auto tires stolen from his car. While there last week, thieves stole two more, making a loss to him of \$300. The tires were locked on the car with regular padlock and cable, but in each case the cable was cut in two.

## AUTHOR DEVIL'S OWN

Short Sketch of Randall Parrish Whose Pen Produced Our New Serial Story.

Few American authors have succeeded better than Randall Parrish in winning the popular favor, and few are better fitted, by education and experience, to write novels of life in America, past or present, than the author of "The Devil's Own." Born in

Randall Parrish.

1858 in Henry county, Illinois, Mr. Parrish attended the University of Iowa, which granted him an honorary degree in 1911, and also studied law. He was admitted to the bar in Iowa and practiced for several years in Wichita, Kan., but the maling fever seized him and he spent two years prospecting in Arizona and New Mexico when that region was wild and woolly. Newspaper work next attracted him and he engaged in that profession in Sioux City, Omaha and Chicago. Also at times he was managing editor of country papers in Nebraska and Illinois. He now makes his residence at Kewanee, Ill.

Much of his spare time has been devoted to close study of the early history of America, and this has made him thoroughly familiar with the period when our nation was in the

making and in which the plots of many of his fascinating stories are laid. He also has made himself an authority on civic work and is in great demand as a lecturer on topics concerning town development, as well as on American history and literature.

The story will be started in The Enterprise in two weeks, Thursday, Sept. 25. There are some who have signified their intention to subscribe for The Enterprise this fall, and we would suggest that this is an excellent opportunity; \$1.50 a year; 75 cents for six months.

If you are in the market for a Corn Harvester it will pay you to see us before you buy. We are the agents for McCormick, Deering and John Deere machines. We give you quality and service. Dresselhouse & Davidter.

Why not save 10 per cent Saturday,—buy Dress Shirts at Wuerthner Bros.

Crates! New Bushel Crates made by A. J. Staib, for sale at Kramer's Egg Warehouse.

For Sale.—Ripe home-grown Tomatoes. G. W. Kramer, phone 89-J or No. 16.

## WHAT IS BEST ROUTE?

Every Village Needs Trunk Road Line—One Now Proposed for This Section.

The report that the road commissioners might build the trunk line south from Manchester out south Macomb street to the turnpike has awakened some objections. There are several routes: One on the town line south from Wm. Logan's; also one past the brewery; one south from the cemetery, past Bert English's and Charles Cooley's; and one past Iron Creek pond. So far as the village is concerned much depends on where one desires to go. If to the turnpike, then to Clinton, Tecumseh, or Adrian, the one straight south would be all right; if to the turnpike, then to Sand Lake or Wampole lake, then the last-named route might be preferred. So important a business as trunk line roads should receive intelligent consideration and not be chosen to suit individual needs, however.

THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.
