Considering the amount of practice the local team had, they played a very creditable game and perhaps surprised themselves, because some in the lineup did not know the signals and others were only half familiar. The two teams were evenly matched and it was a well-tought game. The local team made the only score of the game, when Leroy Kiebler intercepted a forward pass and crossed the goal line for a

TO CONSIDER FACTORY

Meeting of Citizens Called to Tak Up Matter of Opening New Industry Here.

As stated last week, an inventor and small manufacturer desires to locate here in Manchester. A committee of the Welfare Association has investigated his invention and looked upon it with favor. The planis not to attempt anything big, but to start in a modest way and grow as the demand for goods increases their sale. As we understand the committee, a suitable factory site and small factory building is all that is asked for to secure location of the plant here. Of course our citizens will be given an opportunity to take stock in the concern if they desire. The article to be manufactured meets a ready sale.

We are sure our citizens are in favor of encouraging factory men to come here, but a meeting is called at the K. of P. club rooms for Friday evening, to talk over the mattér. As this is a business proposition and one in which each firm and individual as a member of the Welfare Association will be asked to boost for the benefit of our village, it is hoped a large number of our citizens will be present.

At the same meeting a report will stated last week, an inventor

He must have forgotten Manchester for half a century or more, yet he says that he recalls the Allen family, Barker, Lewis, Edward and Charles, and wonders if any are yet in the fiesh. He says, "In my mind's eye I can see the old hotel, mill pond, schoohouse and church." He didn't say which one—there were three:

Auto Business.

Ferdinand Huber has begun carrying out plans for increasing his automobile, truck and tractor business far beyond its present limits, by making additions to his already extensive garage.

His residence will be moved south about 15 feet and the garage on Railroad street and south of the alley will be extended out to the sidewalk, giving space for a display room and office. This will not interfere with the driveway, however.

The garage on the north side of the alley will be used for tractors as Mr. Huber realizes that the Ford tractor business is bound to grow. The fact that the Ford company asked him to make this change and improvement convinces him that it is greatly to his interest to do so.

WHY NOT GARDEN SHOW

Citizens Could Make Good Showing And Have Miniature Fair All Their Own.

Some of our citizens raise excellent vegetables in their gardens and of such quantity that they go a long way in re-ducing the high cost of living. J. Fred Schaible had a fine show in his store window all of which were grown in his own garden. own garden.

The school boys have done their bit in raising vegetables this season, as was shown by the exhibit last week.

It would be a fine scheme if all who raise vegetables for their own use would unite and make a display where people could see what had been done. Besides showing what individuals can do it would inspire others to do likewise.

"No Rheumatics" is a Mighty Poor Acces for Wearing a Wooden Leg

To sting or not burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys-well, that's another story-that's Velvet.

And 'cause why?

'Cause Velvet is brought up-not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with-and don't you forget it. See, taste, smell, feel the "real tobacconess" in Velvet. Why. you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would e tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

▲ Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily pre-

and on district good roads.

Our townspeople were greatly shocked Wednesday by the announcement of the sudden death of their neighbor and ex-supervisor. Frank Dettling, at an early hour that morning. He complained of a stomach trouble but no thought of anything serious was entertained by the family. About midnight his wife heard him groan and soon after was horrified to find him dead. Apoplexy was the cause. Besides a wife, he leaves a family of four sons and two daughters. He was 54 years of age.
