MANCHESTER, MICHIGAN, THURSDAY, OCTOBER 9, 1919

NO. 9

The board of supervisors met in annual session at Ann Arbor, Monday.

Mrs. J. L. Hosler of Los Angeles, Cal., came Monday night to Ferdinand Huber's and went to Evans lake to visit Mr. and Mrs. F. H. Ridley for a few days.

Mrs. Harriet Martin, who has been at Clinton with her brother for some time, is now at home setting things in order, as she expects to return to Clinton.

It is confidently expected that the student attendance at the University of Michigan this year will reach 9,000 and perhaps more. There were 8,783 in the literary department Monday, 1,896 in the engineering college, 315 in the law school, etc., all considerably more than were registered three years ago.

Returning from church last Sunday, Mrs. M. Dealy was greatly surprised to find that her relatives had assembled and spread a nice pot-luck dinner, which, needless to say, was enjoyed by all. After dinner, Miss Carmela Cash, in a very pleasing manner and in behalf of those present, presented Mrs. Dealy with useful gifts in honor of her birthday.

Miss Clara Lodwick, of the Washenaw county Red Cross nurse, has located permanently here and is boarding at A. J. Waters', where she can be reached by telephone before 3 a. m. and after 5 p. m. She has been allowed by the Welfare Association to make her headquarters at the ladies' rest room under the Union Savings Bank, and will be there every Wednesday evening from 7 to 9 o'clock, and on Saturday mornings, or by special appointment. The territory she is expected to look after is Bridgewater, Freedom, Manchester and Sharon. She drives an auto and could go elsewhere if not otherwise engaged.

SOCIETIES.

MANCHESTER LODGE No. 148, F. & A. M., meets at Masonic Hall Monday evening on or before full moon. Visiting brothers invited. August Lind, W. M. E. E. Root, Secretary.

MERIDIAN CHAPTER No. 48, R. & A. M., meets at Masonic Hall, Wednesday evening on or before full moon. Companions cordially welcome. E. D. Root, Sec. F. E. Spafard, H. P.

ADONIRAM COUNCIL No. 24, R. & S. M., assemblies at Masonic Hall, Tuesday evening after each full moon. All visiting companions invited. Mat. D. Blosser, T. L. M. C. W. Case, Recorder.

MANCHESTER CHAPTER No. 101, O. E. S., meets at Masonic Hall, Friday evening on or before full moon. Visiting members are invited. Mrs. Edith Root, Secretary; Mrs. Edith Lowery, W. M.

A meeting of the county war board committee will be held at the Times building in Ann Arbor, Sunday, afternoon, Oct. 12 at 3 o'clock, to plan the county community service drive.

The date of the teachers' institute at Ypsilanti was changed to Wednesday, Oct. 15. Hon. O. T. Corson of Columbus, Ohio, and Assistant Superintendent P. C. Packer of Detroit will deliver addresses.

Monday morning when workmen began pulling up hitching posts that were loose and no longer stood at the exact perpendicular on Exchange Place, it was supposed that new ones were to take their places but when a load of gravel appeared and the holes were filled it was found that Manchester has taken one more step toward a modern appearance, as the Common Council had ordered the unsightly posts removed. Plenty of people at once remarked that the street looked better. Though the majority of vehicles that come to town are autos, there are still a good many teams to hitch, especially in the day time and additional space may have to be provided on some adjacent street.

SCHOOL NOTES

William Kulenkamp, Jr., entered the first primary Monday.

Mrs. F. H. Blosser visited the second primary and intermediate departments last Thursday.

F. Hackett gave a very interesting and helpful talk at chapel Monday morning. He had for his subject, "Co-operation."

Miss Twila Haines of the English department spent Sunday at Ann Arbor and attended the Case-Michigan football game.

The first football game of the season was played at Brighton field last Friday afternoon with the Clinton high school team as the opposition. The game was rather a one-sided affair owing to the inexperience and lack of grill of the Manchester boys.

Auto Roads in Upper Peninsula of Michigan Are a Delight—The Mines Wonderful.

Mr. and Mrs. B. F. Burtless of Lansing have been spending two weeks in the upper peninsula and Mrs. Burtless writes The Enterprise as follows:

Our trip from home to Kalamazoo was fine, but from there to Benton Harbor it was "ferce," so much so that Fred was too tired to drive any farther that night. On that road we passed through the grape belt. There are acres and acres of vineyards and the grapes were just ready to pick. It was a sight to us, as we had never been through before. We stopped and bought a basket of grapes which were the most delicious that I ever ate—dead ripe and so sweet.

Leaving Chicago we made on to Milwaukee where Fred's cousin met us out a few miles and piloted us into the city, which was fortunate, as it was dark and it would have been hard to find his house. We made 215 miles that day, which was our biggest mileage yet for one day.

Wisconsin has a splendid system for marking the routes. They have them numbered and place the numbers on telephone poles close together, so all one has to do is follow the number. We also had a guide book which gave us the names of the small towns through which we passed and most of the rivers we crossed.

I had splendid, hard roads all the way from Chicago, but especially from Milwaukee they were all that one could desire. This county has not as good roads as some of the others, but they are building as fast as possible. When wet, the clay up here is very slippery, so I can see why they have built so much road. We drove miles and miles through forests and not a house in sight, over those wonderful roads, with down in our part of the state where there is so much travel, the roads are generally poor.

I consider this trip one of the greatest privileges that I have ever enjoyed. In the picture of the hotel where we are stopping I have made a cross to show where our room is and the window where I am sitting. It looks out on Lake Superior, which is about half a block away, and I can see the breakers rolling in. At night, after the sawmill stops run-

ning, we can hear the lake very plainly. I just love it and about as soon as we arrived here I made a bee line for the beach and stayed down there a long time.

Yesterday we walked down on the breakwater and along the beach. I want to go out there again today, but it is raining this morning.

This is the most beautiful time of year to be up here. The forests are gorgeous in the most brilliant autumn colors and the dark green pines and the birches, which grow in clusters, of from three to a dozen, with their pure white bark just set off of the colors of the maples and other trees.

I have had two very novel experiences since coming up here. Have been down 200 feet in an iron mine and 1,500 feet in a copper mine. They aren't very anxious to take regular stopping place and I haven't to have me go, so they rigged me out in some old clothes and we went, and I surely did enjoy it. The iron mine was the Balkan, near Crystal Falls, and the copper mine was the Victoria near Rockland, probably about 16 miles from here. We also visited

the stamp mill and the power plant.

This mining country is entirely new to me and is most interesting. This town has no mines, but has a large sawmill right near here. I can see them bring the logs in on cars, dump them into the river and hoist them into the mill, all from a window in our room.

The towns in this part of the state are very different from those around us. Some are built up on account of the mines and others because of the timber lands. This town is interested in lumbering, parallel with the street, running parallel with the railroad. There are two lighthouses in sight of the Elk hotel where we are stopping; I presume they show the entrance to the river. It may be that in severe storms boats could put in here for shelter, but it is not a regular stopping place and I haven't seen any yet. I am told that their course from Duluth to Houghton is out about 25 miles in the lake and of course one cannot see them unless on a very clear day, and perhaps not then.

To go back to the copper mine:

It was very interesting to see how they get the copper out and note the different way in which it is found in the rock. In some places they find large chunks of what is called mass copper, weighing tons, and again it appears only in small particles in the rock which must be crushed at the stamp mill and copper washed out. We all carried little lamps which the miners use on their hats. In some places we had to climb ladders and in others fairly slide down in order to get to the place we wanted to see. There are 28 levels in that mine and each level means 100 feet. On each level they have telephones so that they can talk with those on top and if anything happens they can immediately call for help.

It was a wonderful view from that mine location; as far as one could see were hills covered with trees and they looked like a carpet in all their brilliant colors.

We will probably be going on to Houghton in a few days, then to Marquette, Milwaukee and get back home by the 10th.

What's the use, Folks— What's the Use!

WHY take honest-to-John Tobacco that nature grew for us all—and then "spill the beans" by messing it up with lolly pops?

Velvet isn't fooled with that way. Velvet has just naturally relied on Nature since it was knee-high to a grasshopper.

First off, it was bred in old Kentucky, wonderland of Tobacco.

Next come, it was cured in the open air, right out with the good ole sunshine. Yes sir.

THEN it was gentled along by its lonesome for two years, while it just kind of thought things over and decided to have no bad qualities.

After these two years in wooden hogsheads it was packed in the jolly red tin you see everywhere, if you're not color blind—and we hope you're not.

As Velvet Joe says: "The way Nature does things is best for man and his tobacco. You can't fool Nature—an' she won't fool you."

FIFTEEN cents seems a pickayune price, doesn't it, after all that?

Can you think, right off, of anything more or better for a dime and a nickel? And for cigarette smokers—there are 45 mellow cigarettes in every Velvet tin.

Velvet sure will be right glad to meet you this very day.

A TRIAL WILL CONVINCE YOU.
NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Ford
THE UNIVERSAL CAR
Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention: any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

Mrs. Bessie Torrey was in Jackson on Monday afternoon.

Miss Sarah Goodenough of Bowling Green, Ohio, has been visiting friends in town.

Rev. and Mrs. S. Schofield, 107 of Richmond, visited Rev. and Mrs. H. J. Johnson last week.

J. D. Torrey and family drove over from Albion Sunday to visit his mother, who is ill.

Mr. and Mrs. Wm. Mount of Norwell are guests of Mr. and Mrs. E. M. Smith this week.

Frank Lowery and Wesley Silkworth drove to Detroit Monday after repairs for their trucks.

Mrs. A. F. Freeman of Ann Arbor is visiting Mrs. J. D. Gage and other friends here this week.

Carl Lehr drove up from Detroit and returned Sunday afternoon accompanied by Mrs. Warren Kimble.

Toledo Alberts are expected to Grand Rapids Tuesday to attend the annual session of the grand lodge, O. E. S.

Miss Laura Wald has resumed her position in the store of J. E. Seckinger after an absence of about three months.

Mr. and Mrs. H. K. Berger drove to Toledo Wednesday night and will be visiting her mother and other relatives.

Blanche Robinson of Ann Arbor was compelled to ride in an aeroplane while in Clinton and enjoyed it very much.

The Academy of Forty will begin its year's activities in a meeting at the home of Mr. and Mrs. Bennett C. Root, next Tuesday evening.

Mr. and Mrs. C. W. Spielman, who live in Jackson, have sold their place and will purchase a smaller place. The place sold brought them a trifle less than \$135 per acre.

As a result of labor troubles and rioting at Gary, Ind., it has been necessary to draft citizens to act on the strike force. Word comes that Lynn Glover, who is working with an insurance company there and one of our former town-boys, was among those drafted.

Mrs. Wm. Henlon of Haron, South Dakota, is visiting her brother, Thos. J. Thorn, and wife, and other friends in town. She came to Columbus, O., where G. A. K. excursion and has been visiting relatives and friends in Michigan.

At the meeting of the grade held at G. A. R. hall, Friday evening, Mr. and Mrs. Wm. Martin and Mr. and Mrs. Walter Rawson were elected delegates to a county convention at Ann Arbor on Tuesday, called to discuss delegates to the state meeting in December.

Miss Blanche of Cleveland, Ohio, who is visiting here, will preach at Tecumseh next Sunday afternoon. Mrs. Blosser, who suffers from a paralytic stroke a few months ago, is able to sit up part of the time, but cannot walk nor help herself much. She has a nurse attending her. Mr. Blosser also had the pleasure of meeting Mr. and Mrs. Fred Steinhilber and son William and wife at their home, and found them all well. He also called on Dr. Idinger at his home and enjoyed a visit with him and took dinner with him at a hotel. It was a very great pleasure to meet these former residents of our village and answer questions regarding so many of our citizens with whom they are acquainted, and to whom they wished to be remembered.

While helping to raise the frame of a new building on the farm of Ernest Mann, in Freedom, Monday afternoon, Lad Wolff of this village slipped from a beam on which he was standing and fell to the ground, a distance of 14 feet, breaking his left arm above the elbow and injuring one hip. After receiving the attention of a physician, he was able to be brought home, but has since been confined to his bed, though no internal injuries have developed. He is resting as well as can be expected.

PRINCE ALBERT

the national joy smoke makes a cigarette!

You certainly get yours when you lay your smokecords on the table, call for a red tin or a tippy red bag of Prince Albert and roll a makin's cigarette!

Prince Albert upsets any notion you ever had as to how delightful a jimmy pipe can be! It is the tobacco that has made three men smoke pipes where one was smoked before. It has won them over the nation to the joys of smoking.

AEROPLANE WAS HERE MUSHROOM DANGER

No Safe Rule to Mark Poisonous Ones—Must Know Individual It—We Would Fear.

Recent rains and rather warm weather are causing mushrooms to appear in Michigan by the thousands.

While only 25 or 35 of the six or seven thousand kinds of mushrooms are really very dangerous, chances are too great to warrant the use of a mushroom which is not absolutely known to the collector.

There is no rule by which one can safely distinguish the edible from poisonous mushrooms.

There was a large attendance at the Eastern State meeting Friday evening.

There are an abundant crop this year and evidently Higgins & Weinlander's orchard is not behind the others in bringing to the market.

The contractors are making very good progress on the Jackson-Manchester pike. They had about 20 farmers' teams hauling gravel from a field just north of the "long crossing." As teams and autos are now allowed to drive on that part of the road which they have graded and are not at work on, the road has packed down some. They have been at work about two months now and have two months more in which to complete the job. It is expected they will be at least nearly through if the weather does not delay them.

Camel Cigarettes

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!
