Baseball Expert Expects Young ster to Become King.

Former Brooklyn Schoolboy Fast Coming to Front with the Boston Red Sox--Outpitches Much Advertised Carl Mays. Ine Vila a New York baseball expert, says that if young Waite Hoyt

takes good care of his right arm and continues to learn the weak points of American league batsmen he soon may be the greatest pitcher in baseball. Four years ago Hoyt, who now is 20, was a Brooklyn schoolboy, also a natural curve artist. Anxions to become a professional, he visited Ebbets Field on several occasions and surprised the big leaguers with his display of skill. A Giant scout saw Hoyt warm up one afternoon and told McGraw, who asked the youngster to report at the Polo grounds. Hoyt made such a fa-vorable impression on McGraw that he

Time was, some years ago when cryone drove horses and hitching osts on the business street were at remium, that runaways were frequent, but the frequency didn't seem to lessen the interest and at the cry of runaway there was always excitement. Now there is a rariety of these occurrences and a corresponding increase in amount of excitement Everybody knows Kos Berger, the veteran drayman who whistles him-self through the days work, and evergone knows, his horse. He is a perfectly good beast, but so slow that he has gained a Equitation for and wide. "Well, when Kos horse gains, a speed in excess of one mile per hour it is worthy as note. But he can do it all right when he takes a notion was proven Tuesday when the kingbolt of the dray gave out and allowed the vehicle to ride Dob-bin's heels. People around the railway station held their breath in fear of consequences when the horse de-parted from the scene of disturbance and never dreamed of such a displa; and never dreamed of such a display of life from the animal tiley daily see moseying through life, under the soothing influence of Kos' whistled tunes. The flight was a short one.

Last Thursday afternoon Mr. and Mrs. F. Burtless accompanied by Mr. and drs. Downing of Lansing stopped in lanchester for a brief visit with relatives. They left the capital city at 8 that morning, drove through, Jackson and Brooklyn and to Prospect hill on the top of which they cooked their dinner and lived high for a time, viewing at the same time some of the grand-est scenery to be found in Michigan. They then proceeded over the Irish hills to Wampler lake calling on Mrs. Fred Blosser at the San Bernardino cottage, then came here. It was Mr. and Mrs. Downing's first visit in the described region and they were enthusiastic in praise of it. From here they hills to Stockbridge, Mason and home; enjoying a weenie roast en route

Mr. and Mrs. Couch Dorr of Sharon were in town last Friday on business and called at The Enterprise office for a chat. Couch informed us that 61 years ago that day he was stacking wheat on the W. Dorr farm, now the Dorr and Matteson farm south west of town. He pretty sprightly yet and perhaps took hand at stacking rye on his own farm vear, but he did not say so. Mr. and Mrs. Dorr cut some figure in social ffairs in the early days and their activities do not appear to have worn out to any great extent, indeed they are pretty active for people of their years.

Milton Kiebler evidently injured himself severely while in a jumping contst with his brother Harold hear two weeks ago. His hip was slightly sore at the time but he thought nothing of it until a week later when began suffering severely and obliged to remain at home. Dr. Scheurer was called to see him and at once took him to an Ann Arbor hespital where we learn he was put into a plaster of Paris rast.

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you. Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, tootbrush or sponge

A doctor in the house all the time would be a good idea. Yet you vent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy indigestion, colic, feverishness, fretfulness and all the other disters that result from common ailments that babies have. Fletcher's Castoria is perfectly safe to use. It is a harmless sub-

stitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children ary for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend. If you love your baby, you know how sweet it is to be able to
