False Claims.

WE hope there is no Mother who thinks she can treat her sick baby without calling in a Physician, or with remedies that she uses for herself.

Most Mothers know that Baby requires remedies especially prepared for babies, yet there are some who think that what is good enough for them is good enough for Baby, and it is to these Mothers we appeal to give nothing to their babies that is not specially prepared for babies or recommended by their Physician.

False claims may kill, but false claims can never restore your child.

For over thirty years Fletcher's Castoria has been aiding in the reduction f the deaths among infants as Mothers have become more and more acquainted with it. Always keep it in the house.

on drug-store shelves. Reliable druggists think only of the welfare of their customers. The other kind only of the greater profit to be made on imitations. Your own judgment tells you that Fletcher's Castoria having for

ever thirty years at great expense held up its reputation, must jeal-ously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs. Must retain skilled chemists in its manufacture.

Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Casteria.

yet actually "burgler-proof." Then haturally the thought is to make the penalty so heavy as to keep the experienced offenders locked up for a long time and deter youths from making a start in the "profession."

In the old days on the plains when a man's borse was fairly a part of himself, when the loss of his conveyance was eiten a question of life or death, short shift was made of the horse thief. In the milder mannered cast not many years ago much attention was paid to horse thieves and the announcement that a steed had been stolen produced more excitement than the robbery of a city bank would in the present times. We take it that it was not so much the money loss that brought so much attention on the part of the officers, but it was the idea of gainig a security for personal property. We need that feeling of security to day, and besides the money value concerned is far more than it was with the horses. We wouldn't advocate hanging to the nearest convents. marked Mrs. Fields, in the midst of "Don't bother to read the rest e

of blægills ad bullheads. In a rama, the criminal court recently on a summy surrounding the lake, charge of murder, there was considing a summy surrounding the lake, charge of murder, there was considing the lake in Freedom, he cut a fishpole and doffing shoes and stockings as in boyhood days he cautionsly approached the edge of the water where he cast his hook ad was soon rewarded with a vigorous but and landed one of the old-fashioned black blægills. Mosquitoes and bugs also bit well and he was not disposed to tarry long and be chewend up, so after half an hour of sport during which he landed more than a score of fish that felt as though they were right off the ice, he gleefully returned to the house and showed his trophics to the family. Oh, it's surely a great and glorious feeling to visit boyhood hausts and live over again where they began examining the

The Ford Sedan is the favorite family car, seats five comfortably. While an enclosed car with permanent top, it has large windows, and may in a minute be changed to a most delightful open car with always a top protecting against the sun. In inclement weather it is a closed car, dust proof, water-proof, cold-proof. Finely upholstered. Equipped with electric starting and highling system and demountable rims with 3½-inch tires front and rear. A real family car. Won't you come in and look at it?

The delights of the electric car with the conomy of the Ford.

You Control The Michigan State Telephone Company-

Your telephone is operated by a company, organize controlled under the laws of the State of Michigan.

So far as its rafes are concerned, it is directly subject to the decisions and direction of the Michigan Public Utilities Com-

You, through this commission, actually control the tele e service which is so intimately a part of your every of life. Its future success of failure is directly in your hands, because the commission must have your moral backing if it is to deal fairly with the telephone company in the matter of revenues. Sufficient and adequate revenues are absolutely vital to the very existence and the development of the utility. Without them the telephone cannot properly function in the adustrial and social advancement of the State.

The close association of your telephone company with the Bell system of America gives you the advantages of a service which is world-wide in its scope. By means of this service, you can, at your will, talk to any one of 13,000,000 telephones in use throughout the United States today. .

It gives your telephone company, too, the advantages of the scientific research of the greatest telephone engineers in the world. This research has developed the telephone art n the United States until today it is by far the most efficient in the world. It is daily developing new improvements which will do much to make your service better.

The officers of your telephone company, who are directing its affairs, are Michigan business men, keenly alive to the many problems incident to the development of the State: And so it is throughout the entire personnel of our company. It is made up of men and women, actuated by no other desire than to do their jobs well and to deserve this great responsi-bility of giving to the people of Michigan the kind of telephone
