#### THE ANKER-HOLTH SELF-BALANCING CREAM SEPARATOR

Cream

Why the Anker-Holth Cream Separator Satisfies the User

BECAUSE the bowl, being self-draining, makes it BECAUSE it is easily cleaned and easy to turn—that's why the "women folks" like it.

BECAUSE the bowl has no lead or soft solder on the uside in order to effect a balance. BECAUSE it will get more cream that will make more butter from a given amount of milk than any other

BECAUSE it is the only separator with a dirt

chamber that removes all impurities from the whole milk before it enters the discs for cream separation.
